### PUT SULPHUR ON AN ITCHING SKIN AND END ECZEMA

Says this old-time Eczema remedy is applied like cold cream.

Any irritation or breaking out on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur cream, says a noted dermatologist.

He states that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears on the skin.

Those who troubled should obtain at any pharmacy an ounce of bold-sulphur cream which is applied to the affected parts in the same manner as an ordinary cold cream.

This is published for Walter Luther Dodge Co., Cincinnati, O.

### A Single Application Will Banish Hairs

(Beauty Culture)

Here is an unfailing way to rid the skin of objectionable hair or fuzz. With some powdered delatone and water mix enough paste to cover the hairs not wanted, apply and after two or three minutes rub off and every hair will have vanished. The skin should then be washed to remove the rest of the delatone. No injury can result from this treatment, but be careful to get real delatone.
