EXTRA PAY CHECKS DUE IN TWO WEEKS

Clerks Have Been Unable to Get the Payrolls Out; Work Is Complicated

Employees of the Philadelphia and Reading Railway, trainmen and conductors, were disappointed when they failed to get the back pay due them on Saturday. Inability to complete the payrolls was the cause. The money will be distributed July 27.

Clerks in the Reading offices have been working night and day in order to complete the pay lists. The awards include a score or more different rate, and provisions, and figuring up is some task.

Trainmen's duties on the Reading vary, and for this reason his name may appear on the rolls for extra conductor, yardman, trainman or extra conductor. The scale agreed upon is a complicated affair.

The award was made late in 1913 by the arbitration committee, composed of trainmen and managers of forty-two big Eastern roads, to decide the grievances and the application for increased wages.

About 2,000 men on the Reading are benefited by the award and about 700 on the Wilmington and Northern Railroad. The largest amount to be received by any one man, a resident of Reading, will be \$90, and nearly all of them will receive amounts of from \$100 upwards. Harrisburg trainmen will get a total of \$415,000.

PERU THE SOURCE OF COCAINE

There is a shrub in high Peru which does not bring the blessing of the potato—I mean the coca tree, whence comes cocaine. The leaf is chewed by young and old. Some doctors say it is very bad for the people of Peru. The infantile death rate is high. And they say few old persons are to be found. Other doctors aver that the coca leaf is very good for the peasant. I am inclined to take a view between the two opinions. I met a man in Cuzco who was running a grocery store, and Professor Gieseler told me they had very good proofs in that town that he was 150 years old. He sold me chocolate and also coca leaves. I chew the leaves to try to cure an ulcer in my stomach, and they helped me more than all the medicines of civilization that I had tried.—The Empire Children of the Sun, Peter MacQueen, in National Magazine for July.

THE REGULAR FELLOW
The Regular Feller is one who kin smile
And tinker up some sort of a song.
The Regular Feller kin whistle a tune
While things seem to be breaking
He tries to be happy with what he has
Forgetting what he might have had.
The Regular Feller don't talk all the while.
Like rattle-brain fellers all do,
But when he says something, just make
It's something worth listenin' to.
The Regular Feller don't tell what he's doin',
Or blab his 'goin' to do soon.
He just goes on and does 'em, and keeps
his mouth shut—
His secrets he tells to the moon.
The Regular Feller has no time to brag
And slip into other folks' ground.
For small village scandal he cares not
a whoop;
He passes no gossip around.
The Regular Feller speaks well of his kind,
Or else he says nothing at all;
There's no room for rubbish or junk in
No room for thoughts that are small.
The Regular Feller does not slap your
back
And brag that he's always your
friend;
But when you're in trouble and others
all quit,
He'll stand by you right to the end.
—Brooklyn Eagle.

DOWN HIS NECK
An Ohio farmer took his numerous progeny to a county fair in that State. As the party moved about the grounds the father felt his fourth child tugging at his coat-tails. He turned, and the youngster begged him to buy a certain toy.
"Buy it yourself," said the father.
"Where's the dime I gave you a little while ago?"
"It's down my neck."
"Well, shake it out."
"But, father," protested the lad, "I can't. It was in my mouth when it went down."—You're a Companion.

PAVING OPERATIONS ARE BEGUN TODAY

Will Rush Work on Harrisburg and South Second Streets

Operations were commenced this morning on the big street paving program which will give Steelton eight miles of paved streets and make the borough one of the best paved municipalities in the United States.

Under the direction of Frank Bosch, president of the Central Construction and Supply Company, of Harrisburg, a large force of men began the excavations for the curb in Harrisburg street, near Lincoln. As soon as this stretch of about 1,000 feet is completed work will be started on the South Second street job.

When operations get under way in South Second street it will be necessary for the Harrisburg Railway Company to cut off traffic on its South Second street line. Cars will probably be run as far as Chestnut street and passengers to Oberlin, Enhaut and Bressler will be allowed to use the Front street line to Chambers street, where they may transfer to the Oberlin line again.

In view of the recent action of council in ordering the Harrisburg Railway Company to move its tracks in South Front street to the center of the street, it is a matter of conjecture whether or not paving operations in this street will be started any more this year. The contract to pave this street has already been signed with the Standard Bitulithic Company of New York. This contract will now have to be changed. No action to the end, however, has yet been taken by the borough.

Operations in Harrisburg street and South Second street will be pushed as rapidly as possible. Edward Lewis, ex-councilman, will look after the borough's interests and act as paving inspector, having been elected by council to this position at the last meeting.
