To Keep Skin in Fine Condition All Summer

It would be much better for the skin if little cream, powder or rouge were used during the heated term. Mixed with perspiration, dust and grime, these things are anything but beautifying. Ordinary mercerized wax will do more for the complexion, and without giving an oily, streaked, spotted or pasty appearance. It is the ideal application for the season, as it not only keeps pores clean, but daily removes particles of scarf skin which have been soiled by dirt or wear, by constantly keeping the complexion clear, white, satiny, it does more toward perpetuating a youthful countenance than any street arts or artifices commonly employed. One ounce of mercerized wax, obtainable at any drug store, will completely renovate the worst complexion. It is applied at night like cold cream and washed off in the morning.

To keep the skin from sagging or wrinkling, or to overcome such condition, there is nothing better than a face bath made by dissolving 1 ounce powdered salicilate in 1/2 pint witch hazel.
