Dean Lewis Speaks to 22 in Williamstown and to Fewer in Other Towns

Conditions Bad and Voters Realize Their Only Hope Lies in Return to Old Party

Special to The Telegraph

Williamstown, Pa., July 21.—The visit of the Washington party...

With the mines working only three days a week and every factory...

It was apparent to-day that upper end people realize the mistake they made when they rolled up a big majority for Roosevelt in 1912...

This was plainly indicated wherever the Progressive campaigns went to-day. Notwithstanding that the press committee of the Washington party had done its work well...

Only twenty-two attend the meeting before the post office came off on schedule time. At 8.30 Mr. Lewis began to speak to an audience that numbered exactly twenty-two...

The meeting before the post office came off on schedule time. At 8.30 Mr. Lewis began to speak to an audience that numbered exactly twenty-two...

He wanted to hold a meeting at the mine shafts this morning, but owing to the fact that the collieries are working to-day and that many of the men would have had to go from four to five miles at the company's expense...

After the meeting, which was cut short on account of a crowd, to all the upper end towns. Accompanying Dean Lewis were Dr. J. H. Kreider, Washington candidate for congress, Simon H. Beckner, Frank Zimmerman, the ex-Rev. Boyer, Dr. Sminkey and Representatives Lenker and Martin.

Few farmers turn out. The farmers are the upper end and displayed small interest in the Progressive candidates and few of them turned out. Seventy-five-cent wheat and high prices for farm machinery and supplies has shown the error of the Democratic program and they are taking it at Wisconsin the audience that greeted the Washington party...

BIDS FOR HAULING RIVER FRONT FILL TO BE ASKED AGAIN

Park Superintendent Says Figures Received Were to Excessive—Wants Lower Prices

MATERIAL NOT YET READY

Brief Delay For Re-Advertising Will Not Necessarily Hold Up Work

Special to The Telegraph

Bids for hauling material from the Second and Front street subways to the river front will likely be re-advertised for by City Commissioner M. Harvey Taylor...

Commissioner Taylor says he isn't entirely satisfied with the figures submitted when the proposals were opened yesterday and he believes he can do better financially for the city by asking for new bids.

The park superintendent's intention had been to submit the bids with his recommendation for awarding the contract to City Council for approval this afternoon. The change in plan will not materially affect the situation...

While he has not yet definitely decided what will be done in the matter, it is quite likely that bids will be re-advertised, said the superintendent. It is not surprising with the figures we received even though the contractors stipulated that the cost of truck changes, etc., had to be counted in the price submitted. However, I thought we could get the work done for less money, and I think that perhaps we can still do this if we ask for new bids.

The plan is to haul some 20,000-odd yards of earth from the subways which would have been loaded upon vehicles by Stucker Brothers Construction Company, the contractors. The contractors have agreed to pay the city at the rate of 15 cents per cubic yard for hauling the earth away.

Flights of Concrete Steps at Intervals to Lead to River Wall

Among the questions frequently asked regarding the River Front Improvement is how the people are to reach the depressed park and walk at the foot of the slope. It was stated

Former Mexican Dictator Declares He Is Friendly to American People

Puerto Mexico, July 21.—General Victoriano Huerta, ex-president of Mexico, left his country last night and is on his way to Kingston, Jamaica.

Accompanied by Senora Huerta and their unmarried daughters, Elena, Eva and Zelia, General Huerta, the ex-minister of war, Senora Blanquet and their daughter, General Huerta boarded the German cruiser Dresden shortly after 5 o'clock in the evening. The ex-president was accompanied by his son-in-law, Captain Kohler who gave orders to get under way.

Unless some unexpected complication arises, the remainder of Huerta's friends, relatives and military officers, who fled with him from the capital rather than give their support to the new government, will also be at sea to-day.

50 CENT SIRLOIN STEAK JANUARY 1 IS A PREDICTION

Retail Prices of Beef Will Take Two Cent Jump Next Week

CUSTOMERS' BITTER WAIL

Each Boost Causes More Complaint Say Dealers—High Wholesale Rates

Special to The Telegraph

Retail prices of beef, which took a jump a month ago, will more than likely go up again in a short time.

The next advance will probably be made next week according to butchers in this city. The advance in wholesale prices, according to meat dealers seen here to-day, will be the cause of the next retail advance, and it appears to be inevitable. "We are holding back as long as we can," one dealer said, "but we can't hold out much longer. Every time there is an increase in price a howl goes up from our customers. They don't like that any more than anybody else, but of course we'll have to make a profit on the meats sold, otherwise we can't stay in business."

The price of sirloin steak, now at 30 cents, it is expected, will be advanced to 32 cents next week. If wholesale prices keep right on jumping as they have, fifty-cent sirloin is a possibility by January 1.

Lower Wholesale Rates the Hope

At Stouffer brothers large meat market in Verbeke street it was said this morning that a careful calculation had been made during the past week, and it didn't appear that there was any way to escape a further advance in prices, unless the undreamed of possibility of lower wholesale prices should suddenly appear.

That such a contingency is very unlikely appears from reports from all over the country gathered by the Telegraph. Chicago is the meat authority of the United States and to Chicago we turn to find that never in the history of the oldest member of the Chicago Produce Exchange has beef been so scarce.

Another staple food article that is causing a nick in the pocketbook of the householder this year is the common white potato. Last year potatoes sold at a dollar a bushel. This year the price has increased to \$1.80 or \$2 a bushel for first grades. And the price may go higher, according to commission men. Poor grades sold as low as \$1.25, 25 cents higher than for first grades last year.

Washington Officials Cannot Understand Why Reorganization Faction Splits

TRUIMVIRATE GIVEN ALL

Wilson's Hope of Holding Democratic Congressmen Are Going Glimmering Now

Special to The Telegraph

Washington, July 21.—Officials of the national administration are commencing to voice something stronger than amazement at the state into which the Democracy of Pennsylvania has fallen and at the prospects of the Republicans recovering a number of congressional seats in the Keystone this Fall. No set of State leaders has been given a freer rein in the filling of federal offices than the men who compose the Palmer-McCormick-Morris triumvirate and their handling of the matter has been very much like what would be expected of children given a buzz saw to play with. They have cut their own fingers and chunks of wood have been flying all over the shop, getting everyone mad and turning order into a list of trouble.

The President, impelled by gratitude for services rendered at Baltimore and fooled by the claims of the Pennsylvania bosses, has allowed them to have everything their own way and they have brought home nothing but bother. Every appointment made has caused protests to be entered here and some of them have gone clean into the White House in spite of all that Palmer could do to keep the gates locked. The President and many of the party leaders were astounded at the ferocity of the battle waged against Palmer and McCormick when they were picked out by themselves. State Chairman Morris and James I. Blakeslee, rubber stamped by the President and backed up by speeches by Secretaries Bryan, Daniels and Wilson. And now they have been chagrined to see the faction which triumphed split up the back in quarrels over patronage.

President Wilson wants a Democratic congress next year and he wants Pennsylvania, above all, to give him such congressmen as an endorsement.

Washington, July 21.—Representative James T. McDermott, of Illinois, to-day on the floor of the House offered his resignation to take effect immediately. McDermott is under charges in connection with the lobby investigation.

McDermott, Democrat, representing a constituency which includes the stock yard district of Chicago, was one of the figures in the exposure of Martin M. Mulhall, star witness in the lobby investigation. A majority report of the investigating committee now ready to come before the House recommended that he be censured with officers of the National Association of Manufacturers. A minority report recommends that he be expelled from the House. His resignation came as a sensation to-day when immediately after the House had assembled, he rose to a question of personal privilege and offered it from the floor, declaring he would "appeal his case to the people of the fourth district of Illinois."
