Payments to Be Made on Advices by Cables

Washington, Aug. 7.—John Burke, treasurer of the United States, issued a statement to-day giving further explanation of how friends of Americans stranded in Europe may deposit funds in their behalf with the Treasury Department.

"It will save time and avoid confusion and errors," said Mr. Burke, "if depositors will furnish a written memorandum giving plainly their name and address and the name and address of a brief description of the persons to whom it is desired payment shall be made, giving if possible the age, height, weight, complexion and color of hair and eyes. This will facilitate identification of the payee and lessen the possibility of payments being made to the wrong persons, as deposits are accepted only at the risk of the owner."

Mr. Burke explained that deposits may be made with assistant treasurers at Baltimore, Boston, Chicago, Cincinnati, New York, New Orleans, Philadelphia, St. Louis and San Francisco or sent to Room 126 Treasury Department, Washington. On the arrival of the cruiser *Tennessee* in Europe payments will be made to the various beneficiaries on cable advices to the department.

The manufacturers of agricultural machinery have placed all their stocks at the disposal of the ministry. A special advisory committee to carry out the plan has been appointed.

British Cruiser Sinks After Striking Mine

Special to The Telegraph

London, Aug. 7.—An official Admiralty report says that the British cruiser *Amphion* was sunk yesterday morning by striking a mine.

Paymaster J. T. Gedge and 130 men were lost. The captain, sixteen officers and 135 men were saved.

Another report says that the *Amphion*, which was the flagship of the third torpedo-boat flotilla, was damaged by a shell when the flotilla attacked a German flying squadron sixty miles from Harwich. The German warships were conveying the mine layer *Koenigsluise*, which was sunk by the British torpedo-boat *Lance*.

The *Lance* fired only four shots. The first destroyed the bridge of the steamer, the third and fourth tore away the stern and the *Koenigsluise* sank in six minutes.

The Admiralty states that a line of mines probably had been laid by the German mine ship *Koenigsluise* prior to her sinking on the Dutch coast. It is supposed that the *Amphion* struck one of these mines after sinking the German ships.

Reports of the engagement say that the British flotilla captured two of the German ships.

More than 200 German prisoners, taken from two boats that surrendered, were landed at Harwich, England, and are being held there.

A torpedo-boat took twenty-eight to the Shotley naval station, just opposite Harwich, while other wounded were landed at Harwich and taken care of in the little hospital there and in some of the public buildings that had been made into temporary hospitals on orders from the British fleet commander.

The hospital authorities at Hull to-day received orders to prepare to receive 250 men wounded in the North Sea engagement.

Shipping firms have been informed that the east coast is now clear from Hull to London. Coastwise services have been resumed and fishing vessels are free to proceed to Iceland.

MAY ASK REVISION OF BUILDING CODE

Contractors and Builders Discuss Possibilities—May Be Submitted to Council

Postponement of action on the amendment to the porch building line regulation ordinance by city council last week aroused some discussion among many real estate and building contractors as to the propriety at this time of adopting a new building code for Harrisburg.

Should such a measure be framed for councilmanic action the general opinion among the contractors and realty operators is that the provisions for regulating the construction of porches should be incorporated in this ordinance. Furthermore it is pointed out that provision should be made for the difference in conditions as they exist now compared to the circumstances of some years ago. Primarily, too, it is argued there should be an extension of the fire line zone to the city limits.

DOCTOR ORDERS RESINOL FOR BAD RINGWORM

New York, March 9, 1914: "A rash formed on my forehead and commenced spreading. It was a ringworm. The itching and burning which I endured for four months before I commenced using Resinol Soap and Resinol Ointment were terrible. All my classmates kept away from me in fear that they would catch it. I used every home remedy I could think of, but with no success. My family doctor advised me to use Resinol Soap and Resinol Ointment. The moment I applied them I felt a cooling sensation which was lasting—the relief was quick. I used two jars of Resinol Ointment, and Resinol Soap, and was finally rid of the pest. To-day there isn't a single mark to show where I had the disease." (Signed) M. G. Ross, 273 Church St.

Resinol Ointment and Resinol Soap are also speedily effective for eczema, pimples, blackheads, dandruff, sores and many forms of piles. Sold by all druggists. For trial free, write to Dept. 27-R, Resinol, Baltimore, Md.—Advertisement.
