### GENERAL MEDIATION UP TO REBEL LEADER

[Continued from First Page.]

next big act in the Niagara conference. It was expected to reveal, officially, Carranza's attitude toward the efforts of the South American envoys, and possibly to determine whether mediation were to be confined to the dispute between Huerta and the United States or include the general problem of cure for Mexico's ills.

Coming on the heels of a statement by the Huerta delegates that the Federal dictator was ready to resign when the papers that would allow him to put up to Carranza, temporarily at least, the proposition of general mediation.

In many quarters it was believed that Carranza in his answer to the United States would stand on his original position—refusal to subscribe to a truce and the contention that settlement of Mexico's internal affairs was beyond the bounds of diplomatic activity.

### Mediators Are Anxiously Awaiting Rebel's Reply

By Associated Press  
Niagara Falls, Ont., June 3.—The attention of the mediators to-day was turned toward General Carranza, "Comandante en Jefe" of Mexico, who must come the next move which will determine whether or not Mexico will be pacified by diplomacy. The way has been opened by the mediators for Carranza to be invited to the conference by the Constitutionalists if they care to come in.

The Mexican delegates have also taken a forward step in publicly announcing that they will accept General Huerta's proposal to withdraw from the provisional presidency and will turn over the government to an administration constituted so as to conduct the business of the country. The statement of the Mexican delegates declared that Huerta would resign when Mexico was "politically pacified."

The peace plan before the mediators is a simple one. It reaches into internal questions only in a general way. Suggestions as to personnel will have to be agreed upon privately. The protocol, which will be signed here, will be a declaration of principles on agrarian and educational reforms, and advice to Mexico to set up a provisional government, having due regard to the interests of all.

The actual composition of the new government will be a matter of physical accomplishment as soon as the protocol is signed, the United States giving its promise to recognize the new government.
