Mother's Friend in Every Home

Comfort and Safety Assured Before the Arrival of the Storm.

The old saying—what is home without a mother—should add "Mother's Friend." In thousands of American homes there is a bottle of this splendid and famous remedy that has aided many a woman through the trying ordeal, saved her from suffering and pain, kept her in health of mind and body in advance of baby's coming and had a most wonderful influence in developing a healthy, lovely disposition in the child.

There is no other remedy so truly a help to nature as Mother's Friend. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant those fibres and muscles which nature is expanding and soothes the inflammation of breast glands.

Mother's Friend is an external remedy, acts quickly and not only relieves but complete recovery for the mother. Thus she becomes a healthy woman with all her strength preserved to thoroughly enjoy the rearing of her child. Mother's Friend can be had at any drug store at \$1.00 a bottle, and is really one of the greatest blessings ever discovered for expectant mothers. STEELTON MIDDLETOWN & HIGHSPIRE ROYALTON OBERLIN & ENHAUT

MEMBER OF THE KING GANG IS CAPTURED

Man Recognized as He Came From Hen Coop Thought to Be One of Marauders

Incited to action by the long list of petty robberies in the lower end of the county, Steelton authorities have taken steps which they believe will end in the capture of every member of a marauding gang, believed to be doing the robbery.

One man, believed to be a member of this gang, has been arrested and a warrant has been issued for another now in hiding. The man who was captured is Mike Niksic, a foreigner who lives at 10 Lochiel Row, Harrisburg.

Niksic was arrested on the oath of Ivan Mucka, who says he recognized Meia and Pava Keralica, who so far has eluded capture, coming out of his henhouse the evening of February 9, with a bag of his choicest fowls. In default of bail Niksic was held for court by Squire Gardner.

Between 3,000 and 4,000 chickens and other fowls have been stolen from residents hereabouts, the authorities say. The first visit of the gang was to a farm near Oberlin in November. Since that time the visits have been almost nightly and have covered the entire district around Steelton, Oberlin, Enhaut, Highspire and Middletown.

ENGLAND TO TAKE NO IMMEDIATE ACTION

[Continued from First Page.] played throughout the British Isles over what is regarded as the attempt on the part of Venustiano Carranza, a constitutional leader, to sow discord between England and the United States and also over the repeated delays in the investigation of the death of Benton.

In reply to a question as to the investigation into the death at Juarez of William S. Benton, the British ambassador, Sir Edward Grey, said: "Communications with the government of the United States are still proceeding, but I would repeat what I said last week—that these communications do not imply that the government of the United States has any responsibility for what has taken place—by which I mean, of course, the death of Benton."

Will Welcome Action. "While, therefore, we shall welcome any action that the United States is prepared to take to secure justice, we have no objection to demand as a right that the United States should itself resort to the use of force."

"One can demand that another government should go to all lengths to make reparation for a crime only when one holds that government in some way responsible for the commission of the crime."

"So far the United States has shown at least as much interest in the death of Benton as the United States has shown every desire to use its influence to secure protection for British subjects in the Mexican territory controlled by the revolutionaries."

"I would therefore sum up the situation by saying that if the United States thinks it proper to take further steps, either on behalf of its own citizens or of a British subject, we will gladly wait the result. But if for reasons of its own the United States does not think it desirable to take such steps, we must, of course, reserve to ourselves the right to secure reparation whenever it is in our power to do so."

May Take Action Later. "The violent death of a British subject and the refusal by those in Mexico to allow the circumstances to be investigated make it incumbent upon us to do what we can on our own behalf."

"Assuming that the United States does not desire it to take any responsibility for intervention, it has been urged upon me that we should take immediate action, without, however, giving me any suggestion or indication of what action we can take at the moment."

"I must repeat what I said last week—that there is nothing we can do under present conditions. We have no prospect of engaging in such a fantastic attempt as the sending of a force—which to be effective would have to be a very large force—into any part of Mexico."

THROAT Troubles ARE Dangerous

because the swollen glands and inflamed membranes often affect other tissues and impair their healthy action.

Scott's Emulsion stands alone as nature's corrector of throat troubles; its cod liver oil speedily converted into germ-resisting tissue—the glycerine is curative and healing, while the combined emulsion up-builds the forces to avert the weakening influence which always follows throat troubles.

Scott's Emulsion is best for three important reasons—it relieves the trouble, it presents a reliable, it is not charged with useless or stinging drugs.

Shun substitutes and insist on Scott's.
