SUFFRAGISTS URGE DEMAND FOR PEACE

Appeal to Women of World Received Here From National Suffrage Board

Appeals have been received by the Central Pennsylvania Woman Suffrage Association and the State headquarters at this city, from the National Suffrage Board, urging women of the world to demand peace. The appeal reads in part: "During the past hundred years women have given their toil not only to motherhood and the cares of family life but also to the building up of the great industries of every country. Yet, without one thought of the sufferings and sacrifices of women, who have reared sons, or of the tremendous industrial burdens that war will impose upon women, who will have to do their own work and the work of the men called to the field of battle; without consideration of the little children who will have to be taken from school or from play for industrial toil thus imposed upon them by the government whose duty it is to protect and shield them; this curse of a medieval war is thrust upon those whose will and wish have not been consulted. It is that hundreds of thousands of their sons may be sacrificed before the terrible machinery of modern war that the nations call upon women to give their youth, their years of toil and their labor for a higher civilization. Have they reared sons only to become prey to the ambition of kings and exploiters? Shall the strongest and noblest of the races of men be sacrificed and only the weak and maimed left to perpetrate mankind? "The suffragists of the United States call upon the women of the world to arise in protest against this unseemly wrong and to show war-crazed men that between the contending armies there stand thousands of women and children who are the innocent victims of men's unbridled ambitions; that under the heels of each advancing army are crushed the lives, the hopes, the happiness of countless women whose rights have been ignored, whose homes have been blighted and whose honor will be sacrificed in this unholy war does not concern us; reason and justice take the place of hate, revenge and greed. This is not a national issue; it involves all humanity. "Let the women of every nation involved in war make their men understand that the highest patriotism lies in conserving life, wealth and energy, and that war means not conservation but destruction of all that is best in civilization."

To Grow Hair on A Bald Head

BY A SPECIALIST Thousands of people suffer from baldness and falling hair, who, having tried nearly every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Compose, 2 ounces; Menthol, Crystal, one-half drachm. If you wish it perfumed, add 1 drachm of your favorite perfume. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics.—Advertisement.
