Try This Free Prescription

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription. Go to the nearest wide-awake drug store and get a bottle of Opton tablets; fill a two-ounce bottle with warm water, drop in one tablet and allow it to thoroughly dissolve. Then take this liquid and bathe the eyes two to four times daily. Just note how quickly your eyes clear and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but most seriously neglected eyes are likely to thank you as long as you live for publishing this prescription. Advertisement.

Hair Made Beautiful

Beautiful hair, thick, fluffy, lustrous and absolutely free from dandruff is not so much a gift of nature as a matter of care and proper nourishment. Hair is like a plant—it will not grow healthy and beautiful unless it has attention and proper nutrition.

Parisian Sage, daintily perfumed and easily applied, tones up and invigorates the roots of the hair, and furnishes the necessary nourishment to not only save and beautify the hair, but also stimulate it to grow long, heavy, soft, fluffy and radiant with life.

When used frequently and rubbed into the scalp, it will simply work wonders. Just one application stops itching head, removes dandruff and cleanses the hair of all dust and excessive oil.

Since Parisian Sage, which can be obtained from H. C. Kennedy or at any drug or toilet counter, never disappoints, it is no longer necessary for any woman to be humiliated because of thin, streaky, faded, lifeless or unattractive hair—and as you know, pretty hair, more than anything else, helps you to retain a youthful appearance. SAYS SULPHUR IS SURE TO RELIEVE ITCHING ECZEMA

Get an Ounce of Bold-Sulphur Cream and Heal Skin Eruptions Right Up

Any breaking out or irritation on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur cream, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and then soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its paralytic-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before an eruption again appears on the skin.

Those troubled should obtain at any pharmacy an ounce of bold-sulphur cream which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching Eczema, proves very welcome. Advertisement.

STEELTON AUSTRIANS NEED CALL TO COLORS

Recent Edict of Dual Empire Will Materially Affect Steelton's Foreign Populace

Steamship men and others familiar with foreign labor conditions here in commenting on the recent edict of the Austrian cabinet checking emigration have predicted that the new regulations would work many changes in the big foreign colony in the lower end of Steelton. The greater part of this colony are Austrian and Servian subjects.

By a recent edict of the Austrian cabinet the emigration of all subjects of Austria under the age of 34 years is forbidden. No Austrian will be permitted to cross the frontiers of his country without a passport and the authorities have been instructed to issue such papers only to applicants who have performed their military service and have been passed into the "landstrum," the last line of reserves for home defense. This really means twelve years of military service for the average man.

Will Affect Emigrants

The decree promises to be even more sweeping in its effects than would at first appear. It applies not only to bona fide emigrants leaving for the United States or Canada but it will also prevent many thousands of farm laborers from going to Germany for field work and harvest, as has been the custom every summer. And, further, since the decree makes no mention of any exceptions, it is supposed that waiters, tailors, mechanics and other workers who want to go abroad to complete their trade education will not longer be able to do so.

The new regulation apparently has been made because the military authorities recently discovered when the recruiting levies were called up that more and more of the young men entered on the rolls had gone to foreign parts. It was this which first led to the investigation of the steamship companies' migration activities.

Peasants Can't Leave

While this drastic restriction of emigration will affect to some extent the whole monarchy, certain provinces will feel it more acutely than others, notably Galicia, one of the most densely populated in Europe. The country being entirely too poor to support this population, thousands of peasants go to work on the best farms of Saxony and the corn lands in Germany every year, and thousands of others go to America or Canada. But every fall the laborers return to their homes from Germany, and in the course of a few years many also come back from America to their native land. All bring money with which they buy stock and land. In fact, there are now districts in Galicia where the soil is gradually passing out of the hands of the landed proprietors into the possession of peasants.

To Stop the Exodus

Not only by this decree is the Austrian government endeavoring to stop emigration, but an effort is also being made to get all its subjects in foreign lands back home. Several of the larger steamship companies have entered into an agreement with the government to transport any Austrian who is subject to military duty back to Austria for \$10. If the subject is unable to pay this amount it will be paid by the government.

Men acquainted with these conditions believe that it will be only a few years until the Austrian settlement in the lower end will be entirely depopulated of all its young men. As there are very few men over 35 years hired here, this means that the entire colony will change.

Two Crack Bands of Borough to Combine

Plans for the consolidation of the East End and Liberty Bands will be formulated at a joint meeting of the members of both organizations at a meeting in Markley's Hall, South Front street, Sunday.

A short time ago Manager Martin Gerhardt, of the Liberty Band, suggested to the members of the East End Band that the two organizations consolidate under one leader. He pointed out that the move will give Steelton another musical organization the equal of any amateur band in the State and ranking with the crack Steelton Band. Manager William Oken, of the East End Band, has answered Gerhardt's letter with an acceptance of the plan and the proposal of a joint meeting Sunday.

At this meeting details of the consolidation will be gone over and a leader and officers will be chosen. It is probable that Dionisio Zala, the talented Spanish musician who leads the Steelton Band, will be selected to direct the younger organization.

Carnegie Says There Is More Religion in Poets Than in Old Testament

By Associated Press

Pittsburgh, April 30.—Addressing the students of the Carnegie School of Technology here last night, Andrew Carnegie said:

"I am going to call your attention to a passage of Scripture which I think is one of the most important. It is 'The kingdom of heaven is within you.' I am afraid our ministers do not lay enough emphasis on that passage. The kingdom is within you, and if you obey the judge within you you will have nothing to fear. I am beginning to think there is more religion in some of the poets than in some of the passages of the Old Testament. You find such religion in the verses of Shakespeare and Burns. They teach us to become better men."
