M'FARLAND DENIES HE IS A PART OF BIG NURSERY FIRM

Taylor, Meanwhile, Announces He Will Begin Work on His Department Budget

THE PARK BOARD HAS QUIT

Objecting to Commissioner's Statement in Council, It Sends in Resignation

Announcement by Commissioner M. Harvey Taylor that he will devote his energies for the time being to the preparation of the budget estimates and to looking over the park and fire department situations carefully; a statement by Commissioner H. F. Bowman, department of public safety, decrying the further expenditure of city money for expert advice; and vigorous denial by J. Horace McFarland of the rumors regarding his alleged connection with the Berryhill nursery—these were to-day's features of the city park controversy.

Commissioner Taylor declined to discuss his probable action relative to the resignation of the Park Board or of Walter H. Manning, park expert, and J. R. Hoffert, assistant superintendent. "Really I've nothing to say about these matters at all," said he, "for the next few weeks I'm going to give my attention to looking into the whole situation, familiarizing myself with conditions, and to preparation of the budget estimates. Within a few weeks I hope to be able to announce the plans for the playground and park work for the coming season."

Park Commissioner J. Horace McFarland issued this statement with reference to certain rumors which were floating about the city yesterday and which grew out of Commissioner Taylor's charges against the giving away of plants and shrubs to the Berryhill nursery.

Mr. McFarland said: "I have heard that I am interested in the Berryhill Nursery Company, for one thing, which is the reason, according to the stories, that exchanges of cuttings have been effected by the succeeding superintendents of the Harrisburg park system. As a matter of fact, my interest in the Berryhill Nursery Company is only as a customer, and has never been other than that. I have bought from it considerable amounts of trees and shrubs and have paid for them. I have no relation to it, financial or otherwise, except that of an appreciative customer."

"The other story is that I had induced Mr. Manning to propose to Mr. Taylor that he should resign in the event of Mr. Forrer's dismissal. This is equally without any foundation in fact. The only communication I have had with Mr. Manning within a month has been to write him, with Mr. Taylor's consent and at his request, urging him to help Mr. Taylor make a show of economy by reducing the charge he had stipulated for the larger service he expected to render the city under the new park plan. Mr. Manning agreed to this on the basis of personal consideration for me. I have not seen or heard of him or communicated with him in any way, directly or indirectly, since."

"Fills Me With Sorrow" "This whole matter fills me with sorrow, for it is after all the park system to which the Harrisburg Park Commission has devoted much effort within the past seven years. It is likely to suffer under the lamentable conditions that have been brought about."

"The present situation is somewhat like that which would occur if a number of people were ordered to take a trip across the Atlantic in a big liner, the captain of which was new to the job and had never been aboard. With a good first officer he might make a fine trip of it, but if he felt like going it alone so as to save the price of skilled help, most of the invited passengers would agree that he

Moore Foresees Time When Susquehanna Will Be Needed For Purposes of Navigation

Special to The Telegraph. Washington, Feb. 25.—An appeal for Federal improvement of the Susquehanna river was made in the House late yesterday by Representative J. Hampton Moore, of Pennsylvania, who spoke in support of measures he has introduced which would revoke the War Department's ruling that the river is a navigable stream only below the Maryland line. "There are some great rivers in the United States that are not treated by the Federal Government with the same consideration that is accorded to other rivers, and the Susquehanna is one of them," Mr. Moore said. "I do not know of any other river in the country so capable of public service, that has been so slightly overlooked. It runs through a section of the country where the people generally have been prosperous and busy, and it is because of

BECKER MAY NEVER AGAIN BE TRIED ON CHARGE OF MURDER

Whitman Says Another Trial Would Be Futile in Face of Court Opinion

By Associated Press. New York, Feb. 25.—Charles Becker, former police lieutenant, convicted of instigating the murder of Herman Rosenthal, the gambler, who has just been granted a new trial, was visited in the deathhouse at Sing Sing Prison to-day by his attorney, Joseph A. Shay. To-morrow, the attorney told Becker, he expects to serve the remittance of the Court of Appeals on the prison warden. Becker will then leave the deathhouse, where he has been confined since the Fall of 1912, and be returned to a cell in the Tombs Prison here until the final disposition of his case. Behind him in the death cells, Becker will leave the four gunmen convicted of actual killing of Rosenthal, whose protest against the police graft system in New York, it was charged, caused him to be shot to death.

The opinion was expressed by attorneys and friends of Becker that he would never be tried again as the instigator of the murder of Rosenthal, and there was also much talk that Becker, if he eventually goes free, will seek reinstatement on the police force.

District Attorney Charles S. Whitman, who will determine whether Becker should be tried again, has thus far refused to say what further action he will take in the case. It is known, however, that Mr. Whitman believes that a second trial would be futile in the face of the Court of Appeals' decision. Jack Rose, the chief witness for the State against Becker, said to-day that he was ready to testify again in the case if wanted. "If it can be proved," he said, "that the case was a frame-up, I want to take the cell made vacant by Becker. I want also to pay the penalty and I want to waive immunity. We must all face the judgment of God. There and there only can I be judged upon the testimony I gave at the trial."

Ossining, N. Y., Feb. 25.—As soon as Charles Becker gets out of prison he will devote all his energies, he says, to making a show of economy by being responsible for the murder of Herman Rosenthal. Becker declared to-day that he could furnish information that would bring the real culprits to justice. "After I have done that," said Becker, "I shall be willing to go back to the police department, if they want me, if they do not I will enter some other line of work."

JUDGE KUNKEL IS SCARLET'S CHOICE FOR SUPREME JUDGESHIP

Noted Lawyer Declares Dauphin County Jurist "Best Fitted Man"

PAYS HIGH COMPLIMENT

Danville Man Was State's Attorney in Capitol Trials Before Kunkel

James Scarlet, of Danville, one of the foremost lawyers of Pennsylvania and the attorney who prosecuted the Capitol scandal cases from start to finish, declared to-day that he considered President Judge George Kunkel, of the Dauphin county court the best fitted man of all mentioned for the supreme bench this year. The name of Mr. Scarlet has been used from time to time as a possible candidate for Governor, Lieutenant Governor and Supreme Court Justice. "What are you a candidate for?" was asked of the famous attorney. "They are now mentioning you for Supreme Court." "I am not a candidate for anything, especially not for the Supreme Court," replied Mr. Scarlet. "But I want to say that I am for George Kunkel, President Judge of Dauphin county, for the Supreme Court. I consider him the best fitted man for the bench. He is the genius of common sense. He has a wonderful knowledge of the law and he has courage. The people of this State could not do better than nominate him."

RIVER FROZEN FROM SHORE TO SHORE FOR 29 MINUTES TODAY

And Then Something Broke and the Icy Mass Moved On

The Susquehanna river was "closed up tight" from shore to shore this morning for a period of twenty-nine minutes, according to the record kept at the tollhouse at the entrance to the Market street bridge, by Joseph Pyle, the tollkeeper. This is the first time in two years that the river has been frozen from shore to shore at this point. The river was frozen over above the Cumberland Valley Railroad bridge about 9 o'clock, but there were three open channels between the Harrisburg shore and Island Park. At 11 o'clock the ice stopped running between the Harrisburg bridge and Rockville. Rivermen expected to see a closed river for several days, but something evidently broke loose, for the ice was again on the move at 11:29 o'clock. From the eastern shore of the island to the Cumberland shore the ice has been intact for some time, not an open channel being reported between the Harrisburg and West Fairview. The ice on the river is from four to eight inches thick.

To Get Warmer It's going to be slightly warmer to-morrow, according to announcement from the weather bureau this morning.

QUEEN ELIZABETH OF BELGIUM TO BANISH LOW CUT DRESSES FROM HER COURT

QUEEN ELIZABETH OF BELGIUM. Brussels, Feb. 25.—Women wearing gowns too low cut or too flimsy will be excluded hereafter from all court functions in Belgium by order of Queen Elizabeth. The fact that at the last court ball given by King Albert women appeared in dresses silt in some cases as high as the knee, and in corsets extremely décolleté, is given as the reason for the Queen's edict.

SAFE BLOWERS MAKE FUTILE ATTEMPT TO ROB STATE TREASURY

Two Separate Explosions Made Before Robbers Were Interrupted

Des Moines, Iowa, Feb. 25.—An unsuccessful attempt to dynamite the vault in the State Treasurer's office here was made early to-day after two State House watchmen had been bound and gagged. The safe blowers left the capital building with only \$5, which they took from a cash drawer in the treasurer's office. Two separate explosions were caused around the door of the vault and the men were able to begin a third attempt before they were interrupted. A third watchman was said by the police investigating the affair to have been asleep in the supreme court room while the attempted robbery was in progress.

Situation Tense as Result of Hanging of Clemente Vergara at Hidalgo

U. S. SENATE ASKS FOR INFORMATION

Foreign Relations Committee and Secretary Bryan Discuss the Situation For Two Hours

American Is Hanged by Mexican Federals

Laredo, Tex., Feb. 26.—Official confirmation of the hanging of Clemente Vergara, an American citizen, by Mexican Federals, near Hidalgo, Mexico, was received to-day by United States Consul Garrett, at Nuevo Laredo. The report said Vergara's body is still hanging three miles from Hidalgo. Consul Garrett immediately left Nuevo Laredo for the scene.

Washington, D. C., Feb. 25.—Further complicated by dispatches telling of official confirmation received by Consul Garrett at Nuevo Laredo of the hanging by Mexican Federals of Clemente Vergara, an American, near Hidalgo, the Mexican situation took on more tenacity, if it could be said there was any change at all.

Secretary Bryan discussed the situation with the Senate foreign relations committee and for more than two hours answered questions by Senators. Both the Secretary and Senators declined to discuss their conference except to say the trend was to get at the facts, leaving questions of policy for future determination.

"What we were seeking to establish," said Mr. Bryan, "was the actual situation; all the facts regarding the Huerta government and the constitutional movement." "Was there any suggestion of a change of policy on the part of the government toward Mexico?" Mr. Bryan was asked. "We did not talk policies," he replied. "What to do on the basis of the facts established was left for further consideration." The Secretary of State was questioned concerning the strength of the constitutionalist movement in Mexico

A Fertilized Field Yields the Richest Harvest

Mr. Merchant when the manufacturer of some article with a national reputation comes into your town and advertises in your newspapers he is cultivating the field for you. You hardly have to plant any seeds or even watch the weather. All you have to do is to gather in the crops. But the harvest will be twice as large for you and twice as pleasing to the manufacturer if you do help a little.

The public in the same direction will show the plough a little deeper into the soil. The manufacturer uses this newspaper and other newspapers to exploit goods which you carry on your shelves, push those goods. Show them in your windows and on your counters. Advertise the fact that you have them. The public will be interested and will at least want to see them. If the goods are right it will want to buy them. Sales mean profits. Sales of the goods that people want mean reputation and good will. If any manufacturer who is interested in advertising a dealer will address the Bureau of Advertising, American Newspaper Publishers Association, World Building, New York City. It will be glad to answer questions. Booklet on request.
