Has an Interesting History Business and Professional Men Have Long Been Identified With This Organization of Fire Fighters

GEORGE KENNEDY—PRESIDENT.

Harrisburg has never lacked fire protection, for whenever it is apparent that there is need for another fire company business and professional men get together and organize one.

It was the need for a company to look after the district below Chestnut street that brought about the organization of the Washington Hose Company on April 2, 1841.

The introduction of fire hydrants came about the same time. On March 17 the town council furnished the company with 600 feet of leather hose.

The first fire the Washington company was called to fight was on April 28, 1841, at the Greenwald stables, River alley and Walnut street.
