

Keystone State Fair and Industrial Exposition

CAPITAL \$1,500,000.00

ANNOUNCEMENT

Last week we told you of our plans and purposes—our location—our buildings and our adequate transportation facilities for the handling of five hundred thousand visitors to the semi-annual international automobile speedway contest and the annual Fair and Exposition.

Now we want to impress you with the magnitude of this great undertaking. Pennsylvania is the second State in the Union in wealth, agriculture, stock-raising, mining and manufacturing interests. The State has farms worth approximately a billion dollars, her live stock is worth nearly two hundred million dollars, her crops a hundred and seventy-five million dollars, and her fruit production alone aggregates about ten million dollars. She has the greatest steel mills in the world, and her manufacturing wealth is conservatively estimated at two and a-half billion dollars in yearly products. According to the census of 1910, which is largely increased at this time, Pennsylvania had then more than twenty-seven thousand manufacturing plants, in which were employed over one million persons.

Within a radius of three hundred miles of Harrisburg eighteen million people reside. This vast population will be drawn from to support the gigantic enterprises that go to make the Keystone State Fair and Industrial Exposition the greatest Fair in the world's history.

This Is to Be Your Fair!

STATE IS TELLING FARMERS OF SOILS

Important State Publication Shortly to Be Issued For Use of the Agriculturalists

WORK OF STATE EXPERTS

Suggestions For Conservation of the Soil Will Appear in the New Publication

Just as an illustration of what the Keystone State is doing for its farmers... The foreword, which sums up the purpose of this valuable publication for the farmers of the State, is as follows:

"The purpose of the bulletin is to bring to the farmers, a plain and simple statement of the soils of the various counties and townships, as well as localities in townships, and all terms with which the average farmer is not familiar, insofar as possible, have been eliminated and plain simple statements to convey the ideas intended... The livestock industry, with all its accessories, including the production of beef, lamb, mutton and wool, especially pork, wherever soil, climatic and market conditions justify such undertakings together with the arrangements for raising both the leguminous and cereal crops for feeding the animals to yield the largest returns as well as for producing the largest quantity of manure and other roughage to be returned to the soil, to maintain and increase its fertility, are advocated. That there are soil and climatic conditions under which crops are produced especially suited for certain phases of the livestock industry, is well illustrated in the southwestern and western sections of the State where the blue grass pasture will produce a superior grade of beef, lamb, mutton and wool, and where the more vigorous, stronger boned horses than in any other section of the State. Such soil and climatic conditions should be utilized wherever possible. Little is said about the uses of artificial fertilizers, because the department has issued several bulletins on the uses of these materials to which the reader is referred."

The latest of the home made movies, entitled "A Mexican Invasion of Harrisburg," is to be presented at the Colonial Theater the latter half of this week. This picture, which will place on the stage 250 Harrisburgers on the screen, will give us a glimpse of the town with the Colonial's regular show of vaudeville and feature movies.

MEXICAN INVASION OF HARRISBURG IN MOVIES

As its name implies, "A Mexican Invasion of Harrisburg," is a home made thriller, and it is not hard to imagine what happens here any day if a bad-egg Mexican spy should drop down on our peaceful community and disturb the tranquility hereabout. If you think that Harrisburg would shiver and shake with fear you are mistaken, for it shows right in this movie how a spirited chase would take place right up to the very door of the house.

Thousand People Witness Raising of Duffy Barn

Marletta, Pa., Sept. 2.—Nearly a thousand people to-day witnessed the raising of the large bank barn on the Duffy estate farm, which replaces the one destroyed by fire during an electrical storm in July. York, Dauphin and Luzerne counties were represented. The contractors and builders, Messrs. Kenners and Walters, of Florin, are perhaps the oldest builders in the county, and have constructed more barns than any other firm. The former owner of the property, Mr. Duffy, is past eighty years of age. Many old residents were among the spectators, including B. F. Hiestand, 89 years old; William H. Tredebeck, 92 years; Frank Hipple, 88 years; Barr Spangler, 91 years, and others.

A PROUD, IMPERIAL RACE

The Peruvians are a proud, imperial race, living amid the grandest scenery of the western hemisphere, and holding high ideals of what is best in education and the unthought grace of life. On the great country estates there is much of the fine tradition and chivalrous sentiment that came from the best people of Castile and Aragon. The Indians of the high plateaus are a unique reminder of a civilization that flourished centuries before the face of the white man had blossomed like a flower in the western forests. The memorial records of a civilization that vanished in the midst of man's earliest recollections are faintly suggested in splendid ruins among sublime scenes. The name and fame of the brilliant men who built the walls and temples of Cuzco are lost, and all we know of the wonder and the charm of that forgotten culture in the Andes is found in the pathetic ruins of cities that are half as old as recorded time. "The Empire Children of the Sun," Peter MacQueen, in National Magazine for July.

Boys' neckwear, 4-in-hands and Windsors, **25c**

Main Floor—BOWMAN'S.

RATE INCREASES BEFORE THE BOARD

Public Service Commission Hears From Officials of the State's Big Railroads

George D. Ogden, of the Pennsylvania Railroad; F. T. Sladden, Pittsburgh & Lake Erie; T. J. Walters, Baltimore & Ohio; F. C. Baird, Bessemer & Lake Erie, representing the Central Freight Association, late yesterday discussed with the Public Service Commission concerning the five per cent. increase allowed by the Inter-state Commerce Commission, requesting the Commission to grant blanket permission to all roads publishing Pennsylvania interstate rates to cancel all tariffs now under voluntary suspension effective on or before September 12. They also asked authority to republish the 5 per cent. rates as modified by the order of the Inter-state Commerce Commission on less than statutory notice of three, five or ten days, or to observe the same number of days' notice as may be granted by the Inter-state Commerce Commission.

The Commission agreed as to the withdrawal of the present rates but reserved its decision regarding the proposition to make effective the 5 per cent. increase on less than the statutory notice. The Commission also made it plain that no matter what its attitude on the latter question may be, it would not affect the question as to the reasonableness of the increased rates.

The matter only involves that territory in the western part of Pennsylvania which comes under the recent ruling of the Inter-state Commerce Commission in awarding the increase.

ACROSS THE BORDER

It was during the strenuous production of this remarkable play that these accidents happened:

1. Miss Grace McHugh, the leading lady was drowned.
2. Mr. Owen Carter perished trying to save her.
3. The leading man was buried 40 feet from his horse.
4. His horse was killed by a fall down a steep hill.
5. A minor player was bitten by a rattlesnake in the Apache torture scene.

IMPORTANT STATE CONTRACT AWARDS

Dauphin County Road Letting is Subject to Approval of Local Authorities

In addition to the award of the contract for the Union Deposit State-aid road important contracts were awarded by State Highway Commissioner Bigelow yesterday for State-aid highway construction and for tags for the automobile division during 1915.

The contract for the turquoise blue automobile license plates to be used during next year was awarded to the Brilliant Manufacturing Company of Philadelphia. The Quayle Enamel Company, of Albany, N. Y., was the lowest bidder, but Commissioner Bigelow announced that letters had been received from other States asserting that this company had fallen down on contracts awarded to it.

William S. Tunis, Harrisburg, was awarded the contract for drivers' badges for 1915, at his price of 3.4 cents apiece. Eight contracts were awarded for State-aid highways. In Columbia county, West Berwick borough, the McNerney Construction Company, of Canton, Pa., received the award at their quoted price of \$40,437.55.

In Greene county, Franklin township, the contract was awarded to
