NO ENCAMPMENT DATES ARE SETTLED

Everything Depends Upon What Uncle Sam Does About the Maneuvers

No determination of the dates, places of the encampments of the National Guard will be made by Adjutant General Thomas J. Stewart until it is definitely determined what part Pennsylvania is to play in the maneuvers in the vicinity of Baltimore. Notwithstanding reports that July 18 to 25 has been selected as the period for encampment nothing has been done.

If two brigades of the Guard go into the federal maneuvers there will be no division encampment this year, but two brigades with camp separately at places and dates to be chosen later on. Mt. Gretna, Indiana and Erie have been suggested as places. General Stewart is looking for definite information as to what organizations are to participate and the date selected by the United States officers.

Gossip is that two eastern brigades will go, but this is not confirmed.

Armory Contracts.—Contracts were let to-day for the construction of the new armory at Waynesburg to F. Blair & Son, Waynesburg, and for remodeling of the building at Court street and Infantry in Pittsburgh to Madducks & Co., Pittsburgh. It is expected that the \$9,000 required to award a contract for the Greenburg armory will be raised within a few days and that a contract will then be let. The bids were above the amount available and Greenburg people undertook to secure the balance.

Two Appointed.—James Towell, Greensburg, has been appointed a Capitol policeman to succeed the late Captain W. H. Crook, Harrisburg, and John M. Hale, Jenkintown, an elevator operator to succeed Joseph Berrier, Jr., Harrisburg, who becomes clerk to the moving picture censors.

Consentance.—Seventy dollars in bank notes received at the State Treasury to-day in a large envelope addressed to the State Treasurer and without any directions. The money was ordered placed in the consignment fund. This is the first time money has been received without a word of explanation.

Cattle Dealer Fined.—Henry E. Brown, a cattle dealer of Lancaster county, has been fined \$100 for violating the interstate cattle law by bringing diseased cattle from Maryland to Lancaster county. The cattle were quarantined by agents of the State Livestock Sanitary Board and upon being killed under quarantine diseased. State Veterinarian C. J. Marshall says that this is but one of many cases. He demonstrates the necessity of State and Federal supervision of the interstate movement of livestock. He said that had there been no livestock sanitary law and no State agents on the lookout for illegal cattle traffic these diseased cows might have been sold and placed in Pennsylvania dairy herds where they would have been a menace to healthy cattle.

Leper at Large.—Commissioner Dixon has given directions to all health officers to keep a lookout for Frank Syracuse, the leper who escaped from Oil City. State officials will help.

Flood Warning.—The State Water Supply Commission to-day sent telegraphic warnings to Wilkes-Barre and other places along the north branch of the Susquehanna that the reports from southern New York and northern Pennsylvania indicate that the river will rise and that a 23-foot flood may be expected at Wilkes-Barre by Saturday morning. Men connected with the flood service have been notified to send warnings of any rise in the streams elsewhere, the warm weather having caused rapid melting of the heavy snow on the mountains.

Asking For Bids.—State Water Supply Commissioner E. M. Bigelow will ask for bids to be closed April 6 for furnishing asphalt to the State for its road work. Indeterminate quantities are asked on the State specifications.

Lieutenant Resigns.—Second Lieutenant Ray B. Eyre, of Company C, Eighth Infantry, Chambersburg, has resigned.

Increases Filed.—The York Card and Paper Company, York, to-day filed notices of increase of stock from \$100,000 to \$268,000 and of debt from \$6,285 to \$316,500 and the Miller Organ and Piano Company, Lebanon, of debt to extent of \$25,000.

Governor at Albany.—Governor Tener addressed the New York State Legislature yesterday. He was in Albany yesterday for an Elk's gathering and by invitation addressed the lawmakers, receiving a notable reception.

Telephone Row On.—The fight over telephone rates in the Metro district of Philadelphia is on again. A hearing was held yesterday by the Public Service Commission, but it is probable that another will be held.

To Meet Here.—Superintendents and trustees of the State institutions will hold their annual association meeting in this city on May 19. Governor Tener and Superintendent H. L. Orth will be speakers.

Big Hearing On.—The Public Service Commission last night announced that a hearing of all persons interested in changes of tariffs on April 1 will be held in Philadelphia on Monday afternoon. Invitations to attend have been sent to 140 railroads and 27 shippers who have made complaints have also been invited. It will be one of the most notable hearings to be held by the commission.

THOUSANDS TO ATTEND FIREMEN CONVENTION

Finance Committee Busy Making Arrangements to Take Care of Visitors During October

HAVE 104 ACCEPTANCES
 Parade, Exhibitions and Drills Will Feature Program of the Week

When the headquarters of the finance committee of the Firemen's Union closed last night, 104 companies from all over Pennsylvania, and many from New York and other States, had accepted an invitation to participate in the State Firemen's convention in Harrisburg next October. Howard O. Holstein estimated that 20,000 firemen would be on parade in Harrisburg next October. Companies that recorded acceptances do not include organizations from the smaller towns within a radius of twenty miles of Harrisburg.

Every company that will visit Harrisburg will have a band. The average number in each company is eighty. There will be twenty-five companies with a membership of from 150 to 200 each, and to date twenty of the bands coming to Harrisburg have stated that they will have from forty to sixty members.

Summing up the total number of firemen who are sure to come to Harrisburg for the parade, it is believed there will be 11,000 in round figures.

Local Companies Will Figure
 Harrisburg has fourteen companies and will turn out from 75 to 150 men to each company. There will be fifteen bands for the Harrisburg paraders alone, including the band engaged by the general committee. Each of the local companies has invited from ten to sixty-five companies. It is assured that fifty more companies will accept invitations to be on parade in Harrisburg next October.

The parade, announced as the big feature, is not the only attraction that will bring the many visitors to Harrisburg. There will be prize drills, hose races, engine tests and prize exhibitions of the latest things in fire apparatus.

Where Events Take Place
 This convention will meet in Chestnut Street Auditorium. The drills will take place in Market street between Market Square and Front street, and the races and other tests will in all probability take place at Island Park.

Two of the important tasks the local committees are now working on are to raise \$15,000, and to provide quarters for the many thousand visitors.

There is hard work ahead for the general finance committee. It is probable that a conference between the local finance committee and business men will be held in the near future to talk over plans for raising the necessary funds.

Citizens in general will be asked to aid the local committee in providing suitable quarters for the visitors. Chairman Holstein is also preparing a schedule, showing where the money will be used. Local companies are still busy raising funds, and in April and May the general committee will have a series of benefits.

May Be Named High Commissioner of Canada

It has been reported in England and Canada that Sir Thomas Shughnessy, president of the Canadian Pacific Railway, will be the next Canadian high commissioner of London. The place was held by the late Lord Strathcona.

CUCUMBER PICKLES
 One gallon vinegar; one cup of sugar; one cup salt; one teaspoonful of favorite spices to each two quarts of cucumbers. Peel small cucumbers in a large earthen jar, cover with boiling water, cover tightly and let steam four hours. Then take them out of the hot water and place in fruit cans. Pour the vinegar over them and seal. They have a fine flavor and are crisp.—Home Department, in National Magazine for March, 1914.

RAILROAD NEWS

NEW RETRENCHMENTS HIT HARRISBURG HARD

Wednesday, April 1, 10,000 More Penny Men Will Be Furloughed

TRAINS TO BE WITHDRAWN

Five between New York and Washington.
 Four between Philadelphia and New York.
 Ten on main line and Philadelphia division.
 Two between Pittsburgh and Buffalo.
 One between Altoona and Philadelphia.
 Eight on Maryland division.
 Eleven on Trenton division.
 One on Middle division.
 Two on Pittsburgh division.
 Five on Conemaugh division.
 Three on Erie division and Northern Central.
 Six on Baltimore division.

Further orders for retrenchment on the Pennsylvania Railroad lines east of Pittsburgh, issued yesterday afternoon at Philadelphia, cutting out sixty-two more trains and furloughing 10,000 more men, will hit Harrisburg hard.

The retrenchment will be in effect April 1. Orders call for the laying off of all men who are not absolutely necessary to take care of business now on hand. This means clerks, hostlers, trainmen, yardmen and employes in every branch.

Officials in this city said to-day that between 500 and 700 men will be thrown out of employment in Harrisburg, Enola, Lucknow and Marysville on April 1.

Decrease in Business
 It was learned yesterday that during the month of February the business of the railroad company reached the same basis as the earnings of February, 1910. This fact, coupled with others, led to the wholesale discharge of clerks, trainmen, trackmen and other employes.

By cutting train service the officials of the Pennsylvania hope to decrease expenses at least \$150,000 a month.

In the fall of 1910 the company had 117,000 men on the payroll of its eastern lines. Last Fall it had 142,000. The discharges thus far ordered have reduced the working force to about 127,000. When the present program is carried out the operating force will be cut to the equivalent of 117,000 men working full time, or to the 1910 basis again.

Ten Trains Go Off
 On the Philadelphia division, which takes in the section between Philadelphia and Harrisburg, and includes the suburban residence district known as the Main Line, ten trains will be withdrawn. The majority of these will be among those which specially serve the suburban section. The half-hourly service between Broad Street Station and Paoli, it is said, will not be affected. The canceled trains will be chiefly those serving some particular, limited portion of the Main Line and which have been found unremunerative. In the case of the other divisions, the Philadelphia division and Main Line will undergo curtailment, in addition to the outright cancellation of trains.

Two trains will be canceled between Pittsburgh and Buffalo, one between Altoona and Philadelphia, one between Washington and Baltimore and seven others on the Maryland division, one on the Middle division, eleven on the Trenton division, two on the Pittsburgh division, nine on the Conemaugh division, three on the Erie division and Northern Central, including one between Harrisburg and Williamsport, and six on the Baltimore division.

TO INSPECT SCHOOLS

The annual inspection of schools will be conducted Monday by members of the school board. The board will visit the twenty-nine buildings in the city.

Strengthen Your Lungs Is Timely Advice

when consumption claims over 350 daily in the United States. Neglected colds, overwork, confining duties and chronic disorders exert the weakening influence which allows tubercular germs the mastery.

The greatest treatment that science affords is courage, rest, sunshine and Scott's Emulsion.

Scott's Emulsion contains pure cod liver oil to clarify and enrich the blood, strengthen the lungs, rebuild wasted tissue and fortify the resistive forces to throw off disease germs.

Strengthen YOUR lungs with Scott's Emulsion—its benefits are too important to neglect.

Physicians everywhere proclaim its worth and warn against alcoholic substitutes.
