### NERVOUS CHILDREN

There is much criticism of modern educational methods that require too much work of school children, allowing them too little time for play and preventing sufficient out-of-door exercise. When the study of music or any other accomplishment, with the necessary practice, is added, the strain is increased.

Under these conditions the blood becomes impoverished and fails to nourish the nerves. The child becomes restless, and twitching of the muscles follows. Sometimes the child stumbles in walking and drops what it tries to hold. Pallor, listlessness, inattention, restlessness and irritability are symptoms that early show that the blood and nerves are failing to meet the demands made upon them.

Dr. Williams' Pink Pills, a safe tonic for children, will build up the blood, strengthen the nerves and help to meet the demands of the growing child. Sufficient out-of-door exercise, nourishing food and ten hours' sleep each day, with these tonic pills, will correct every long standing case of St. Vitus' dance and will cure the nerves of the most irritable child.

All druggists sell Dr. Williams' Pink Pills. A booklet, "Diseases of the Nervous System," will be sent free to any parent on request by Dr. Williams' Medicine Co., Schenectady, N. Y.—Advertisement.

## Breakdown Caused by Coffee

"I am satisfied," says a prominent physician, that coffee is responsible in a great degree for the premature breakdown of our active men and women.

"They suffer from caffeine poisoning.

"Of the truth of this, there is not the shadow of a doubt. Our common sense tells us that the daily swallowing of caffeine" (the alkaloid in tea and coffee), "powerfully affecting heart and brain—is followed by nervous depression, and finally by more or less disastrous results.

"I believe if people in general would use a harmless, nutritious drink like Postum as a beverage in place of tea and coffee, their physical and mental condition would be much improved."

Thousands, troubled with nervousness, biliousness, sleeplessness, headache and heart flutter, have done precisely what this physician advises—given up tea and coffee and adopted—

## POSTUM

with happy results.

"There's a Reason"

Postum is a pure food-drink, made from wheat and a bit of molasses, containing the nutrition of the grain. No caffeine—no drugs—no harmful ingredient in Postum. A delicious, nourishing beverage.

Postum comes in two forms.

Regular Postum—must be boiled, 15c and 25c packages.

Instant Postum—soluble—made in the cup, instantly, 30c and 50c tins.

Grocers everywhere sell both kinds and the cost per cup is about the same.

"There's a Reason" for Postum
