FIXING INSURANCE ON BURNED PROPERTY

Millersburg Will Get Modern Business House on Site of Brubaker Building

Special to The Telegraph
 Millersburg, Pa., Aug. 27.—The debris of the big fire early Monday morning is being speedily removed and all matter of value sorted out of the mass. Clayton A. Wetzel, who occupied one of the flats above the hardware store, was very fortunate in finding two of his pocketbooks intact with contents amounting to \$223. Part of it, however, was somewhat damaged and was sent to Washington for redemption. The other tribe of Red Men, who occupied the third floor of the brick structure along side of the burned building and whose paraphernalia was ruined by water, will hold their meetings in the Pick building until they can secure permanent quarters.

The insurance on the burned buildings belonging to the G. M. Brubaker estate has not yet been adjusted and the management of the estate has not stated what kind or size of new building will be erected on the site. It is presumed that a three-story brick business house will be in course of erection very soon. Usher & Co., the Millersburg Hardware Company and the Mehaffie restaurant have not as yet resumed business, all getting things in shape for the insurance adjusters.

Dallastown Graduates Can Now Receive First Grade-Rating at Home School

Special to The Telegraph
 Dallastown, Pa., Aug. 27.—For several years efforts have been made to establish a first class high school here. At about the time it was supposed to have been accomplished, a State inspector would appear, and decide it adversely. In consequence of this, a year ago pupils were graduated in the belief that they had a first class certificate. This was not the case as the borough has been compelled, on the account of this delusion, to pay the expenses of said graduates and other pupils who desired to go to the York high school.

At a meeting of the Dallastown school board last night word was received from Harrisburg that the school was now properly rated and that pupils graduating in 1915 would receive certificates as first grade pupils. On the strength of this the board has given notice that hereafter all local pupils entering our schools will be required to pay their own tuition. No pupils were graduated this year and on account of the apparent mixup, the work of the scholars has been retarded several years.

EVENING HASTE DEPLORE

Forethought Has an Important Effect Upon Our Health and Well Being, Says Dixon

The serious effect of eleventh-hour rushing and tearing around to get things accomplished and the importance of forethought are emphasized by Dr. Samuel G. Dixon, Commissioner of Health, in his weekly talk. The doctor gives some good, sound advice in these words:

"Do you belong to the army of the Eleventh Hour? Do you pant through the station gates a moment before the train leaves? Keep your engagements and transact your business with the lash of Father Time snapping behind you? If you do, perhaps you pride yourself on belonging to the Eleventh Hour brigade and talk knowingly of how much better you work 'under pressure.' Don't be deceived.

"You are perfectly aware that the chauffeur who runs his car at break-neck speed, slams on the break when he wants to stop and who always takes the hills on high gear, 'just to show what the human engine can do,' has little consideration for the continued efficiency of the machine. The finest motor ever built is but a fraction as good as the human engine.

"So it behooves everyone to bear in mind that the wear and tear of working under strain and continually driving business on high gear, cannot be continued without risk.

"Fortunately employers and employees are coming to realize that a certain degree of relaxation increases efficiency. However, there are thousands of business men who drive themselves relentlessly with an indifference which they would never permit an employe to display in handling their business. The result is a nerve force that proves so successful as a motive power, when exhausted results in complete breakdown.

"A reasonable degree of forethought and the exercise of forethought may save you much mental and physical strain without the least impairment of efficiency."

Drugs and Gloves Are Going Up in Price

While increased food prices are being fought by the United States Government, many other necessities are going up. Drugs are rapidly advancing in price. Gloves will also be more expensive, according to the dealer.

Gloves are made in America in large quantities, but the material used in their manufacture comes from abroad. Local dealers are reporting that the material and stock for the Fall and winter supply have already reached the large wholesale houses in the United States, and that prices may not come unless the wholesale houses send their goods to supply other countries outside the war zone.

Among drugs which have raised in price are: Opium, morphine, quinine, calabar beans, uniper berries, castile soap, cocaine, ergot, menthol, cod liver oil, Norway, olive oil, saccharin, belladonna, sage, carbolic acid, citric acid, oxalic acid, arsenic, refined salt-cake, benzozote of soda, tin bichloride, sweet orange oil and quicksilver.

RELIGIOUS NEURASTHENIA

The venerable Bishop Vincent of Chautauque, lately once remarked in a public address, "Some people think they have experienced religion when they have only had a bilious attack. Such persons are generally religious neurasthenics."

This creed is a neurasthenic theology and their religion a fine sort of pessimism. They discern on every storm cloud the face of an angry Providence and interpret every calamity, personal or national, as the visitation of the wrath of God. These unhappy souls live under a perpetual shadow because of their perverted ideas of life here and hereafter.

A religious neurasthenic may be in part a product of wrong education. The morbid ideas entertained by those unhappy persons are by no means held by a few individuals, but are widely current in certain religious communities. Often regarded with a sort of reverence and interpreted every calamity, personal or national, as the visitation of the wrath of God. These unhappy souls live under a perpetual shadow because of their perverted ideas of life here and hereafter.

Counterfeits.

Read what one of the GREATEST NEWSPAPERS IN AMERICA has to say on this subject:

"The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trademark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.—Philadelphia Bulletin.

Letters from Prominent Druggists addressed to Chas. H. Fletcher.

Conger Bros. of St. Paul, Minn., say: "Fletcher's Castoria is certainly full of merit and worthy of recommendation."

C. G. A. Loder, of Philadelphia, Pa., says: "For 20 years we have sold Fletcher's Castoria and are pleased to state that it has given universal satisfaction."

The Scholtz Drug Co., of Denver, Colo., says: "Fletcher's Castoria has surely become a household word. Seemingly every family where there are children uses it."

Hogland & Mansfield, of Boston, Mass., say: "We have nothing but good to say about your Castoria and we do not hesitate to give it our unqualified endorsement."

Riker's Drug Stores, of New York City, say: "Fletcher's Castoria is one of the oldest and most popular preparations in our stores. We have nothing but good to say about it."

Wolf-Wilson Drug Co., of St. Louis, Mo., says: "Of the thousands of patent medicines for which we have demand there are a very few of them that we can conscientiously recommend and your Castoria is included in this few."

D. R. Dyche & Co., of Chicago, Ill., say: "The increasing demand for your Castoria shows that a discriminating public is not slow to seek out a remedy of merit and once convinced that it does all and even more than claimed they do not hesitate to recommend it to their friends."

The Owl Drug Co., of San Francisco, Cal., says: "We have always been a believer in the 'original man protection' and have been particular never to sell anything but the genuine and original Castoria (Fletcher's). We have many calls every day for this article from people who say they would not be without it in their homes."
