MOTORCYCLE RIDER CHARGES MAD BULL

When Animal Attacks Girl Young Man Bravely Goes to Her Rescue

Special to The Telegraph
Sunbury, Pa., Aug. 6.—When he saw a mad bull charging Miss Beesle Kaufman, 18 years old, near here last night, Charles Boyer, a motorcyclist, who said he lived at Craton, Pa., without hesitation drove his machine straight at the animal. It struck it in the side and Boyer was thrown into the gutter. Frightened at the unexpected attack of the motorcycle the bull turned tail, and fled to a pasture through which fence it had broken, and started to gaze. Boyer suffered many bruises, and the girl fainted. The bull will be killed.

Safe Home Treatment For Objectionable Hairs

(Boudoir Secrets.)

The electric needle is not required for the removal of hair or fuzz, for with the use of plain delatone the most stubborn growth can be quickly banished. A paste is made with water and a little oil of the powder, then spread over the hairy surface. In about 2 minutes it is rubbed off and the skin washed. This simple treatment not only removes the hair, but leaves a new skin free from blemish. Be sure you get genuine delatone.—Advertisement.

HOW TO STOP STOMACH TORMENT

Sound Advice From A Well-Known Physician.

Men and women who suffer from what they call Dyspepsia, indigestion or just plain "stomach-trouble" usually seek regular relief in the form of a peptic pill or tablet, or other artificial digestant. This, experience teaches me, is a serious error. In nine cases out of ten the distress is caused by the development of acids in the stomach,—formed by the fermenting of the food. Instead of a digestant, therefore, something should be taken to dissolve or neutralize this acidity, when normal conditions will allow as a matter of course. This acid matter is distinctly poisonous and unless it is dissolved, digestion carries the mass of fermenting food from the stomach to the intestines, where its poison is absorbed by the blood and carried all over the body. If all the great army of people who suffer after every meal, make it a point to take a teaspoonful of Bisurated Magnesia in a quarter glass of water after each meal, there would be no formation of acidity and consequently no distress or discomfort. Sour, acid, gassy stomachs, belching, bloating, etc., would then be a thing of the past. "Bisurated Magnesia" is a physician's secret and is inexpensive and can be obtained at any drug store. It is prepared for just such trouble and the best proof of its efficiency is that it will stop the sharpest, biting stomach distress in five minutes from the time it enters the stomach, simply by dissolving the acids that have been formed there. Its action is absolutely harmless.

Thin Men and Women

Here's a Safe Easy Way to Gain 10 to 30lbs. of Solid, Healthy, Permanent Flesh

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the bowels. What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. This person's body is like a dry sponge—eager and hungry for the fat-making materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and filling in the hollows. Sargol, and other good druggists have Sargol, and you can get it from your wholesaler, and send your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient. Caution.—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.—Advertisement.
