DIVIDEND PASSED ON PANHANDLE SYSTEM

(Continued From First Page)

Three months ago the dividend rate on the Panhandle preferred stock was reduced from 5 to 4 per cent, and on the common stock from 5 to 3 per cent, per annum in the quarterly distributions then made.

In anticipation of to-day's action there had been a sharp decline in the price of the company's shares.

The outstanding capital stock of the Pennsylvania company is \$36,000,000, all of which is owned by the Pennsylvania Railroad.

The Panhandle directors decided to heretofore consider dividends semi-annually in June and December instead of quarterly.

In announcing its dividend action the Panhandle board issued a statement, saying:

"The company in recent years has declared 5 per cent dividends per annum on both classes of stock, including the year 1913, when that rate was reduced to 4 per cent."

SOUTH SECOND ST. PROPERTY TRANSFER

Keystone Laundry Acquires Larger Place of Business Near Present Location

The contract for a property transfer by which the Keystone Sanitary Co. will give up their present building at Mulberry and South Second streets and acquire a much larger place of business, formerly occupied by the Hain and Molly Shoe company in South Second street, at two doors below their present location, was disposed of yesterday.

When the Cumberland Valley railroad prepared to engage in the project of doubletracking the line which runs along Mulberry street, and of a subway extension at Second and Mulberry streets, it bought up a considerable area of surrounding property in order to avoid any claims for compensatory damages that might arise.

Among the properties so purchased was the building formerly occupied by the shoe firm. This is the structure yesterday acquired by the Keystone company. While the building level has been cut down seventeen feet this lowered front will not inconvenience the Keystone company, doing a wholesale business.

Later on the entire first floor may be lowered to conform to the new grade, but for the present the Keystone company will concern itself with a few needed alterations to the interior, which will prove a great deal more commodious place for their business. It is understood that the sale price was in the neighborhood of \$30,000, and that the Cumberland Valley company in consideration of the Keystone company taking this building off its hands has purchased the building at Second and Mulberry streets now occupied by the Keystone company at a price in the neighborhood of \$12,000.
