Sesquicentennial of Big Spring Presbyterian Church

ANNIVERSARIES OF CHURCH AND PASTOR

United Presbyterian Congregation and the Rev. Dr. Geo. M. Reed Celebrate at Newville

Special to The Telegraph
Newville, Pa., Aug. 5.—To-day members of Big Spring United Presbyterian Church of this place are holding their annual picnic in the grove adjoining the church. At this time, also, a double celebration is being held, first, commemorating the one hundred and fiftieth anniversary of the organization of the church in this place and the thirty-fourth anniversary of the pastorate of the Rev. Geo. M. Reed, D. D. This evening, special services will be held in the church when addresses will be made by visiting clergymen.

This congregation was organized in 1814. It has had six pastors in the one hundred and fifty years of its existence and six church buildings.

A singular thing in its history is that each pastor, save one, has had a different house of worship. The first building was a tent of wood, the second was built of logs; the third (the present one) of brick. The fifth building in 1848, was destroyed by fire in 1881.

The present building stands in a grove of chestnuts, and was erected at a cost of \$18,000.

The Rev. Dr. George Reed became pastor of this church in 1880, having come here from Ashland county, O., where he had been pastor for 12 years. He was born in Canonsburg, Pa., and was a graduate of Westminster College in 1873; studied theology in Allegheny City and Newburgh, N. Y. He was licensed to preach in April, 1875, by the First New York Presbyterian church and ordained in 1876 by the Mansfield, Ohio, Presbytery.

Dr. Reed is a popular pastor in Newville, and has the honor of being the oldest pastor in service in Newville, having been here 34 years; he also served his congregation longer than any of his predecessors, and he has the distinction of being pastor of the only United Presbyterian church in the Cumberland Valley.

The other pastors of the church were: The Rev. J. Rodgers, 1773-81; the Rev. J. Jamieson, 1784-92; the Rev. J. McConnell, 1788-1809; the Rev. Alexander Sharp, 1814-1857; the Rev. N. L. Wallace, 1861-1879, with the Rev. Dr. Reed from 1880.

SOME KNOWN FACTS ABOUT RHEUMATISM

There are many things that are still unknown about rheumatism. The treatment of it is still far from satisfactory. Doctors realize this, but nobody is more fully aware of it than the sufferers themselves.

A tendency to rheumatism once established, the pain often returns with every change of weather, showing that the poison is still in the blood awaiting favorable conditions to become active and cause trouble.

One fact is known and acknowledged by all medical writers and that is the rapidity with which the blood in the rheumatic poison invades it. Building up the blood is the best remedy for rheumatism, as the enriched blood is able to overcome or throw out the poison of the disease. For this reason rheumatic sufferers should be interested in the success which Dr. Williams' Pink Pills have had in the treatment of this painful disease.

A book, "Building Up the Blood," will be sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y. It contains directions regarding diet, baths and hygiene for rheumatic patients.

Dr. Williams' Pink Pills are sold by all druggists everywhere.—Advertisement.

RESIGNS AT LEBANON

Disagreement of City Officials and Council Ties Up Municipal Improvements

Special to The Telegraph
Lebanon, Pa., July 5.—Lebanon's new commission council is in an uproar and a tie-up of municipal improvements is threatened. At a stormy meeting of the body on Monday night, City Solicitor Walter C. Graeff tendered his resignation to the council. It was taken in time to prevent action on it. Highway Commissioner John Hartlieb resigned his position and it was accepted. The meeting of Charles H. Smith, a former superintendent of the Lebanon Valley street railway line was elected in his place. City Engineer Crowell is reported to have secretly told councilmen that if Graeff's resignation to these facts was intended merely to show his knowledge of the facts in the case, Mr. Krause made caustic comment, and his insinuations that the solicitor must be influenced thereby, gave rise to personalities and recriminations on all sides, and Mr. Graeff hastily wrote his resignation. Council members go back to the subject of communications to consider it however, and when Mr. Krause made an attempt to answer a bitter denunciation by Councilman Fisher, a motion to adjourn prevailed. The sever operations were started only on Monday, are a contract for street paving is about to be placed in operation by the Franklin company of New York. In the event of the resignation of Graeff to retire and a concurrent resignation by Engineer Crowell, would put local improvements at a standstill.

No word has been received and anxiety is felt for their safety, which every effort is being made to communicate with them. Mr. Hendrian is physical instructor in the public schools of New York.

YOUNG STEER NEARLY STARVED

Blain, Pa., Aug. 5.—A year old steer belonging to David Stambaugh strayed into the mountain and became fast in the rocks. It was discovered by a pipe line walker and just in time to save its life, as it had been there possibly for three or more days without water or food. The animal was carried down from the rocks by four men and hauled home in a wagon, a distance of several miles. It is beginning to eat and drink and shows signs of recovery from its adventure.

A Great Triumph Over Blood Disorders

The Stubborn Facts That Establish The Merit of Famous Remedy.

S. S. S. Means Pure Blood Which Insures Long Life and Health.

Not a day passes but what someone announces his complete recovery from some lingering blood malady, after using S. S. S., the famous blood purifier. And these recoveries vary from severe forms of eczema and other skin diseases to those which attack the deeper tissues causing general catarrh, chronic rheumatism, glandular swellings and all sorts of painful, distressing and eruptive conditions of the blood. The action of S. S. S. is entirely in the blood as it is not a mere laxative, nor "dops" for the nerves, contains no mineral of any sort, is acceptable to the weakest stomach and is always the same for full influence. Its properties are such that unlike most remedies the system never resists its action but welcomes it. Thus from the time it is first used until complete recovery it is the same dominating force in the blood and cannot produce any other than a most beneficial effect and continuous curative tendency. Where the general health is fairly good the rapidity with which S. S. S. clears the skin of unsightly eruptions or banishes the pains of rheumatism, has been commented upon by physicians, chemists and overjoyed patients as truly remarkable. And even in those severe types of blood disease where its ravages have been a torture for years its improvement that has taken place after a short use of S. S. S. has long been a wonder that nature should have given us so remarkable and perfect an antidote.

You will find S. S. S. on sale at all drug stores but carefully avoid all substitutes. Wrapped around the bottle is a descriptive folder that tells you about the famous free medical department that has been the hope, the inspiration and the successful guidance of a host of sufferers. For a special treatise on blood troubles written by a skilled doctor write The Swift Specific Co., 80 Swift Bldg., Atlanta, Ga.
