CONG. KREIDER TO INTRODUCE BILL [Continued from First Page.] have been impressed with the fact that even when the improvements to our Post Office now under way are completed you will not have a building adequate to your needs. In this 'postmaster Sites, who has also been carefully studying the matter, heartily agrees. I have an engagement with him this afternoon and together we will go over the whole subject. When I return to Washington to-morrow it is my purpose to consult with the supervising architect relative to the cost of enlargements that will be required, following which I will introduce a bill providing for them. It is an emergency measure and I believe Congress will lose no time in passing it. At least I am very hopeful that the other members will see the matter in a favorable light when I present the case to them.

\$2,500,000 PAID FOR REMOVAL OF SNOW

20,687 Men and 2,671 Trucks Employed in Work in New York City

New York, March 4.—Fair weather and thousands of snow shovelers contributed to bring about almost natural conditions of transportation and wire communication between New York and the rest of the country. Railroads whose telegraphic service was stopped reported that all wires being restored rapidly and regular trains were being resumed. Virtually all of the trains on the Jersey Central, the Pennsylvania and the New York Central lines had been found early to-day. In New Jersey, where the force of Saturday and Sunday's storm did the most damage, large forces of linemen began gathering up the tangled telegraph and telephone wires, more than 800 miles of which were still down, together with 1,000 poles. Milk trains which bring in the larger part of the milk consumed in the greater city, began running on slightly delayed schedules and perishable freight long delayed in drifts is being rushed to markets here. It was believed that deliveries to-day would cause a tumble in the price of eggs with the storm caused to soar to fifty cents a dozen yesterday. The snow continued to melt to-day, making easier the task of clearing the streets, many of which in residential sections have been practically blocked since February 13. The street cleaning department hoped to repeat yesterday's performance when 121,385 cubic yards of snow was removed. A total of 20,687 men and 2,671 trucks were employed in the work. The city's snow removal bill this winter will aggregate about \$2,500,000.

Hundreds Rush to Fire But Find 'nary a Bit

Fully 200 men, women and children rushed to the vicinity of re alarm box No. 284, Hummel and Swatara streets, shortly after 10 o'clock last night when an alarm sounded. They found no re. There had been a small blaze, which started from a leak in a gas pipe at the home of Frank Gerlock, 121 Swatara streets, but a little water from a bucket, made it unnecessary for the firemen to do any work. Firemen in the upper district had a stubborn blaze to fight in the cellar at the garage of the Harrisburg Automobile Company, Susquehanna and Hamilton streets, late yesterday afternoon, which caused damage amounting to \$250.

Prosecuting Attorney Denounces Murderer

Chicago, Ill., March 4.—"A vile coward who killed his wife and made his children motherless, and then attempted to blacken her character to save his wretched life," As Prosecutor Malato uttered these words of denunciation of William Cheney Ellis in his opening argument to the jury to-day, Ellis, on trial for the murder of his wife, swayed in his chair and had to be supported. "Look," exclaimed Malato. "Ellis gets a glass of water and has some one to lift him up, but he gave his wife no water while she lay there shot four times and with her throat gashed. If he receives the death penalty at your hands, he will have a chance to make his peace with the Almighty. He gave his wife none."
