

# THE CHARM OF MOTHERHOOD

### Enhanced by Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

# German Invasion of Belgium Forces England to Mobilize

### Newspapers Asked Not to Tell of Movement of Soldiers in France

By Associated Press  
Paris, Aug. 3.—An appeal to the press issued this morning asks the newspapers to use caution in publishing news about the war which might help the enemy. The fact that France intends to mobilize her forces to the last man is indicated by a bill to be introduced in Parliament to-morrow permitting men who have failed to present themselves for their term of compulsory military service to join the army now without liability to punishment. Some Americans here have offered to fight for France and a suggestion has been made that a corps of Americans should be organized here. All telegrams were refused at the post office in Paris for a period to-day, and it is assumed that the difficulties in the transmission of news and private dispatches will rapidly increase.

The concentration of the French troops in strategic positions along the frontiers and the operation of the military railways have given rise to rumors to the complete satisfaction of the military authorities.

## Five Pound Notes of English Bank Exhausted

By Associated Press  
London, Aug. 3.—The Bank of England five-pound notes were exhausted Saturday and all communications with Germany, either by telegraph or railway, has ceased as well as all railway communication with Belgium. No French train proceeds further than the frontier towards Belgium and Holland. The Germans have blown up the lines at all frontier stations. No trains are running in Belgium and more than 300,000 Germans in Paris are anxiously wondering how they are to return home.

The extraordinary quiet of Paris, the dispatch continues, makes a strong impression. Most of the French diplomats under 40 years of age have received marching orders. The French mobilization began Friday, notices being posted calling out the reserves.

## President Wilson Urges Americans to Be Calm During War in Europe

By Associated Press  
Washington, Aug. 3.—President Wilson to-day appealed to the people of the United States to remain calm during the war in Europe. He said that the United States owes it to mankind to help the rest of the world during the present crisis.

The president declared the United States could gain great and permanent glory during the present trouble providing no one lost his head. The president urged that nothing be done in America to add to the excitement of the world. There is sure to be inconvenience to the financial institutions of the country, he told the callers, but added that the administration is fully prepared to help out all difficulties. He added that no credence be given to unconfirmed reports of a sensational nature.

The president declared there was no cause for any serious alarm in the United States. The administration is bending every effort, he said, toward getting ships to carry the foodstuffs and other products of the United States to all the world and to bring home Americans stranded in Europe.

A proclamation of neutrality, Mr. Wilson said, will be issued as soon as it can be completed by the State Department. He does not believe there will be any necessity for Congress to remain in session because of the situation in Europe. The president, in talking to correspondents, said: "I want to have the pride of feeling that America, if nobody else, has herself possession and stands ready with calmness of thought and steadiness of purpose to help the rest of the world."

## Italy at Peace With All the Belligerents

Rome, Aug. 3.—In a semi-official statement published here to-day it was said: "The Italian cabinet has decided that while some of the European powers are at war Italy is at peace with all the belligerents. Consequently the citizens and subjects of the kingdom of Italy are obliged to observe the duty of neutrality."

## Face Peeling Easy—Blond or Brunette

"The blonde's complexion fades early, because her skin is extraordinarily thin and fine," says Mme. Lina Cavallari. "The skin is thicker and coarser in the brunettes, as a rule, and has a tendency to an oily appearance. For this reason the best remedy for the brunettes' oily or sallow complexion, the best remedy is ordinary mercurized wax. Used every night, this will give one an entirely new complexion within about a week's time. The wax gradually peels off the worn-out surface skin, with all its defects, a little each day, without affecting the delicate epidermis that you see. The latter will have the exquisitely beautiful glow of youth—indeed, one may readily lose ten or fifteen years from her age, so far as appearance goes, by a course of this simple treatment. The wax secures at any drug store, is applied like cold cream."

## Kronprinzessin Cecilie With \$10,600,000 Ordered to Proceed to Bremen

New York, Aug. 3.—Wireless messages were dispatched to-day from the home office of the North German Lloyd Steamship Company in Bremen, ordering the Kronprinzessin Cecilie, which has on board \$10,600,000 in gold for London and Paris banks, to proceed directly to Bremen, without touching as usual at Plymouth and Cherbourg. This order was taken from the steamship officials proposed to deliver the gold aboard German warships rather than run the risk of seizure by British ships.

The report that the ship was off the north coast of Ireland last night and another that she has been captured by British men-of-war were not confirmed at the local offices, nor was there any information as to the disposition of the passengers. Most of them are bound for England and France and would be considerably embarrassed by being put ashore in Germany.

## Mobilization of German Army Is Progressing With Absolute Calm

By Associated Press  
Berlin, Aug. 3.—The mobilization of the German army proceeded to-day with absolute calm. An open-air religious services, attended by many soldiers in marching kit, was held to-day around the Bismarck monument outside the Reichstag Parliament House. All joined in the Lord's Prayer.

## Parisians Are Demented With Hatred For Germany

Special to The Telegraph  
London, Aug. 3.—W. H. Crane, speaking of the excitement in Paris, said: "I never saw such scenes in my life. The Parisians are like a demented race—demented with hatred of Germany—and resolved to avenge the insults of forty years. The taxicab man who drove me to the station when asked whether he was going to fight, vehemently answered: 'I'd leave everything I possess in the world, wife, children and home to put foot on German soil and kill a German.' I intended to stay over until Tuesday, but last evening Consul General Thackeray telephoned me to leave by the first train, as in twenty-four hours there would be no trains."
