badly in need of attention, according to the Pottsville authorities, and thus far they have been unable to obtain the desired attention from the State highway officials. Lack of funds, it is contended, has been responsible for the delay.

On September 6 the State officials were indicted by a Schuylkill county grand jury at Pottsville and on January 14 the Supreme Court was petitioned to permit a change of venue. The appellate court granted the permission to transfer the case to another court for a hearing and the Dauphin County Court was chosen.

District Attorney Stroup said the case will be listed regularly for June term, but that Saturday, the last of the week, will probably be the day. It is likely, said Mr. Stroup, that a jury will be drawn that day to return upon a date to be mutually agreed upon for the trial.

District Attorney Whitehouse, it is understood, will come over from Pottsville for the trial.

Complaint has been made to District Attorney Stroup as to the unsatisfactory condition of the State roads in Williams township and he promptly called the attention of Division Engineer Charles Hart to the trouble. Mr. Hart promised to look into the matter immediately, although he said the departmental funds are scarce because of the Auditor General's action in withholding the appropriation.

**Pinchot Tells Voters of Boiling Springs All About Issues of the Campaign**

Boiling Springs, Pa., May 27.—Gifford Pinchot, Washington party candidate for United States senator, addressed seventy-five people from the front porch of the hotel here last evening and got away without leaving, so much as a ripple of excitement or a round of applause in his wake.

Mr. Pinchot's address was brief. He told his audience that he had not come into Pennsylvania on a speechmaking tour, but because he "thought it his duty to shake hands with and give the people the opportunity of seeing the candidate for whom they will vote in November." He blamed Senator Penrose for the present Democratic mismanagement at Washington because he worked for Taft in 1912 and said "nobody in Pennsylvania dare vote for him this fall."

Mr. Pinchot said he had "just left the Colonel," who had told him to say to Pennsylvanians that he is as strong as ever and will speak in every county in this State next fall.

As for the Democrats, they are hopeless in this campaign, according to Mr. Pinchot. "Palmer and McCormick are all right as men, but Pennsylvania wants no more of Democratic mistakes and misrule," said the speaker. "I know Mr. McCormick very well. Indeed, we are friends. He is a very nice young man, but he stands absolutely no show of election."

**TO PLEAD GUILTY TO TRIAL JUNE 11**

**Tentative Date for Hearing of Youth Who Killed Grandfather Arranged**

Edward G. Smith, the youth shooting down his aged grandfather, John Bush, near Ingleok, some months ago, will likely begin his fight for life before a Dauphin county jury Thursday, June 11.

The June term criminal trial calendar is now being prepared by District Attorney M. E. Stroup and Smith's case is one of the ninety cases already listed. The date is not definitely fixed, but Thursday, it is thought, will be the day. Insanity, it is said, is to be grounds for the defense.

Early one morning nearly a year ago Bush's cottage was burned to the ground and among the ruins was found the body of the old man with several bullet holes in it. Smith had disappeared; so had the several thousands of dollars the elder man had saved. Suspicion pointed to Smith and after a chase over Pennsylvania and Ohio the youth was captured.

Another case has been listed but which will probably not go on trial because the defendant is expected to plead guilty, is Angelo Bosnell, former proprietor of the United States Hotel at "Roosevelt" in Harrisburg. Bosnell is accused of selling liquor to minors, without license and of keeping a disorderly house.

**Wants \$2,375 For Swatara Street House.**—Suit to recover \$2,375 representing the original purchase price with interest for a property in Swatara street was filed to-day by J. J. Baughman, against Carl Lewis Altmaler. In the plaintiff's statement it is alleged that on November 27, 1897, Baughman bought a house from Altmaler for \$1,200. The deed was said to be clear and unencumbered. Since then it developed however that the plot on which the house stood was a part of Swatara street and owned by the city.

tic and confident of a successful outcome of the conferences. The mediators and delegates were concentrating their attention on the exact manner in which a new provisional government might be set up to succeed the present regime. That General Huerta has formally indicated his willingness to abide by the program thus far outlined here is no longer doubted.

The effort now is to arrange for a change of executives in a dignified manner. The mediation conference in all probability will not choose a provisional president. It will have to be done by the Mexico City government itself. But the process which is receiving consideration is the drawing up of a list of representative Mexicans from which a certain number might be approved by the United States and all parties concerned so that there would be no question about recognition being accorded the individual chosen therefrom.

**Villa's Forces Ready to Attack Zacatecas City**

By Associated Press  
El Paso, Texas, May 27.—Reports from the South to-day said that General Villa's forces were making haste in preparation for an assault on Zacatecas City, capital of the State. It was asserted that the railroad from Torreon, Villa's concentration point, had been repaired nearly to the next point of attack.

Already troops in large numbers had been sent south along the repaired railroad and all possible reinforcements have been rushed into Torreon from Saltillo, recently taken by the Constitutionalists. The latest to arrive was the command of General Pablo Robles, numbering 3,500, originally left to garrison Saltillo.

**Don't Be Misled if You Have Tuberculosis**

No specific has been discovered for Tuberculosis, but Eckman's Alternative has been successful in many cases. Read of this case:—

"Gentlemen:—Five years ago last August I was taken to St. Francis Hospital to be treated for bronchitis and congested lungs. After several weeks' treatment I was advised by the doctor to go to a convalescent sanitarium, but could not be admitted because the doctor at the hospital, after a thorough examination, declared my case Tubercular, and gave me a certificate to that effect. I showed the certificate to Father Stark, and he advised me to take Eckman's Alternative. I took it faithfully, and soon found myself free from night sweats and fever. I have not taken the Alternative now for two years, and can truthfully say I am well. I feel better and am stronger than before my sickness."

**HOT WAVE TO LAST A DAY LONGER**

[Continued From First Page]

Mr. Zorger to his home in Steelton. For a time his condition was considered serious; but it is probable he will recover.

George Goulden, a Pennsylvania trackman, was found wandering on the mountains near his home at Boiling Springs. Fellow-workmen took him home and he recovered his senses, but doesn't know yet exactly how he spent yesterday. He went to work, said he felt unwell and was told to go home. He started away and instead of getting home wandered over the mountains until found, although it is not believed that he was unconscious at any time.

Harrisburg was one of the seven hottest cities in the United States yesterday. There were none hotter, but at Washington, Louisville, Des Moines, Boston and Chicago it was also 92 degrees when it was hottest.

**General Carranza May Be Represented at Conference**

By Associated Press  
Washington, D. C., May 27.—Representatives of the Constitutionalists here took steps to-day to reopen the question of representing Carranza at the Niagara mediation conference.

John Lind and C. A. Douglass, legal representative of the Constitutionalists, held what was termed a neutral conference early to-day and later went to the State Department to take up the subject with Secretary Bryan, who had gone to the Capitol to confer with the President on the Carranza situation. Their conference with the secretary was on that account deferred until later in the day.

Neither Lind or Mr. Douglass would discuss under what conditions the Constitutionalists were willing to participate, but the opinion was revived that the powers of a Carranza representative would be very limited, perhaps without plenary authority, and only for the purpose of furnishing information. What sudden turn in the negotiations had brought about the attitude of the Carranza group was not disclosed.

**Mediation Discussed at Mohonk Conference**

By Associated Press  
Mohonk Lake, N. Y., May 27.—The mediation conference at Brasel and Chile in the Mexican situation and the apparent progress already made by the conference at Niagara Falls were pointed out by speakers at the Lake Mohonk Conference on International Arbitration to-day as the most encouraging sign of the present time in the cause of peace.

Mr. Bassett Moore, of Columbia University, recently counselor of the State Department, who presided at the conference, said in his opening address that the mediation of the A, B, C powers, no matter what may be its result, is a remarkable event in the history of international relations in the western hemisphere.

Mr. Moore stated that actual results from arbitration during the past two years had not been remarkable and that the period may be marked by armed conflicts of exceptional destructiveness. Speaking of the last year in the Balkans, he said there was much to indicate that the end of hostilities in that quarter of the globe was not in sight.

Three hundred members are here for this, the twentieth annual conference. They came from all parts of the United States and from Europe and South America.

**Auto Hits Street Car; Woman Occupants Unhurt**

An automobile, owned by George Heisey, attorney, driven by a Mrs. Love, and occupied by two other women, collided with Second street car, No. 140, at Cumberland street, this morning, at a considerable extent. The car was badly damaged and was taken to the Zimmerman garage, in Linden street.

The car was en route down Second street, and was in charge of C. D. McCormick, and C. D. Rothrock, conductor. The auto was coming out of Second street and skidded when the trolley car was stopped promptly. The occupants of the automobile were helped to the sidewalk a little frightened, but unhurt.

**Route of Strikers' Parade Announced by Pierce**

Strikers were busy to-day preparing for the big mass meeting in Market Square, Friday night. A committee was appointed last night to arrange for a band. The strikers will meet at headquarters, 1215 North Sixth street, and will march down town.

The route will be: Down Sixth to North; to Third; to Market; to Market Square. The speakers will be, President W. H. Pierce, of the Brotherhood of Railroad Employees; Vice President H. E. G'bell and James P. Maurer, president of the State Federation of Labor.

**CAUSE OF HOT SPELL**

Officially it really was hot. And last night the city slept only fitfully, and people kept kicking off the sheets and going to the windows for breaths of air which did not come; and some persons sat up all night and dozed in chairs nearly all night, or went to the roofs as they do in the real summer weather.

To-day started in hot, but a trifling breeze hinted of hope against the heat. At 6 this morning it was 73 degrees, and the breeze still trifled with the hopes of hundreds, blowing in faint whispers and flowing cool only in spots as it crept up from the South.

**Cause of Hot Spell**

The gentle flow of air currents from the South is the whole reason for the hot spell, it was explained at the weather bureau this morning by Forecaster Deman. Somehow or other an area of low barometric pressure collected in and around Winnipeg, Canada, and started on a slow, majestic march across the continent. For this reason the air from the south, southeast and southwest, "where the cotton fields are blooming," moves across our perspiring faces. The gray skull-lined deserts of Arizona contributed its quota. Bear in mind that the said low area of barometric pressure is moving slowly. As slowly as

**THE MEXICAN SITUATION IS UNRAVELING**

It is proceeding, and unless it makes greater speed the hot spell is going to last for another twenty-four hours at least.

So all east of the Rockies the country is swathed in a hot bandage; and in all towns the same phenomena are observable; philosophical gentlemen calmly asserting that it isn't warm if you don't think so; crowds make "bee-lines" to the soda water fountains; perspiring fat men wiping ruddy countenances on silk handkerchiefs with initials in the corner; wagon drivers cursing a little more than usual; aged residents reminiscently ruminating over fine cut: "Yep; pretty hot fer May; but now's I remember, in 18—"
