DIGGING FOR BODY OF BURIED MINER

Hundreds of Men at Work Day and Night in Short Mountain Mine

Special to The Telegraph
Lykens, Pa., April 1.—The body of Edward Metz, who was entombed in a breach of the mine at the Lykens Short Mountain Colliery yesterday, had not yet been recovered last evening. Several hundred men were at work for the last forty hours and have removed more than 300 tons of slate, rock, and coal, yet no trace of the man can be found. To-day work was begun on digging headings through another pillar nearby in order to avert the fall of coal, which has continued since the accident. The vein in which the unfortunate man worked was over thirty feet thick and on a steep pitch. The top and bottom pressure of the mountain on the coal bed continues to smash the body of coal and force it toward the opening of the breach, so that it will be hard to tell when this stops and all the coal be cleared away. Some of the men have been at work on the rescue since the accident happened, taking their meals in the mine. Last night the officers furnished the rescuers with twenty pounds of tobacco. This is used to lessen the inhalation of the great clouds of coal dust which is continually present.

Laudenslager, who worked with Metz, and who suffered from shock, is in a fair condition to-day.

How Her Little Girl Was Restored to Health

Mrs. Chas. Schriefer of 139 Himrod St., Brooklyn, N. Y., says: "My little girl was frail, sickly and all run down after having had the grippe. I was advised to give her Vinol and after the first bottle noticed an improvement. She has taken four bottles and has picked up rapidly, having gained six pounds in three weeks."

The reason Vinol builds up weak, ailing children so quickly is because it contains in a delicious combination the two most world famed tonics—i. e., the strength creating, body building elements of cod liver oil, with all the useless grease eliminated, and tonic iron for the blood added. If you have a weak, puny, ailing child, try Vinol on our offer to return your money if it fails to benefit your little one. George A. Gergans, druggist, Harrisburg, Pa. Vinol is sold in Steelton by T. Powell.

P. S. If you have Eczema try our Saxo Salve. We guarantee it.—Advertisement.

A TONIC FOR DYSPEPTICS

When food lies undigested in the stomach it ferments and gas forms. This gas distends the stomach and presses on the heart, causing a pain that sometimes arouses fear of heart trouble. The condition in which gas forms is caused by a low tone of the digestive organs and a lack of rich red blood resulting in deficient nerve force. It is a condition that calls for a tonic.

Dr. Williams' Pink Pills, a tonic for the blood and nerves, have been used with great success in the treatment of this form of stomach trouble. Cold baths in the morning followed by brisk friction with a rough towel will help as they stimulate the circulation but a tonic treatment with Dr. Williams' Pink Pills by building up the blood, restoring the nerve force and making the stomach able to do its work gives the most lasting benefit. With their use the appetite increases, digestion becomes normal and improvement in the general health follows with certainty.

You are trying no experiment when you take Dr. Williams' Pink Pills. They cannot harm the most delicate system.

You can get Dr. Williams' Pink Pills at the diet book "What to Eat and How to Eat" will be sent free by the Dr. Williams' Medicine Co., Schenectady, N. Y.—Advertisement.
