## RAILROADS IN FEAR OF BIG MAIL LOSSES

Pay For Carrying Post Will Be Reduced \$11,000,000 if Moon Bill Passes

New York, June 24.—A conference on the railway mail pay station was held yesterday in the office of President Ralph Peters, of the Long Island Railroad. The railroad officials participating in the conference analyzed the Moon railway mail pay bill introduced in the House of Representatives at Washington, and reached the conclusion that the enactment of the Moon bill into law will produce a loss to the railroads of not less than \$11,000,000 a year in mail pay. Following the conference Ralph Peters, chairman of the committee, authorized this statement: "The mails on the railway routes in one section of the country were weighed in 1913, and the railroads in that section received an annual increase of over \$4,000,000. The mails for the railroads in another section have just been weighed and as a result will get an increase from July 1 of over \$4,000,000. But although the two sections already weighed disclose service justifying additional payments to the railroads of about \$3,000,000, the appropriation bill only allows \$1,600,000 for the increased parcel post burdens in the two sections not yet weighed. If these two other sections were weighed at once and a readjustment in pay to the railroads was made in accordance with the weight of the mail and the distance it is carried, the railroads would undoubtedly receive from \$6,000,000 to \$8,000,000 additional pay.

### First National Bank

224 MARKET ST.

"The railroads feel very keenly the injustice with which they are now being treated by Congress in the matter of railway mail pay. A bill has been introduced by Congressman Moon which proposes to enact into law permanent rates which will pay the railroads about \$3,000,000 less than those now paid and \$1,000,000 less than the railroads claim they are entitled to receive for the service rendered.  
"We have been co-operating for two years with the joint congressional committee to find out whether the railroads were properly paid for carrying the mails. It is not fair that a bill actually cutting the pay should be introduced and pushed through Congress before the committee's findings are made. Some of the small railroads object that they ought to refuse to carry the mails, for the reason that they are not fairly paid for their services. The larger companies have not felt justified in so extreme a policy. They believe the public convenience to be paramount, and that when the public realizes the injustice which is being imposed upon the railroads the people will make manifest their disapproval."

### "VISIONS OF FAIRYLAND"

"Visions of Fairyland," the beautiful act that is headlining at the Colonial Theater this week, is serving as a big drawing card. The busy corner theater is filled to its capacity every night, and the comments heard on the show are highly complimentary. In this fairyland act a young woman of rare figure poses, while scenes of various descriptions are thrown on the sheet, making her the central figure in many beautiful pictures. It is one of the best posing acts ever attempted on the vaudeville stage. There are two other acts on the bill, and will be replaced tomorrow, although La Graciosa will hold over and play the full week.—Advertisement.

## Fire Threatens Retail District of Manchester

Manchester, N. H., June 24.—A fire, which for six hours to-day threatened to wipe out the retail business district of this city, was finally brought under control after it had destroyed two large commercial blocks with a loss of \$100,000. Nine firemen were hurt, but all will recover.  
The blaze was most spectacular and the peril of fighting it was increased by the inflammable nature of the stock in a hardware store, which included gunpowder, chemicals, paints and oils.
