Straw hats in all the popular shapes 50c, 98c to \$2.50
D. P. & S., Second Floor, Front.

EDUCATORS TO MEET AT GRETNA JULY 1

Improvements Made to Grounds; Harrisburgers to Be Among Instructors

When Harrisburg educators arrive at Mt. Gretna on July 1, for the sessions of the summer school which continue a month, they will find several improvements to the familiar grounds. A deep artesian well has been bored and a new pumping station installed. This triples the available water supply, so that there will no longer be a scarcity of clear, cool water drawn from the heart of the earth.
Among the local educators who make the annual pilgrimage to the Chautauqua will be found this year as usual, D. D. Hammelbaugh, secretary to the school board; William S. Steele, Central High's principal; Miss Ella Yost, music instructor in the city schools; James A. Smyser, of the Central High School faculty and Miss Eva Stoner, supervisor of art in the Steelton schools.
Prof. Steele is chancellor of the school and will have direct charge. He will consult with teachers and cottagers as to enrollment, selection of courses and arrangement of study hours. Miss Yost will have charge of the Chautauqua chorus and of the teachers' class preparatory for State examinations in music. Prof. Smyser also will instruct in work preparatory to the State examinations. Miss Stoner will conduct classes in pencil, crayons and water colors.

Birth Rate in France Decreases, Figures Show

Paris, June 26.—In France 5,112 fewer babies were born in 1913 than in 1912, according to official figures made public here. This is the lowest birth rate ever recorded in the country, except in 1911.
Birth exceeded deaths in 1913 by 41,991, or an average of ten births in excess of deaths for every 10,000 inhabitants. This compares with an excess of births over deaths in Germany of 127 for every 10,000, in Austria of 107, in Italy of 104, and in Hungary of 130.
There were 298,760 marriages in France in 1913, or 13,169 fewer than in 1912.
At the same time divorces increased from 14,599 in 1912 to 15,076 in 1913.
The Temps remarks that the population of Germany increased by about 800,000 in 1913 or about twenty times as much as that of France, which was augmented by only 41,991.

Commission Extends Stay in Philadelphia

Philadelphia, June 26.—The United States Commission on Industrial Relations, authorized by Congress under the Taft administration, and the members of which were named by President Wilson, is overwhelmed with work. The commission, which is sitting in Philadelphia this week, has had to extend its stay two days and has sufficient witnesses and material to work on to keep it here a month. Members of the commission said they have found much in the industrial situation to interest them and that the commission may spend a month here in the year. Hearings have already been held at Washington, New York and Paterson, N. J.

TWELVE DYNAMITERS BEGIN THEIR TERMS

Put Through Routine Process of "Dressing in" at U. S. Penitentiary

By Associated Press
Leavenworth, Kas., June 26.—The twelve ironworkers convicted in the "dynamite conspiracy" cases, who arrived here last night to begin serving their sentences, were put through the routine process of "dressing in" at the United States Penitentiary to-day.
When the men came from the ward where they spent the night, having arrived too late to be assigned to cells, each was given a bath, a shave, a new suit of prison clothes and new prison shoes and their prison life, which began "New Year's Day a year ago, but interrupted by their release on bond, started anew.
With the arrival of Eugene A. Clancy, of San Francisco, and Frank J. Higgins, of Boston, the men will take up their old places on the work of constructing cellhouses.
While several of the newcomers made inquiries about their comrades who never were released on bond and who had remained in the prison serving their sentences, no information was asked about Herbert S. Hockin, of Detroit, who is looked upon as one of the causes of the enforced imprisonment of the labor leaders. The ironworkers declare Hockin, by giving information to the government, aided in their conviction.
Hockin, who is acting as a guard at one of the vehicle entrances of the prison, likewise made no inquiries about his former associates.
Hockin's wife is leading a movement to secure executive clemency for the former labor leader and his friends believe he has but a short time to remain in the prison.

SAYS HER HUSBAND HAS ANOTHER WIFE

[Continued From First Page]

return to his bride, he said in his confession to his mother-in-law, "I soon found out it was my money and not me that my wife wanted."
So Watson came to Cumberland county, this state, and in February, 1902, was married to the libellant. Ten years elapsed. Mrs. Watson said, before she learned her husband had another wife living. Watson is now in India.
Gave Wife 50 Cents On Leaving
Mrs. Sallie Shultz, another applicant for a divorce, told the court that she could not account for her husband, John E., deserting her in 1901, four years after their marriage. While living on a farm in Cumberland county, the wife said, her husband made it a practice to remain out most of the night, coming home at 4 and 5 o'clock in the morning. He departed, presumably to sell horses, but later sent her 50 cents, explaining in the letter, "I will not be back again; I guess this will be enough to keep you for a while."
Mrs. Shultz's mother said "John never called me mother; he would call me Mrs."

JOHNSON AND MORAN BOTH CLAIM VICTORY

[Continued From First Page]
that there will be a great crowd at the Velodrome D'Hiver when the fight starts at 10.30 to-morrow night. It is understood that among those who have purchased tickets are many women, some of whom never saw an import boxing match in Paris.
The poor of Paris will realize a good sum as a result of the contest, as it is calculated that the receipts will reach at least \$100,000, and according to the law, 10 per cent is added to the price of each ticket for the benefit of the poor.
No better date could have been selected for the fight as it occurs on the eve of the grand prix, the principal sporting event of the year, and in the height of the tourist season when many Americans and other foreigners are in Paris.
The selection of Georges Carpentier, the French champion, as referee, is also considered likely to draw a large following, as he is an idol among the Parisians.

Legislative Tinkering Cause of Depression, Say Bankers of State

Bedford Springs, Pa., June 26.—The general tenor of the remarks of delegates to the Pennsylvania Bankers' Association, which convenes here to-day, is that the present depression in business is due more to legislative tinkering than to anything else, and that the country is suffering from too many laws.
This will be the keynote of President Montgomery Evans' address on opening the convention. His subject is "Banking and the Law." This much is already known. That the delegates, generally, will sympathize with his point of view cannot be doubted.
There are 500 delegates here.
The failure of a large business concern in New York aroused animated discussion and not a few cynical remarks were made concerning commercial "paper" as a security for bank circulation. There is hardly a banker present who has not at one time or another, handled "paper" of this concern. It was considered gill-edged until a short time ago.
STRIKERS NOT IN NEED
Pittsburgh, June 26.—Careful canvass of the 12,000 Westinghouse strikers who have been out for three weeks to-day failed to reveal the presence of destitution, according to Bridget Kenny, secretary of the Allegheny Congenial Industrial Union. Miss Kenny declared they had abundant supplies, all contributed by merchants in the Pittsburgh district. The strikers marked time to-day awaiting the return from New York of E. M. Herr, president of the electric company.

Doutrichs

Always Reliable

Here's a big store growing bigger every day, not merely in volume of business, not only from a dollar and cents standpoint, but in *popularity* among *all* the people within buying reach of it.

It takes more than location to make a success like ours more than interior fixin's, more even than

good merchandise, good clothes. It takes a policy, a broad gauge, open above-board, man to man basis of doing business to win and hold patronage such as we are winning and holding.

First of all you'll find the *greatest \$15 suits value* ever offered in this community that we've tested and had tested by hundreds of men on a promise of their money back if they didn't live up to our statements and *their* standards.

WASHINGTON AWAITS WORD FROM REBELS

Carranza's Attitude Toward Proposed Conference May Be Learned Today

By Associated Press
Washington, June 26.—Final word was expected to reach here to-day from Carranza, Constitutional chief, specifically outlining his attitude toward a proposed conference with his enemy's envoys on the establishment

of a provisional government in Mexico. He had telegraphed his representatives in Washington that he would Monterey where he was to arrive late yesterday. Barring delays in transmission, the telegram should be received here late to-day.
Confidence was expressed that Carranza would consent to the conference Villa's victory at Zacatecas, placing more than half the republic's territory under Constitutional control, gave the revolutionary leader vantage point. It was suggested, from which he could dictate major terms for re-organization of government in the war-worn country. If an agreement were reached at the proposed meeting, it would bring the mediation proceedings at Niagara to a successful conclusion, both the Huerta and American delegates having reached terms for settlement of the international differences.
