RELIEF FROM DYSPEPSIA

All conditions of depressed vitality tend to disturb the processes of digestion. There is not a disturbed condition of life that may not affect digestion. Few causes of indigestion are so common as thin, weak blood. It affects directly and at once the great processes of nutrition. Not only is the digestive and gastric and intestinal glands diminished but the muscular action of the stomach is weakened. Nothing will more promptly restore the digestive efficiency than good red blood. Without it the normal activity of the stomach is impossible. Thin, pale people who complain of indigestion must improve the condition of their blood to find relief. The most active blood-builder such cases is Dr. Williams' Pink Pills. They make rich, red blood which quickly restores the digestive organs to their proper activity and the first result is hunger. The dyspeptic has had the sight and smell of food now looks forward to meal time with pleasurable anticipation. Care now in the selection and quantity of food will put the patient well on the road to health. Diet book, "What to Eat and How to Eat" will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Dr. Williams' Pink Pills.—Advertisement.
