

Women AND THEIR INTERESTS

Only 1 in 1,000 Alive

To be Alive Means More Than to Be a Breathing, Eating, Drinking, Talking Human Creature.

By ELLA WHEELER WILCOX
Copyright, 1914, by the Star Company.

In every thousand people who are living on this earth not more than one is ALIVE.

To be really alive means more than to be a moving, breathing, eating, drinking and talking human creature.

He who is actually alive finds the days so short for the wonderful experiences which are involved in this state.

He finds life itself a continual adventure, full of interest, and with opportunities for pleasure and achievement at every turn.

He finds himself an object of delightful study, however dissatisfied he may be with the present results of that study for he perceives that he is a crude chunk of Eternity, and that in himself lie all the powers and possibilities latent in the Universe. And that in himself lies the WILL to work out these possibilities.

He enjoys the Earth

He who is fully alive enjoys the earth and all its pleasures. He loves the slip of the wind upon his cheek; the dash of the waves upon his breast; the motion of his limbs in the swift walk; the thrill of the good steed's body under his own; the ecstasy of rhythm in the dance; the swing of the oar. He loves labor and the fatigue which follows, and in his harmoniously developed frame there is not one lazy or unused muscle.

But being alive does not stop here.

The man who is perceiving the art of being alive to the extent he has an alert, receptive brain and an awakened spirit. Without these, he would simply be a splendid animal.

With these, he is the highest expression of the Creative Power visible to mortal vision. And with these he finds his opportunities for happiness, usefulness and pleasure in existence threefold.

He knows the pleasures of the physical frame, for which his body is fashioned; he draws to himself the pleasures of the mental plane, and he senses the pleasures of the spiritual plane which lies near, and derives power therefrom.

The man who is alive in all these ways must radiate light, cheer, sympathy and helpfulness to all who come within his aura. He understands the temptations and the troubles and the sorrows of all beings who are less alive than he, and his compassion is greater than his tendency to condemnation.

Sees His Own Position

Being alive to the vibrations from three realms he knows all temptations, and from having made many mistakes himself, in his road to unfoldment, he can sympathize, counsel and help onward many who have not been able to make his progress.

The man who is really alive realizes that he must use his own position in the world, and his own environment as the first field of action, if he hopes to reach success in any venture. He must not wait for luck or a miracle to give him a change of location and surroundings better suited to his taste. Out of whatever destiny has bestowed upon him he will make the conditions which he desires.

And out of every day he will make a little bit of heaven.

No difficulty can discourage, no obstacle dismay, nor trouble dishearten the man who has acquired the art of being alive. Difficulties are but dares of fate; obstacles are but hurdles to try his skill; troubles but bitter tonics to give him strength; and he rises higher and looms greater after each encounter with adversity.

Nothing Can Bore Him

The man who is wholly alive finds pleasure in the simplest things, and to him nothing is commonplace, nothing is menial. And he is never bored.

For nature, human nature, and himself are ever interesting subjects of contemplation and study. And the future to him is a radiant vision, growing ever more and more wonderful.

ARE YOU ALIVE?

Don't get away from the principal fact that first of all you get a piano through this co-operative plan for 248 dollars and 75 cents which will ordinarily cost you 350 dollars

Copyright, 1912, by Stone & McCarrick, Inc.

THERE are nine good reasons why you should get one of these pianos through this co-operative plan, any one of which is a sufficient reason in itself why you should get one. But brushing them all aside and considering only the main reason—for the moment—and you have a big overwhelming advantage which you simply cannot afford to ignore—and that is—that you save a big round hundred dollars (one hundred and one dollars and twenty-five cents—to be exact).

When you come to think of it, this is a tremendous saving: nearly half the price you pay for the piano. Think of what you can do with this one hundred and one dollars and twenty-five cents.

- You can take a month's vacation on this amount.
- You can take a music lesson every week for two years, at fifty cents a lesson.
- You can furnish a room in your home.
- You can buy clothes, knick-knacks, or, put it out at interest.

The fact is, this is such a big compelling sum that there is no limit to the uses to which you can put it. It is for this reason that we again lay stress on this feature.

If there wasn't a single privilege; if there wasn't another single advantage to be had in the purchase of these pianos, this big saving of one hundred and one dollars and twenty-five cents in itself would carry this co-operative idea to an overwhelming success.

Big savings like this are commanding.

Helping Kidneys By Clearing Blood

A Function Greatly Assisted By a Well-Known Remedy.

Most readers will be interested to more clearly understand why medicine is so important. In the use of S. S. S. to purify the blood, its action is a stimulant to the arteries, the constructive tissues that make up the constructive tissues of the kidneys. All the blood from all over the body must pass through the kidneys, and act as test tubes and assayers. According to what they allow to pass out in the urine, both as to quantity and materials, the health of the kidneys and the quality of the blood is determined. The catalytic energy forced by S. S. S. is shown in the urine. It is also demonstrated in the skin. As the blood continues to sweep through the kidneys the dominating nature of S. S. S. acting as it does through all the avenues of elimination, shows a marked decrease of disease manifestations as demonstrated by urinalysis. This assistance is a great relief to the kidneys. The body wastes are more evenly distributed to the emunctories; their elimination is stimulated by the tonic action afforded the liver, lungs, skin and kidneys. Thus, in liver, rheumatism, cystitis, chronic sore throat, indigestion, constipation, indolence and the myriad of other reflex indications of weak kidney action, first purify your blood with S. S. S., so it will enable the tissues to rebuild the cellular strength and regain the normal health.

S. S. S. is prepared by The Swift Specific Co., 527 Swift Bldg., Atlanta, Ga., and you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice.

For Children Lax Links Are Safe and Sure

Don't let the little ones suffer from constipation, as serious illness are apt to result. Very often they will become constipated by overeating. Castor oil, rhubarb or other medicines relieve temporarily, and unless the greatest care is exercised, will often do more harm than good. Lax Links, those delightful sandy laxatives, exquisitely flavored with the oil of spearmint, and which do not contain any habit-forming or dangerous drug are what the children like and need. They are not violent in their action; neither will they gripe or cause pain. A few tablets will be all that is necessary. Recommended by physicians and sold by druggists everywhere. 10c and 25c boxes. Write for free sample. Boro Salicine Co., Philadelphia.

SMART BUT SIMPLE THIS BATHING SUIT

Bloomers Are Separate—Japanese Sleeves and Plain Trimmings

8248 Bathing Suit, 34 to 44 bust. WITH SEPARATE BLOOMERS.

Women who are in search of a smart and simple model for a bathing suit will be sure to welcome this design. The Japanese sleeves and the skirt that is full over the hips give the fashionable lines while simplicity is retained. The blouse and skirt are joined by means of a belt and either separate bloomers or tight can be worn beneath the skirt. Salt water silk is perhaps the most desirable of all materials for it is light of weight, sheds the water and preserves its color, but there are simple wool materials that are appropriate and light weight serge and mohair make good serviceable suits that are handsome at the same time. This one is made of blue silk with trimming of white.

For the medium size, the suit will require 5 1/2 yds. of material 27, 5 3/4 yds. 35, 3 3/4 yds. 44 in. wide, with 1 yd. 27 and 3 yds. of braid to trim as illustrated; the bloomers 3 1/2 yds. 27, 2 yds. 36 or 44 in. wide.

The pattern 8248 is cut in sizes from 34 to 44 inches bust measure. It will be mailed to any address by the Fashion Department of this paper, on receipt of ten cents.

MANUFACTURER KILLS HIMSELF

Hagerstown, Md., May 15.—J. Fred Spenseller, about 46 years old, a cigar manufacturer of Williamsport, this county, was the third person to commit suicide in that place within a few months. Mr. Spenseller shot himself through the head with a revolver while lying on a cot in his factory during the night and his body was not found until noon the following day.

What you get besides the big saving

YOU have read above about the saving that this co-operative sale affords. You can see that this in itself is enough to command the attention of any one thinking about getting a piano.

But read this. This is what you get besides the low price. And mind you, these are all a matter of contract. These features are embodied in the face of your agreement. They are not the "say so" of any one. They are the "black and white" facts—printed in and made a part of this big co-operative plan.

- I. BESIDES THE LOW PRICE,** you get the easiest sort of terms. Regular terms on a piano of this grade are never less than twenty dollars a month, with interest at six per cent, on top of this. Payments on the pianos we are selling on this co-operative plan are five dollars as a first payment, then one dollar and twenty-five cents a week—without interest.
- II. BESIDES THE LOW PRICE,** each and every one of these pianos are doubly inspected, first being selected at the factory by Mr. J. H. Troup, then tried and inspected by Prof. L. I. Evans when they are put upon our floors.
- III. BESIDES THE LOW PRICE,** you get a guarantee which gives you absolute protection for five years from the day the piano is placed in your home.
- IV. BESIDES THE LOW PRICE,** you are privileged to try the piano
- V. BESIDES THE LOW PRICE,** in your home for thirty days. If you are then dissatisfied for any reason, you can get your money back.
- VI. BESIDES THE LOW PRICE,** you are given a whole year's time to use the piano and fully convince yourself that it is worth all and more than you paid for it. If a year's use does not prove this conclusively—you are privileged to exchange it for any other new piano in our house of equal or greater value.
- VII. BESIDES THE LOW PRICE,** you get an agreement which voluntarily cancels all remaining unpaid dues in event of your death during the time your payments are being made.
- VIII. BESIDES THE LOW PRICE,** you are given an opportunity to still further reduce this price—low as it is—by earning cash dividends or cash premiums by taking less time in which to pay for your piano than you are entitled to take.

Parade and Ceremony at Opening of Playground

Special to The Telegraph
Lewisburg, Pa., May 15.—Lewisburg's public playground was formally opened this afternoon and the athletic contest and the other events which have been arranged by the committee in charge will continue until late this evening. Professor Harry Bourne, principal of the Lewisburg high school, was the marshal for the parade of school children and the marchers journeyed to the playground where the exercises were immediately begun.

At the playground there were athletic contests of all kinds, arranged for the different schools. A baseball game between the team from the local high school and a team from the sophomore class of Bucknell University, was one of the features of the afternoon's entertainment.

The May pole dance, given by thirty girls from the local high school, was again a feature. The May pole dance was the first given on the playground at the first opening last year. The Bucknell University band furnished the music for the event and played during the entire afternoon and evening, heading the parade of the afternoon.
