and merchants who presented addresses. Those present at the ceremony included the British and French ambassadors and all the cabinet ministers, headed by Premier Goremykin.

Emperor Nicholas, replying to the addresses, said: "At this stormy warlike hour which suddenly and against my wish has fallen upon my peaceful people, I seek, according to the custom of my ancestors, to strengthen the forces of my soul in the sanctuaries of Moscow. Within the walls of the old Kremlin I greet you, the inhabitants of Moscow, my beloved ancient capital.

"All my people everywhere, in the villages of their birth, in the Duma and in the council of empire, have unanimously replied to my appeal and rise with vigor throughout the country, forgetting all private differences, to defend the land of their birth and the Slav race. In a powerful common impulse all nationalities and all tribes of our vast empire have united.

"Russia, like myself, will never forget these historic days. This union of thought and sentiment in all my people affords me deep consolation and calm assurance for the future. From here, from the heart of the Russian land, I send warm greetings to my gallant troops and to our brave allies who are making common cause with us to safeguard the down-trodden principles of peace and truth. May God be with us.

"At the conclusion of the speech the Emperor and the Empress passed to the terrace of the Kremlin, where they were acclaimed by a vast multitude assembled in the streets below. A solemn te deum subsequently was celebrated at Uspevsky cathedral."

Baggageless Americans Are Glad To Be Home

New York, Aug. 19.—Homing Americans, baggageless for the most part, but glad to be out of Europe, lined the rails of the Red Star liner Finland as she steamed into New York harbor to-day after a voyage from Antwerp and Dover. All told the liner brought 1,032 persons, 252 in the first cabin, 215 in the second and 615 steerage.

Sprinkled among the Americans on board were a handful of Germans who were expelled from Belgium, and being unable to make their way to Germany, decided to come to the United States. R. De Barry, agent for the North German Lloyd at Antwerp, with his wife and boy, was among those expelled, notwithstanding that he is Belgian.

The Finland experienced great difficulty in getting out of the harbor at Antwerp. The channel buoys were not lighted and mines were everywhere. To make matters worse, a Norwegian steamer, accidentally sunk by a mine, obstructed the main channel. The channel was cleared by the Finland and lighted her ballast tanks and took a small and less frequently used channel, finally getting away on August 8.

At Dover 180 passengers were embarked, a majority of them bedraggled Americans who had fled the continent.

Retirement of Belgian Troops Rumored but Not Confirmed in Paris

Paris, Aug. 19, 10.20 a. m.—An official announcement this morning says the retirement of Belgian troops toward Antwerp is rumored but not confirmed.

It is officially explained that even were this report true, it would be neither grave symptom, nor unexpected. The defensive organization of Belgium, as conceived by General Brialmont and presented in technical works, provides that Antwerp be considered as a last defense. It has been fortified with care, and is to-day a vast entrenched camp upon the flank of the enemy.

Government Officials Have Gone to Antwerp

Paris, Aug. 19, 2.28 p. m.—An official communication from Brussels made public to-day gives certain details of the transfer of the seat of the Belgian government from Brussels to Antwerp.

This transfer is not an immediate necessity, it is explained, but it is preferred to effect it now in a normal

manner rather than risk interruption to governmental business.

While Belgian officials have gone to Antwerp, their families remain in Brussels. The Queen and the Princess are at the Antwerp Palace, while the King is with the army.

SAILINGS ARE ADJUSTED

By Associated Press
Washington, D. C., Aug. 19.—Diplomatic officials in Germany, Austria and Switzerland had instructions from the State Department to-day to arrange for the transfer to France and England of all Americans who want to return home. English line steamers had resumed sailings. It was reported, and the transportation situation from French ports was completely adjusted.

Cossacks Invade Germany as Defenders Retreat

Special to The Telegraph
London, Aug. 19.—Information has been received here to the effect that German forces on the Russian frontier are retreating. A regiment of Cossacks has invaded Germany on the east side.

The Russian embassy received a dispatch from the Russian general staff in St. Petersburg this afternoon stating that Russian mobilization is complete and that several members of the Imperial family are already on the front.

Official confirmation that Czar Nicholas will personally lead the main Russian army reached here to-day in a belated dispatch from St. Petersburg.

Hundreds of Americans Are Leaving Germany

By Associated Press
Berlin, Aug. 18, via Copenhagen to London, Aug. 19, 3.10 a. m.—Exciting scenes continue here as the American embassy here, enacted by Americans anxious to leave the country. Both Monday and Tuesday hundreds of them were always at the doors waiting for tickets for the special train which will leave Wednesday for Holland. Four hundred seats on board this train were quickly disposed of by Ambassador Gerard, who is negotiating for seats on trains to leave later.

Many poor Americans will leave Wednesday under protection of an attaché of the embassy, who will assist them during the journey and get rooms for them at Rotterdam pending their departure for the United States.

The staff of the American embassy has been laboring day and night for a fortnight.

From Munich and Nuremberg, 1,822 Americans will depart on three trains this week and four trains next week for Holland. Ambassador Gerard also is arranging for a train from Lucerne for Holland, as American in Switzerland do not desire to depart by way of Italy.

Most of the Americans here are still full of courage, despite the inconveniences they have been forced to undergo by reason of their involuntary sojourn. The difficulties with regard to money have almost disappeared.

gation by the Belgians. The Belgian State leaders almost broke down and wept in the council chamber when they decided that, for the good of Europe, Belgium must allow the Germans to enter Brussels.

"Brussels is being held out to Germany as a bait. Germany may destroy Brussels, but the deeper she strikes the more surely does her head enter the lion's mouth. In front and on all sides Germany will find hostile armies.

"History is about to repeat itself. A second emperor is to meet his Waterloo."
