SULPHUR IS THE ONLY THING FOR ITCHING ECZEMA

Use like cold cream to subdue irritation and clear the skin.

In the treatment of the various forms of disfiguring, itching and burning Eczema such as Acne, Ringworm, Salt Rheum, there is nothing known that can take the place of bold-sulphur cream.

It effects such prompt relief, even in the aggravated Eczema, that it is a never-ending source of amazement to physicians.

For years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties. Bold-sulphur is not only parastical, but antipruritic and antiseptic, therefore invaluable in overcoming irritable and inflammatory affections of the skin.

Those troubled should obtain from any good pharmacist an ounce of bold-sulphur cream and apply it directly upon the abrasion like an ordinary cold cream. It is pleasant and the prompt relief afforded is very welcome.
