(None tried on, none sent C. O. D., none exchanged.)

10-12 South Fourth Street

LOOKING BEYOND THE DEPRESSION TO A PROSPEROUS FUTURE

Edward A. Wood, president and manager of the Equitable Life Assurance Agency at Pittsburgh, has issued a circular letter to policy holders in which he says:

"It is not necessary to go into the causes of the world-wide depression in business which exists in almost every country in Europe and in the United States and Canada, as well as in South America, at the present time. The fact that there has been a halt in business remains."

"But it is important that we should keep reminded that these depressions never have continued, will not now, and never can, continue indefinitely, and that by very reason of the length of this depression, a belief shared by not only those disinterested but by employees of railroads themselves and by shippers, is one indication of this fact."

"One of the pregnant sayings of the late J. P. Morgan is that of his father, who said, 'My son, any man who bets against this country goes broke.' Wealth in this country is doubling every two decades; population every three. Since 1814, the wealth of the country has grown from \$2,000,000,000 to \$150,000,000,000; and our income from less than half a billion to about \$35,000,000,000. No country with an income of \$35,000,000,000 is poor. This annual income is about 40 per cent. of the wealth of Great Britain and three times her income; 70 per cent. of the total wealth of France and six times her income; 45 per cent. of the wealth of the German empire and three and a half times her income."

"We shall produce this year from our soil the total income of Great Britain; twice the income of France, and more than the annual income of Germany; more than the income of Belgium, Portugal and Switzerland combined. This is an annual product, that is not wasted wealth but grown annually on our soil, not including the ores used and consumed. A nation that has such wealth from this source alone is not a poor nation."

"But there are other signs that a period of long and great prosperity is approaching and perhaps is nearer at hand than appears. One of the causes making more acute the depression in the United States has been governmental and public attitude toward wealth and corporations, dating perhaps from the insurance difficulties that began with the Equitable in February, 1905, and leading rapidly into railroads and so-called 'trusts,' whose

officers have had their attention diverted and their energies expended in defending themselves and reorganizing their methods and businesses instead of proceeding along lines of constructive, aggressive work. There are signs that this attitude is abating, that the country is gradually finding out that we are one country, that we are commonly interested in all sources of wealth, that to destroy the prosperity of the great business institutions which have so upbuilt this country does not hurt a rich alone, but reduces their ability to pay dividends to the hundreds of thousands stockholders, most of them persons of moderate or poor means, as well as their ability to employ labor at high wages. The fact that there is a general belief that the railroads should receive a freight advance, a belief shared not only by those disinterested but by employees of railroads themselves and by shippers, is one indication of this fact."

"Explorers" to Solve Some Weighty Problems

The European conflict, the Mexican situation and the tariff are just a few of the things that will be settled by the Explorers of Harrisburg and Chambersburg, who this morning opened their annual camp at Pine Grove Furnace.

Benjamin N. Nead and Charles C. Schriver went to the camp grounds last week and saw to the erection of tents and this morning when the Explorers hit the tall timber for their annual "leaf" they found everything in ship shape. Among those who will be present from this city during the next ten days are Frank B. Wickersham, Charles F. Hoover, George A. Gargas, E. J. Stackpole, a brevet, or guest who is not a member, Herman P. Miller, George Barns and Alexander W. Bergstresser. Others from this city will likely go before the camp ends on Friday, August 14.

A BILLION DOLLARS AVAILABLE

Washington, D. C., Aug. 4.—Amendments to the bank law extending issues of currency to 125 per cent. of capital and surplus of banks and trust companies in the federal reserve system, were finally passed in the House today. More than a billion dollars will be available for additional circulation.

L. W. COOK

PERSONAL SOCIAL GET OUR BBS OF OLD SILVER FIRST ANNUAL CAMP

There's Nothing Too Small to Go Into the Suffrage Melting Pot

The Central Pennsylvania Woman's Suffrage Association, through its president, Mrs. J. M. Jones, is asking that everyone interested in this work will at once look up all the old bits of silver and gold in their homes of no value at all in its present state and send to Mrs. Jones for the suffrage melting pot.

The mint at Philadelphia will melt the metals free of charge and pay actual value in weight for them. Nothing is too small, and everything can find old belt buckles, watch cases, pins and the like to send to Mrs. Jones at 105 Locust street. The money made will help small the suffrage treasury for work during the coming winter campaign.

Just Home From Germany Avoids the War Scare

Professor J. Harry Aker was in the city today greeting old friends and making another trip to Germany. He studied for two months at Berlin with Mme. Carreno and Ganz, two famous piano teachers, and had the honor of playing before the Kaiser while there. His Majesty presented Mr. Aker with a handsome silver cup, with his name and a motif from Chopi engraved on it.

Mr. Aker came home rather unexpectedly on the Waterland, last Wednesday. While there was great unrest in Europe war had not been declared and the news received or shipboard by wireless almost caused a panic, especially among the German passengers. Mr. Aker will remain with his parents at Siddonsburg until September 1.

VISIT HARRISBURG RELATIVES

The Rev. Harry J. Ulrich, of Inter-course, Pa., with Mrs. Ulrich who was formerly Miss Mary Pastor, of this city, is spending a week in this vicinity among relatives. The Rev. Mr. Ulrich is minister of the Inter-course United Brethren Church.

Miss Elizabeth Cox and Raymond Cox, of Norristown, are the guests of Mr. and Mrs. M. J. Cox, 2027 Penn street.

Miss Alice Hope, of Philadelphia, is spending several weeks with Mrs. Harry F. Hope at 1614 Briggs street.

Blast Out Old Sewer Outlet Along the River

Things are happening along the River Front nowadays. A tremendous explosion at Front and Hamilton streets at about 9.30 o'clock today aroused the park frequenters in that section and the entire neighborhood. It was just a little blast tearing apart a section of the old sewer outlet which is being removed by the contractors on the river wall.

Charles D. Stucker, of the Stucker Brothers Construction Company, stated today that the whole section between "Hardacre" and Maclay street would be completed by October 1, unless unforeseen difficulties are encountered. Large gangs of men are now at work on the concrete steps, the foot wall, dredging of the silt outside the outlet, and the filling in between the slope and the steps. He stated that the work would be completed northward as far as Market street this week, with the exception of the walk under the Reading railway bridge, which is being rushed on the stringers between the Walnut street bridge and the city pumping station and another gang is constructing the foot wall in the same territory.

The water is now nearing its lowest summer stage and the opportunity to hasten the work is being taken advantage of by the contractors.

LOCAL FIRM BIDS

Wittaker and Diehl, a local contracting firm, were among the bidders for the construction of a new county bridge on the mill road over Willowough-run in Cumberland township near the Marshall Springs farm, Gettysburg. The local firm bid \$3,595 for the construction of the bridge, but the contract was tentatively awarded to a Gettysburg firm.

PLAN NEW BAPTIST CHURCH WEST END

Prominent Lay Members Backing Mission Project; Sixth and Schuylkill Possible Site

Within a short time the organization of a new Baptist church may be effected and a new Baptist edifice may be erected in the West End. At least one prominent time prominent Baptists of the city have their heads together and are discussing the advisability of organizing a mission in that section of the city with a subsequent erection of a church home at Sixth and Schuylkill streets.

With a view to arousing the interest of Baptists in the West End the First Baptist Church, Second and Pine streets, has decided to direct a series of evangelistic meetings on the lot at Sixth and Schuylkill streets throughout the next several weeks. Evangelist Harry J. Carmichael, who has been conducting tent meetings at Nineteenth and State streets, will be in charge.

The Sixth and Schuylkill streets site, it is understood, is owned at the present time by prominent lay members of the Baptist churches in this city, who recently purchased the property with the thought of future church erection. Among laymen who are interested in the mission project are D. P. Jerauld, of the Jerauld Shoe Company; G. F. Watt, president of the Elliott-Fisher Typewriter Company; John C. Nisley, attorney; Mahlon Evans, of the Evans-Furnace company, wholesale grocer, and Harry D. Jones, corporation clerk in the State Treasury Department.

Evangelist Carmichael will continue his tent meetings at Nineteenth and State streets until to-morrow, Thursday evening he will hold his first meeting at Sixth and Schuylkill. This meeting will be under the direction of the Pennsylvania Railroad Young Men's Christian Association. Beginning next week the meetings under the auspices of the First Baptist Church will begin. These meetings will likely continue throughout August.

To Organize Brotherhood.—A men's brotherhood will be organized by the men of the Epworth Methodist Episcopal Church, Twenty-first and Derry streets, at a meeting to be held to-night. O. P. Beckley and E. T. Weaver will deliver addresses.

Riverside Lutheran Church Believed to Be Near Possibility

What is looked upon by church people of Harrisburg as the first step toward the organization of a Lutheran Church in Riverside was taken Sunday afternoon, when a Sunday school with an enrollment of fifty-two members was organized through the efforts of the Harrisburg Lutheran Ministerial Association.

Many Lutheran Church families have been moving into the western end of the city during the past several years and several Lutheran ministers of the city feel it is time to organize a church in that district. A committee was appointed, which consists of the Rev. Lewis C. Manges, the Rev. Amos M. Starnes and the Rev. E. E. Snyder. The Rev. S. D. Daugherty, of Philadelphia, a missionary superintendent of the East Pennsylvania Synod, assisted in the organization.

The Rev. J. B. Ruple, of Oberlin, a student of the Gettysburg Theological Seminary, will act as missionary pastor. The school was divided into classes and teachers were appointed. The election of the Sunday school officers will take place in about three weeks.

Festival and Concert Held on Church Lawn

The ladies of the Sacred Heart Church are putting the finishing touches to their arrangements for the lawn festival and band concert to be held on the church lawn Thursday evening, August 6.

The lawn will be decorated in colored lights and flags and bunting will adorn the booths erected for the serving of the refreshments of ice cream, cake, candy and soft drinks.

Prof. Bianchi and his Royal Italian band are holding their final rehearsals for the special concert during the evening. The committee looks forward to a large crowd as nearly a thousand tickets have been disposed of. They assure all who come a pleasant evening's entertainment.

TOO MUCH TANGO CAUSES NEURALGIA

Violent neuralgia of the head generally attacks overworked women who lack sufficient sleep, fresh air and red blood.

With the prevalent craze for dancing at all times and places it is becoming noticeable that women whose blood is thin—anaemic—become subject to neuralgia pains when they dance too much and rob themselves of sleep and open-air exercise.

The woman who makes great demands on her strength, either by overworking or overdancing, must keep her blood in condition or suffer. The pain of neuralgia is simply a sign adopted by nature to tell you that the nervous system is being starved because the blood no longer brings it what it needs. The one great cause of neuralgia is debility with anaemia or bloodlessness.

Dr. Williams' Pink Pills are a tonic for the blood and nerves. They begin at once to enrich the blood and enable you to furnish the nerves with the elements they need to restore them to health. A booklet on the home treatment of nervous disorders that will enable you to help yourself will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist can supply you with Dr. Williams' Pink Pills.—Advertisement.

AN EMPTY PURSE fills the face with wrinkles. If thy house is empty and you have need of money in small sums, come to us and we'll extend the needed loan at lower rates of interest than any other loan company and lower even than the State permits us to charge. Pennsylvania Investment Co., 132 Walnut street.

ALWAYS ON TIME is the man who buys one of our standard makes of watches. This jewelry store has established a reputation for having the most reliable watches made, and years of experience where the utmost accuracy in watches is demanded qualifies us to know what a good watch is and how to repair and adjust it to your satisfaction. W. R. Atkinson, 1423 1/2 North Third street.

NO RECENT NEWS FROM THE FAGER PARTY ABROAD

Friends of Dr. Charles B. Fager, principal of the Technical high school, who has been traveling abroad with his wife and mother, are somewhat concerned about their whereabouts. When last heard from they were in the heart of Austria and expected to enter Switzerland by way of the Austrian Tyrol. Nothing has been heard from them since the 21st of July.

MOTOR THROUGH NEW ENGLAND

Mr. and Mrs. Charles F. Spicer, principal of the Technical high school, Miss Dorothy Spicer and Dr. Thomas E. Bowman left early Sunday morning for a month's automobile trip through the New England States.

Mrs. Phillip Hummel, of Maclay street, has returned to her farm near Bendersville after spending ten days at her home here.

TU-BO-LAX Cured me

Corrects CONSTIPATION in 2 MINUTES

Why Wait All Night to Have Your Bowels Move?

Why take pills, salts, oils and drastic cathartics into the mouth that must pass down the throat, stomach and 32 feet of bowels in order to reach the trouble, which lies between 2 and 3 inches of the end of the lower bowel?

TU-BO-LAX Is the New Way

IT IS a laxative ointment in a collapsible tube. A little of this ointment is injected into the rectum, which immediately dissolves all the hardened substances and evacuates, cleanses and purifies the lower bowel.

Taking drugs through the mouth to produce a movement of the bowels is antiquated and unreasonable.

Physicians who have seen Tu-Bo-Lax exclaim, "Why didn't some one think of that before?" Here is a congested condition of the bowel only two inches from the surface, which is clogged like a sewer pipe, backing up all the gases and poisons into the system—creating indigestion, biliousness, sick headaches, sleeplessness, nervousness and general debility. Yet people have gone on for years pouring drugs into the mouth that takes all night to work, passing through the mouth and throat and 32 feet of bowels in order to reach this little clogged condition at the end of the rectum. Can any one imagine anything so idiotic—even the plumber would know better. The bowels are nothing but a sewer pipe when they become clogged. The only remedy is to remove all obstructions. Who would think of going 32 feet away from the trouble when they can reach it within 2 inches? It is as easily applied as putting a spoon in the mouth. There is no guesswork. It does not weaken nor disturb any other organ. It gives you a movement when you want it. It is not a mechanical device. It is a laxative ointment and schools the bowels to act naturally. It is especially adapted for all those who value time and must have their bowels move at a certain time. Conductors, motormen, policemen and business men will find this is truly a twentieth century blessing. Tu-Bo-Lax cleans the bowels with one movement. There is no running three or four times just when it is inconvenient, as is often the case with laxative pills.

Tu-Bo-Lax writes and spells the death knell to purgatives of every description.

Physicians are bound to give it universal indorsement. It is so-4 by all the leading druggists in Harrisburg, or we will send you a tube upon receipt of 25 cents, which contains several applications.
