It is understood that Premier Asquith will relinquish the duties of secretary of state for war, but it is still unknown whether Viscount Haldane, who is assisting at the war office, or Field Marshal Lord Kitchener will succeed him.

Germany Are Crowding American Consulate

By Associated Press
Paris, Aug. 5.—Germans began to crowd to-day into the American consulate general here which has been changed with their interest during the hostilities. By arrangement with the French government, Consul General Thacker issues to each of them a certificate of identification which must be presented to the police commissioner of the district in which the person is domiciled. In exchange the commissioner issues an authorization to depart by train to some town in the west of France where he must remain until the war is over.

Most of the Germans are destitute and the members of the consulate staff have provided many of them with money from their own pockets as no public fund is available for the purpose. One wealthy German family expelled from its flat may have to walk the streets until the day appointed by the authorities for its departure for the west of France.

The French authorities have arranged for the departure of passengers desiring to cross the channel. A large number of Americans have applied for tickets.

MAY ASK COUNCIL TO APPROVE BIDS FOR FILL TUESDAY

Taylor Ready Yesterday With Recommendation, but Withheld It by Request

City Council may be asked at the meeting next Tuesday to approve the contract for hauling the excavated "fill" from the Second street subway to the river front above Hardscabble.

The one bidder, Ray S. Shoemaker, submitted his proposal Monday to M. Harvey Taylor, superintendent of parks and public property, and it is probable that Mr. Taylor will recommend the award of the job to him, at his figure of fifty-nine cents per yard. This provides for the carrying of the earth via a small industrial railway.

The park departmental head was ready to submit his recommendation yesterday. It is said, but held off at the suggestion of Commissioners Bowman and Lynch pending the introduction of the Bowman park frontage condemnation ordinance and the subsequent filling by the city of necessary bonds to protect property owners.

The Bowman measure, like all ordinances affecting the opening or grading of streets, must lie over for thirty days before final action is taken. Whether or not the park head will submit his recommendation at the meeting rather than wait until the final passage of the ordinance, is a question, although it is considered possible in municipal circles that Mr. Taylor may ask Council's approval at Tuesday's session. This would permit the contractor to get his equipment ready so that there might be no unnecessary delay.

THE NEW AD POSTAL

Some clever advertising man is responsible for the newest idea in modern publicity, the ad postal. It is nothing more than the regular United States postal card, on which several illustrated advertisements are printed in color. Space is left on the face of the card for the address and on the back for the message of the sender. The public benefits by being able to purchase the cards at a rate of two for one cent, the advertiser paying half of the regular price of the card and the user the other half. The cards are being placed on sale throughout the country, and the first appearance they have made in Harrisburg is at Forney's drug store, 426 Market street, where they are now on sale, announcement of which appeared in last evening's Telegraph.
