NEW ENGINE ORDER PLACED AT ALTOONA

Part of New Equipment Plans Announced Early This Year; More Milk Cars Are Also Needed

In addition to the announcement yesterday that the Pennsylvania railroad would build 84 locomotives at Altoona, notice was received that more milk cars were needed.

Early this year the Pennsylvania railroad ordered 170 locomotives. Soon after part of the order was withdrawn. To date 86 locomotives have been completed and yesterday's order is the balance of the original order for 170 engines.

The average cost of each locomotive is \$20,000. Bids have been received for several weeks by the railroad for material which will enter into the construction of the locomotives, and the company decided to go ahead now to keep the Altoona shops employed.

Last year the company ordered of itself itself freight and passenger locomotives valued approximately at \$7,808,000. Of that equipment 244 locomotives were ordered from the Baldwin works.

A few weeks ago there were 300 locomotives idling on the lines of the Pennsylvania railroad system, which at \$20,000 each represented idle capital of \$6,000,000. Traffic has shown a slight improvement since then, because of the movement of grain.

As to milk cars the Pennsylvania railroad has already gone to an expense of \$300,000 for thirty-six steel refrigerator milk cars.

Maximum protection against contamination of milk is provided in the method of refrigeration used in the cars. Brine tanks in each end of the car hold a mixture of salt and ice; they radiate sufficient cold air to maintain a temperature of about forty degrees, which is considered ideal for the protection of milk.

Reading Veterans Re-elected.—Two Reading railroad passenger engineers on the Reading system running into Harrisburg have been placed on the retired list. Alexander Wilson, a resident of Reading, quit active service to-day.

Mr. Wilson was born at Somerset, Chester county, June 4, 1844. He entered the railroad service as a brakeman on the Pennsylvania railroad in 1863, and came to the Reading and Columbia branch of the Reading in 1868. Since then he has held various positions of responsibility. He was a passenger conductor the past 12 years.

Reduced Train Service.—The Susquehanna, Bloomsburg and Berwick Railroad company has been forced by the loss of business to make reduction in its train service. Its gross earnings for the year 1914 to date are only 50 per cent. of what they were in the preceding year. Trains Nos. 1 and 4 between Berwick and Millville will be annulled on and after to-day.

Water and Rights.—A hearing in the case of the bondholders of the Allegheny Valley Water company against the borough of Tarentum was begun by the Public Service Commission at noon to-day. The bondholders are represented by ex-Judge Bechtel and Senator Charles A. Snyder, of Schuylkill county, and the borough by Attorney M. Hinzlet. It is the contention of the bondholders that they have expended about \$500,000 in the plant and that the invasion of the borough in the water service business depreciated the value of its securities. It is argued also that the borough has no legal right to engage in business of this character without first having obtained the approval of the Public Service Commission. Among the bondholders the borough will contend that because the water supply has been inefficient and that many disastrous fires were the result thereof. A number of borough officials as well as bondholders are here as witnesses.

PALMER CONTING TO DEMOCRATIC MEET

The Philadelphia Ledger to-day says regarding Joyce's appointment: "Not a single appointment has gone to Philadelphia with the approval of the Philadelphia congressmen, and these men have never been consulted by the patronage dispensers. The result is that Palmer faces a revolt in the Philadelphia congressmen, especially troublesome in the coming campaign. There will be a call of Democratic congressmen from Pennsylvania in the next few days, when some sharp and plain words will be said about this subject of patronage and the management of the party by Mr. Palmer and Mr. Morris. In less than eighteen months the leadership of Palmer has been nullified, due to the disputes about places. The treatment of his associates has made them bitter enemies who view him as a boss who rules without considering them. It is predicted here that Mr. Palmer will be shorn of power in Pennsylvania in another year. One of the Democratic congressmen said to-day that it is doubtful whether there will be a single congressman in Philadelphia who will support Palmer about the appointment, but an arbitration selection was made and rubber stamped by Wilson. Palmer has gone into a number of congressional districts having Democratic members and tried to name postmasters, but has raised such a storm that he desisted. Joyce's selection also means that Mor-

Borough May Provide Motion Pictures For Purpose of Teaching Safety Truths

What would you think of a municipal moving picture show? A place where you could go and see a reel or two of entertaining and instructive motion pictures and then listen for an hour or so to a concert by a good band? Sounds like fiction? The Steelton council discussed the project seriously last evening, and will probably take favorable action at a meeting in the near future. The plan was suggested by Councilman Benjamin Capella when he offered an amendment to a motion to instruct the town property committee to secure bids for the erection of a municipal bandstand.

"Mr. President," he said, "I move you that the committee inquire into the advisability of erecting a screen on the bandstand so that moving pictures may be shown there too."

A look of amazement overspread the faces of the other councilmen and some one laughed. Then Councilman Capella went into detail and explained his plan. It is that the borough is going to build a municipal bandstand on a large rectangular plot of ground at Front and Angle streets, known as the Steel Company lawn. In semi-circles around the bandstand it is planned to place comfortable park benches. Here the crowds can sit and hear concerts by Steelton's crack bands. Councilman Capella suggested that a motion picture screen and a projector be installed so that some safety films might be shown. Between numbers of the concert program pictures could be thrown on the screen showing the proper manner to get on and off cars, to cross streets, and in many other ways observe safety.

Reynolds Favors Idea

"The plan could be further worked out," explained Councilman Capella, "so that the foreigners who can't read written instructions, of whom there are large numbers here, could be shown how to conduct themselves about the big steel works and how to avoid accidents."

The councilmen listened with interest when Capella began to explain the plan. "Why, that's a very good idea," approved President Reynolds, who is vice-president of the Pennsylvania Steel Company, and who saw the life-saving possibilities in the scheme. That the idea may be tried out at least the town property committee was instructed to consider it along with the bandstand. The erection of a municipal bandstand has been before council for some time. Last evening the plan was given a boost when the committee was asked to secure bids.
