Home Treatment For Sallow, Wrinkled Skin

A. C. F. asks: "What should I do for my sallow complexion, and how can I get rid of my wrinkles?" Sallowness is best removed by removing the skin itself. This is effectually accomplished by the use of ordinary mercurized wax, which causes the offensive outer skin gradually to peel off, in fine particles scarcely noticeable to the naked eye. Within a week or so you will have an enviable complexion, the new skin exhibiting a healthy, youthful tint incomparable with artificial coloring. Get an ounce of this wax at your drug store, apply at night like cold cream, only don't rub it in. Wash it off in the morning with warm water. For your wrinkles try a solution of powdered salicylic, 1 oz., dissolved in 1/2 pint witch hazel. Bathe your face in this every morning for a while. The result will surprise you.—Beauty's Mirror.

The Easiest Way to End Dandruff

Stop Falling Hair and Itching Scalp There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. If you want to keep your hair looking rich, do by all means get rid of dandruff, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and nobody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.
