READING GETTING AWAKE TO ITS NEEDS

Experts Have Recommended Certain Things to Be Done in the Berks Metropolis

Through the Chamber of Commerce of that city, Reading has been given an investigation as to its municipal needs by the municipal research experts, as was done here in 1901, and the following suggestions are made in their report:—

The department of streets and public improvements should be organized with four bureaus.

Reading streets are inadequately paved and pavements are in poor condition. Water-bound macadam is used in most cases. It should be bituminous-bound macadam.

The street railways have not properly maintained their paving, nor have the authorities made good this deficiency at the expense of the company as is provided in the franchise. Working and should be established to make it possible for the city to enforce its right.

The type of pavement to be laid in any street should be determined by council, not upon petition of citizens.

According to the present method of street sprinkling the streets are over-flooded. This is a service which should be under the control of the department of streets.

A comprehensive paving program should be adopted outlining plans for years.

Sidewalk conditions are below accepted standards, due partly to neglect of property owners and to the use of surface gutter drains.

The inspection staff is inadequate and poorly trained. Inspectors should be appointed solely for reasons of technical ability, and they should receive sufficient compensation to attract and keep high grade men.

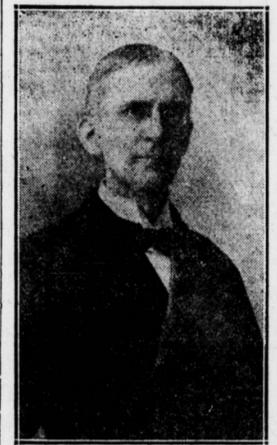

The city should abandon the contract system and clean its own streets.

Members of the street cleaning force should be required to wear uniforms. The city should abandon the present practice of collecting and reduction of household waste. The collection and incineration should be done with its own plant.

Overhead wires should be placed underground.

One building inspector is not enough. An adequate building code should be adopted.

Dr. Smith Not Decided Whether to Accept Chair at Princeton

Telegram informing him that he had been elected to the chair of homiletics in Princeton Theological Seminary last night awaited the Rev. Dr. J. Ritchie Smith upon his return from Middletown, where he attended a meeting of the Presbyterian association.

Dr. Smith to-day stated that he had reached no decision in the matter and had not yet received official notice of his election to this chair, where his duties would consist in instruction in the preparation and delivery of sermons. Dr. Smith is a Princeton graduate. He was called to Harrisburg from Peckskill, N. Y., in 1900. He was elected to succeed Professor McMillan, who resigned a year ago to become president of Wells College, Aurora, N. Y. The Rev. Dr. Lewis Seymour Mudge, pastor of Pine Street Presbyterian Church, is a member of the Princeton Theological Seminary board which unanimously selected Dr. Smith.

STUDENTS STEAL JUNIORS' CREAM

Sophomores and Freshmen Outwit Others and Succeed in Their Pranks

Special to The Telegraph
Columbia, Pa., June 12.—Franks of high school pupils since the close of the term reached their zenith Wednesday night when the Junior class of the school was entertaining the Senior class in Columbia hall. Anticipating being tricked, the Juniors employed a constable to keep watch on the place in order to prevent any overt act. The officer stayed on the job and so did some of the Juniors, but a few of the Sophomores and Freshmen outwitted them and removed the stands of ice cream prepared for the banquet, secreting them so securely that they were not found until next morning. The class was obliged to order a few stands at the last minute to complete the banquet. Incensed by the action of their companions some of the Juniors complained to a justice who delegated the constable to investigate the case. Today he found a few of the pupils concerned in the trick and their joke will cost them a round sum each.

ITCHED SO, HE TORE HIS FLESH RESINOL CURED

Tortured For Three Weeks, But Two Applications Did the Work

Washington, D. C., Dec. 3, 1913: "All over my body were small pimples which itched me so that I could just grab my flesh and tear it apart. For three weeks I could not sleep at night until I was simply exhausted. I tried most everything that was supposed to give relief, and I can truthfully say that not until I used Resinol Soap and Resinol Ointment did I begin to feel like the man I was. After only two applications there were no more symptoms of my ailment." (Signed) A. Jackson, care of Water Registrar's Office, District Building.

Physicians have prescribed Resinol for nineteen years, for all sorts of skin troubles, pimples, dandruff, sores, ulcers, burns, wounds and piles. Three Cases Offered For Consideration To-day

Rheumatism Cured; Stomach Trouble Improved; St. Vitus' Dance Much Better

John Holtz, of South Front street, had rheumatism in his ankles, knees, arms and shoulders. Last year he spent over \$200 in special efforts to be cured, but he only grew worse. About five weeks ago he called at Forney's drug store and obtained a treatment of Quaker Extract and Oil of Balm. He again called and in the presence of a crowd of people he said: "I do not need any more of your Quaker Remedies, because one treatment of them has cured me. I have not had a rheumatic pain for over ten days, so I know I am cured."

Henry Schumacher of Progress, said: "I always have been a hard-working farmer but this year I simply could

not work on account of the terrible condition of my liver, kidneys and stomach. I could not stoop over without having awful pains across my back; my liver was bad because my tongue was coated my color bad and I always felt tired. My stomach would bloat and I was subject to bloating, belching and dizziness. I commenced using Quaker Extract and Oil of Balm just two weeks ago. To-day I am much improved in every way, am able to work again, my tongue is clear, color good and my stomach feels strong again. I can't say specially to-day to get some more of the Quaker Extract."

Rosa Wickelman of York, a school girl, aged 9 years, suffered with what

is known as St. Vitus' dance. She was in an extremely nervous condition and everybody who knew her or saw her sympathized with her. Nearly everything suggested was tried for this terribly afflicted girl, but nothing seemed to help. Her mother called and obtained a treatment of Quaker Extract. She called again and stated that her daughter Rosa was so much better that she could now walk around the house unassisted something she had not done for nearly two years.

Call at W. H. Kennedy's, 30 South Third street, if you suffer from rheumatism, catarrh or stomach trouble.
