CAN COMPANY SHUT OFF TENANT'S LIGHT?

Peculiar Equity Case to Be Decided in Northumberland County Courts

Special to The Telegraph Sunbury, Pa., July 7.—Judge Frederick B. Moser, in the Northumberland county courts, yesterday, was asked to decide a peculiar equity case, in which he will determine whether or not the new tenant of a property is responsible for an old tenant's light bill.

Last September Mrs. Catharine A. Leisenring bought Eugene Farley's cigar store, at Shamokin. He owed the Pennsylvania Lighting Company \$17.06, but there was not enough money in the purchase price to pay all of the debts against the property. The lighting company, accordingly, was offered \$13.20 as its pro rata share of the money. This was refused, and the lighting corporation said that if it was not all paid by the new owner, it would shut off the light.

Declaring that she would not pay Farley's bills, Mrs. Leisenring again refused. Then the light was stopped. Her lawyer went into the equity courts and secured a preliminary injunction. Testimony on making this injunction permanent was taken yesterday, and the court reserved decision.

Lawyers said to-day that this decision will establish a new rule of law, and will determine whether or not a public service corporation may arbitrarily say who may or may not have its service.

Mothers Tell of Mother's Friend

Experience is or should be our best teacher. Women who have obeyed the highest and noblest of all sacrifices, the struggle for the life of others, should have a better idea of helpful influence than those who theorize from observation. At any rate when a prospective grandmother urges her daughter to do as she did—to use "Mother's Friend," it is reason to believe it the right advice. "Mother's Friend" is an external application for expectant mothers. Its purpose is to furnish pliancy to the muscles, to take away the strain on the cords and ligaments, to relieve the tension of nerves and tendons so apt to provoke or aggravate nausea, morning sickness, twitchings of the limbs and so on. Although in the nature of things, a woman would use "Mother's Friend" but rarely, yet so effective has it been found that this splendid remedy is on sale in most drug stores throughout the United States. It has been prepared by Bradford Regulator Co., 406 Lamar Bldg., Atlanta, Ga., and advertised by us for over forty years. This is a fine record for such a special remedy and the grateful letters received to-day are just as appreciative as were those of years ago notwithstanding that methods are supposed to have greatly advanced. Ask at the drug store for a bottle of "Mother's Friend." It is worth while.

Coal Is Cheapest and Best Now

To buy coal now is to buy it at the cheapest price for which it can be obtained during the year. And then you gain in quality, too, for the coal sent from the mines at this time of the year may be thoroughly screened before delivery, a difficult matter in cold weather when frost will cause the dirt to cling to the coal. So to buy Montgomery coal now is to buy the best quality of the best coal at the lowest price. Place your order.

A FINE COMPLEXION

A girl's complexion is something more than a matter to concern her vanity. It is an indication of the state of her health. Pallor in a growing girl means a thinning of the blood. Eruptions mean impurities in the blood. Parents should be watchful of their daughters' complexions, and should see to it that these danger signs are corrected, not covered up.
