

STUCKER BROS. DO ALL EXCAVATING FOR SUBWAY JOBS

Builders of River Wall Will Begin Railroad Improvement Work Next Week

Excavation for the Second and Front street subways under the Cumberland Valley tracks at Mulberry street will likely be started next week by the Stucker Brothers Construction Company, Harrisburg contractors, to whom the T. Larry Eyre Construction Company, the subway contractors, sublet the excavating portion of the job.

Charles D. Stucker, of the Stucker Brothers Construction Company, said today that he had received notice that his firm was to receive the contract for the digging. About 30,000 cubic yards of earth will be taken out and the excavation will be from house line to house line in Second street and the width of the proposed subway in Front street.

Much of the earth will be taken over by the city for filling in at various points along the river on outside of Market street bridge south. The fill will be necessary to preserve the uniformity of line between the edge of the bank and the sidewalk that will top the wall.

"We expect to begin our part of the work," said Mr. Stucker, "early next week and it will probably take two months to complete it."

Investigation Into Affairs at Carlisle Leads to Arrest of Five Men

Special to The Telegraph.

Carlisle, Pa., May 16.—A wholesale conspiracy for the furnishing of liquor to the students at the Carlisle Indian school, which in many respects has caused the tax discipline conditions which have been reported to Washington, has been unearthed, following the arrest of five Carlisle men on this charge.

The men arrested were Wesley Conn, Abram Carter, Fred Washington and Samuel Jordan, colored, and Herman Lightner, a white man. All have been held for court under \$1,000 bail each, following a hearing before United States Commissioner Paul Willis, United States Marshal J. W. Snyder, of Harrisburg, arrested the men. There appears to be, according to the evidence brought out in the hearing, regularly established depots where the Indians can come and buy when they so desire.

Preliminary arrangements at Niagara Falls Monday, Ambassador Da Gama, of Brazil, and Minister Suarez will follow probably Monday.

VERDICT IN BECKER TRIAL IS IN SIGHT

District Attorney Will Finish His Side of Case Sometime Monday

MRS. ROSENBERG ON STAND

Tells Jury She Lied During First Trial to Save Her Husband From Chair

By Associated Press.

New York, May 16.—A recess today in the trial of Charles E. Becker, former police lieutenant and head of the strong arm squad in charge of the suppression of gambling, accused as the instigator of the murder of Herman Rosenthal, the gambler, whose revelations he feared might stamp him as the recipient of graft in return for police protection, halted until Monday the second presentation of the story of the now famous tragedy of the underworld.

District Attorney Charles S. Whitman announced yesterday that he expected to finish the presentation of the State's case on Monday and the defense probably will complete its rebuttal by the middle of the week. From this a verdict may be expected by a week from to-day.

Interest in the trial has not diminished. Quite the contrary, the demand for admission to the courtroom being as eagerly sought as at the first Becker trial nearly two years ago.

Until the trial of the said alleged plot for the murder of Rosenthal had been given but few new touches and the testimony of Rose, corroborated by the chief evidence upon which District Attorney Whitman based his case against Becker. Then, however, Mr. Whitman sprang a surprise by calling Mrs. Lillian Rosenberg, widow of "Lefty Louie," one of the four gunmen executed on April 13 last, for his in the killing of Rosenthal.

Mrs. Rosenberg admitted that her testimony at the trial of the gunmen had little or no basis of truth, but declared that she had so testified to save her husband from the electric chair. In making this admission and in telling under oath of the meeting in her flat between her husband, the other gunmen and Rose, when the murder of Rosenthal was planned, she made it appear certain that no mistake had been made in the conviction of the gunmen of whom her husband was one.

Mrs. Wilson Wins Land Case in California

Special to The Telegraph.

Los Angeles, Cal., May 16.—The case involving the fight of Mrs. Woodrow Wilson, wife of the President, to sixty acres of valuable date land in the Coachella Valley, was decided by Register Frank Buren, of the local land office, in Mrs. Wilson's favor.

John L. King, 1909, bought scrip for eighty acres, but his advertisement was faulty. Disregarding the fact, he allowed it to lapse, and later filed for reinstatement. The records show that she bought her sixty acres from King in good faith, and that King's neglect to properly advertise should not make her liable to loss.

Liquor Interests Are Much Aroused Over Prohibition

Special to The Telegraph.

Washington, D. C., May 16.—The proposed Hobson nation-wide prohibition amendment now under consideration in Congress has aroused the liquor interests and the executive committee of the National Wholesale Liquor Dealers of America will go before the country with a statement scouting prohibition.

T. M. Gilmore, president of the National Model License League, made an address on the subject: "What Does the Prohibition Movement Mean?" "Does it mean that the people of this country are determined to surrender the use of wine, beer, whisky, cordials, etc., and confine themselves in the future to grape juice, coca-cola, lemonade, pop and the like?" asked Mr. Gilmore.

"Does it mean that a nation that consumed last year 140,000,000 gallons of whisky, 2,000,000,000 gallons of beer, 500,000,000 gallons of native wines, and millions of gallons of imported whiskies, brandies, gins, rums, champagnes, still wines and the like, besides the vast amount of moonshine whisky that is being produced in the Southern States under the auspices and protection of what we know as prohibitionists—does it mean that such a nation expects at one fell swoop by the fiat of law to surrender a privilege that it utilizes so extensively as indicated by these figures, and depart all at once from the ways of our forefathers, and the ways of all other civilized people, and take a place with the Mohammedans in their abhorrence of the fermented juice of the grape?"

"We hear a great deal about prohibition, and about prohibitionists, and about 'dry' territory, and about the liquor traffic being outlawed, but I do not know where there is any prohibition nor do I know any prohibitionists, nor do I know of any 'dry' territory, nor do I know of any place in this country that has outlawed liquor."

Levi Cooke, general counsel of the association, was the first speaker at the morning session. Mr. Cooke strongly criticized the Hobson resolution, which seeks to amend the Constitution in favor of national prohibition. In part, he said:

"National prohibition is proposed by an amendment to the Constitution, which is intended to destroy the legitimate and tax-paying trade by forbidding the sale, the manufacture for sale, and the importation for sale of liquors. The faction advocating this amendment admits that liquors may therefore be manufactured privately for use in any way short of sale."
