Anna Held's Advice to Beauty Seekers

The formulas given here by Miss Anna Held cover every important factor in the acquirement of beauty. These formulas produce unusual results. They are extremely economical; you mix them at home, and you then obtain an article of unquestioned superiority, at a mere fraction of the high cost of prepared articles which are never so effective.

HEADY—Nearly half the battle against hair troubles and dandruff is won when the scalp pores are clean and open. Usually people allow the pores to become sealed up by the use of hair cream which always forms on the scalp. Scrubbing and the use of soap does not entirely remove it, what you need is a thorough scalp cleanser and remover of dandruff or dead skin. This egg is par excellence. Pour a teaspoonful of egg in a half cup of hot water and use as a shampoo. Use nothing else for a head wash.

ADA T.—Hair under the arms or on any sensitive part of the body can be removed by the non-irritating powdered deo. This is the only article of its kind worthy of recommendation. Of course if it removes hair on the tenderest portions of the body without irritation or spotting, it will do the same as well on any other portion. You may rely upon it not causing a reddened spot or "burn," so often the case after using other depilatories. Electrical treatment for superfluous hair is not effective, and, besides, is expensive.

MRS. TELL—No getting rid of your wrinkles is not a mere dream. You can make it come true, surely, and in a short time. But you must promise yourself to stop using any other wrinkle cream, or the "massaging machine" should be taken in doses of one teaspoonful after meals and at bedtime. This treatment produces a normal, luxuriant development even in many cases of complete loss.

LETITIA—It is a waste of time and money to use the ordinary "hair tonics" sold. The thing to do if you really want to get results is to make up your own hair-grower at home in a

PAINT HEART—Failure to beautify your complexion with the cosmetics you mention was to be expected. If only the following recipe were to become a national dependence used by all American women, what a wonderful transformation would occur! The results of this formula, you can gather two tablespoonfuls of glycerine, one ounce of amaran and one pint of water. This will form a cream. Use very liberally all over the face daily will banish all over the freckle and mudiness, and give the skin an absolutely spotless, pinky-white tint that is adorable.
