## for Constipation

Relieves in 2 Minutes

Relieves in 2 minutes. It is one of the big reasons that physicians recommend TU-BO-LAX not only for children but for grown folks. It acts immediately. This is so important, particularly in children, that it often means life or death.

Constipation is one of the most serious ills of children and infants. It not only is the principal cause of convulsions, but it endangers the health and future life.

TU-BO-LAX acts on the bowels itself. No nauseating, blood-heating Castor Oil has to be taken; no blood-impooverishing bitter Salts must be swallowed; no deleterious Drugs need be bought to further poison the system.

### TU-BO-LAX is the New Way.

It is a harmless, soothing laxative ointment in a collapsible tube. Mothers find it a blessing. Men of all businesses, crafts and professions who suffer from what has been called our national ailment will never be without it once they try it. See at all drugists. ## AMUSEMENTS

AT THE PALACE—TESS OF THE STORM COUNTRY

Tessiel Skinner was a "squatter" who lived in a hut on the shore of Cayuga Lake, called Storm Country. Tess is one of these people, and near the body of a murdered gamekeeper, Skinner is accused of the murder and Tess is frantic with grief, but Frederick Graves, a theological student, and his sister, Teola, befriend Tess. Frederick tells her of God and His written word, the Bible, and bids her pray and have faith. Professor Young, an eminent legal authority and an influence in the community, touched by her profound faith in a power that will and her father, intercedes for her and secures a new trial for her father, Elder Elias Graves, Frederick's father, a religious but bigoted and narrow man, the scientific enemy of the "squatters," does his best to secure the conviction of Tess' father, Teola Graves is betrothed to Dan Jordan, who is killed in a fire and leaves Teola worse than a widow. Tess hears her weeping one day in the woods, and takes her to her shelter, her there when her babe is born. To shield Teola, Tess takes the child and her father, who is disgraced and his sister, who is now very ill, Tess allows him to believe the child is his. Her father is a worthless woman. Her life now becomes a hard one, indeed. Her father is still in prison. Her mother is overwhelmed with shame and remorse, and Tess is freed from the shadow of disgrace. Teola and her sister, the both die, and the Elder writes a pleading note to Tess for her forgiveness, which the humble child reads to her. Tess goes to Frederick's waiting arms; another fisherman is found to be the murderer of the gamekeeper; her father is liberated, and Tess finds the reward of her faith in a great love and happiness.

### CROWDS AT COLONIAL

The Colonial Theater apparently proposes no let-up in its run of good vaudeville. The show opened yesterday for a three days' stand at the Busy Corner Playhouse, is thoroughly in keeping with the high-class shows that have been given during the past few months. The Herbert Germaine Trio is a comedy acrobatic act with enough laughs in it to make anybody forget the hot weather. Welton and Marshall are a young man and woman in a comedy singing and talking novelty with some dancing introduced. They have an act that compares favorably with the best on the road. Mike, the dog, does some wonderful stunts that are pleasing, not alone to children but to grownups as well. Altogether the bill makes a very fine entertainment. Theatergoers are discovering that the ventilation in the Colonial warrants their attendance, no matter how warm the weather. During the last few days of the week at the Colonial, another homemade movie will be thrown on the screen. This is a dramatic play, "The Coward" and was posed by a company of about thirty High School graduates.—Advertisement.

### HOW OUT-OF-DOOR LIFE AFFECTS BEAUTY

Exposure to sun and wind, dust and the elements, although often acting as a tonic to the system in general and sometimes heightening the color of the skin, is still very damaging to the refined appearance of the complexion. The open air in itself is good, but the face should always be best protected against the extreme heat, wind and dust. The girls of your acquaintance who live a great deal out of doors by no means have the most beautiful complexions. You can best protect your skin against the elements or beautify it for social life by a face lotion which you can very easily make at home by getting 4 ounces spumax from druggist and dissolving it in 1/2 pint of hot water, to which you add 2 teaspoonfuls of glycerine. This lotion is easier to apply than powder, does not rub off, looks like part of the skin, giving a natural velvety bloom while removing shininess and surface discolorations and curing irritation and pimples.—Advertisement.

It is said that the car was going so fast that it traveled half a square before the driver could stop it and bring it back to the place where the child was struck.
