## Famous "Hospital Woods" Near Gettysburg Doomed

### Woodmen Cutting Down Trees in Grove Which Sheltered Hundreds of Sick and Wounded Soldiers During Battle

Special to The Telegraph  
Gettysburg, Pa., Sept. 10.—Wiping out of the "Hospital Woods," around which centers some of the most cherished memories of veterans wounded on the battlefield at Gettysburg, was begun this week by H. A. Myers, a lumber dealer of Cumberland county. The woods, located a mile from Gettysburg along the York pike, was the site of the military hospital, to which all the wounded were taken and nursed back to life immediately after the battle.

Myers deplors the fact that this spot, where many of them were snatched from the very jaws of death, should be wiped out by the woodman's ax.

## Deaths and Funerals

A TRIBUTE TO MRS. KUNKEL  
All that was mortal of Mrs. Annie Fager Kunkel, the devoted wife of Samuel Kunkel, the well-known banker and member of the Park Extension Commission, will be laid at rest in the Harrisburg Cemetery to-morrow afternoon. But the fragrance of a beautiful life will linger with those near and dear to her for years to come.

Mrs. Kunkel was the soul of gentleness and devotion to her friends was one of the strongest elements of a fine character.

Those of the older choir of Zion Lutheran Church have not forgotten the sweet, sympathetic voice that is now stilled to this world. Her heart was full of sympathy for those in distress and her many acts of kindness have marked the pathway of her earthly pilgrimage and will guide many others in their footsteps.

Her giving was always quiet and unostentatious and her love for her friends was as enduring as the elements of her strong character. Deeds of love and kindness which she still found opportunity to do, she still found opportunity to do, she still found opportunity to do, she still found opportunity to do.

## EMPEROR TELLS OF FLOODING OF BULLETS

### Message to President Wilson Made Public by Daily Mail Correspondent

London, Sept. 10, A. M.—The correspondent of the Daily Mail at Rotterdam has telegraphed the text of the message sent by Emperor William to President Wilson. It is as follows: "I consider it my duty, sir, to inform you as the Belgian representative of the principles of humanity that after the capture of the French fort of Louvain by troops found in that place thousands of dum dum bullets which had been manufactured in special works by the French government. Such bullets were found not only on French soldiers and on French prisoners, but also on English troops. You know what terrible wounds and awful suffering are caused by these bullets and that their use is strictly forbidden by the generally recognized rules of international warfare."

"I solemnly protest to you against the use of such bullets, which are being waged by our opponents, whose methods are making it one of the most heinous in history. Besides the use of these awful weapons, the Belgian government has openly incited the civil population to murder and to adopt the strongest measures to punish the guilty who continue their shameful deeds."

"Some villages and even the old town of Louvain, with the only remaining beautiful town hall (Hotel Deville) had my troops destroyed for the protection of my troops."

"My heart bleeds when I see such measures inevitable and when I think of the innocent people who have lost their houses and property as a result of the misdeeds of the guilty."

(Signed) "WILHELM I. R."

## HEAVY CUT ON SUBURBAN LINES

## Hurry Concrete on Wall and Steps to Finish by Winter

With the favorable weather of the present month the contractors on the public work are expected to force their undertakings to the limit in order that the concrete operations may be finished before winter. There seems to be no doubt that the work on the dam will be practically out of the way and while there is considerable to be done along the river front, the Stucker Brothers Construction Company confidently hope to get everything finished to Maclay street before shutting down.

Considerable comment is heard upon the fact that hundreds of tons of the best sort of fill along the outside of the dam has not yet been utilized in filling out the stretch between the slope and the steps. This material comprises stone, gravel and other matter admirably suited for the purpose, but it is expected that it will be utilized in filling back of the steps between the pumping station and Herr street.

To-day the steam shovel was busy on the space between the two ends of the steps near Walnut street and Market street bridge. This fill is being placed behind the wall north of Walnut street. There is still much stuff to be moved along the low water line and this work will have to be undertaken in the near future, if it is to be finished before winter.

Foreman Williams will break the record to-day on the construction of the concrete steps of the river wall. Heretofore the best record for one day was twelve. "We will put in fifteen to-day," said the foreman at noon. His gang being now in the vicinity of Delaware street. Meanwhile the steps are going up on the lower section near South street, and the stringers are nearly finished about the pumping station.

## FOOD FACTS What an M. D. Learned

A prominent Georgia physician went through a food experience which he makes public.

"It was my own experience that first led me to advocate Grape-Nuts food and I also know, from having prescribed it to convalescents and other weak patients, that the food is a wonderful restorer and restorer of nerve and brain tissues, as well as muscle. It improves the digestion and sick patients gain very rapidly, just as I did in strength and weight."

"I was in such a low state that I had to give up my work entirely, and went to the mountains of this State, but two months there did not improve me; in fact, I was not quite as well as when I left home."

"My food did not sustain me and it became plain that I must change. Then I began to use Grape-Nuts food and in two weeks I could walk a mile without fatigue, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever have in my life."

"As a physician who seeks to help all sufferers, I consider it a duty to make these facts public." Name given by Postum Co., Battle Creek, Mich.

Trial 10 days of Grape-Nuts, when regular food does not seem to sustain the body, works wonders. "There's a Reason."
