David Gordon a Candidate For the Legislature

As stated in the Telegraph last week, David Gordon, of Hershey, has announced his candidacy for the Republican nomination for Assemblyman from the second district of Dauphin county. Mr. Gordon's reputation as a citizen, a business man, and as a public official stands high throughout the county and his record should entitle him to further service for the people. We subjoin a short sketch of his life.

He was born just over the line of Derry township, near Sand Beach in 1870. His father is Jacob Gordon and he is descended from one of the oldest families in this region.

He attended the public schools and worked on the farm until he was about 18 years old. He then obtained a situation with the Pennsylvania Steel Company, of Steelton, and remained in their employ for upwards of fifteen years. During this time, by his thrift and saving he has purchased a tract of land near Hershey, and about ten years ago he left the Steel Company, and devoted his whole time to farming in which he was very successful. About four years ago he bought the livery and trucking business of E. W. Gingrich and has built up a large establishment. In addition to his trucking business he is largely engaged in quarrying and general contracting.

His fellow-citizens of Derry township discovered his value as a public servant and elected and re-elected him supervisor of the township for five years and during the last year his administration the township received \$1,750 from the State for the maintenance of highways and gained the credit of having the best roads in this vicinity. He has also served the people as tax collector for five years.

In all his undertakings, public and private, Mr. Gordon has "made good." He is a member of Palmira lodge of Odd Fellows, Lebanon lodge of Moose, and is also a member of Maccabees and Heptasophs. He is actively engaged in the work of the First United Brethren Church and Sunday school and is treasurer of the church.

Mr. Gordon is married, has a family and lives at Hershey. He is one of the best known men in the district and has hosts of friends of all parties in Hershey and also in Steelton, Enbataw and other places where he has been engaged in work.

He is essentially a man of the common people. All the success which he has attained has been by his own unaided efforts. Mr. Gordon is very much interested in good roads and promises if nominated and elected to urge forward every measure which will tend to secure them. He advocates introducing the carter methods of road building and economy in State affairs which have made his own business so successful. He says that his guide in all his votes will be the wishes of the people whose servant he is.
