STUART DECLARES FOR DR. BRUMBAUGH

Says He Is Eminently Fitted to Discharge Duties of the Governorship of State

MUCH ADMIRATION FOR HIM Former Governor Says That There Is a Straight Out Tariff Fight This Year

Edwin S. Stuart, the "Business Governor" of Pennsylvania, declared yesterday that Dr. Brumbaugh was the man to elect chief magistrate of the Keystone State because he is fitted for the job. The ex-governor knows Dr. Brumbaugh of old and it is understood that he will shortly speak for him in his native city of Philadelphia.

"I remember distinctly hearing him deliver a speech, a number of years ago, on Founder's Day, at Girard College," said Mr. Stuart. "The man so impressed me with his sincerity and his able address, that the impression then made upon my mind has never been forgotten. It was his earnestness, his ability and the way he handled his subject. His dominating characteristics are earnestness and sincerity. So strongly do I feel on this subject, that I am satisfied that Dr. Brumbaugh would not accept a nomination or election to any office, if he thought his election would not carry with it a triumph for the principles of good government. Why do I feel this way? I have known Martin G. Brumbaugh ever since he came to Philadelphia. I have seen him develop as a sturdy, upright, conscientious man and official, one who has never known any master but duty.

"He is a typical Pennsylvanian, a Republican with high ideals as to the mission of his party. Those who say that if elected, he will be controlled by some other person, do not know the man. No better man has ever been nominated by any party for Governor. He represents in his private life, as well as in his public service, the highest ideals of American citizenship. If elected, he will carry with him in the discharge of the duties of his high office, that same fidelity to duty and high ideals as have ever characterized him as a man and as a public official.

The ex-governor was very strong on the tariff for protection. He is an ardent believer in and an advocate of the policy of protection to American industry. The contest for Senator at this time, in my judgment, is one strictly between Senator Penrose, the candidate of the Republican party, and Representative Palmer, the Democratic nominee. I believe in the tariff, and I intend to vote for Senator Penrose, because, if elected, I am satisfied he will vote as a member of the United States Senate for a tariff that will protect American industry.

"While we will all admit that any tariff bill must at times be revised, such revision should only be entrusted to the representatives of the party who believe in the policy of protection as a principle.

"No Republican tariff bill has ever thrown an American mechanic out of work or reduced the wages of an American workman. Every Democratic tariff has done both.

"The defeat of the Republican party at this time would be considered as over the country and particularly by the enemies of protection as a distinct and positive victory for the Democratic party, and all that party stands for; and also as an endorsement by the people of the great industrial State of Pennsylvania of the platform adopted at the Baltimore convention of July, 1912, which among other planks declared: 'That the Federal Government under the Constitution has no right or power to impose or collect tariff duties except for the purpose of revenue.'

CLEARFIELD HALL

Republican Candidate's Party Was Greeted by Crowds All Along the Line Yesterday

DECLARES FOR THE TICKET

Candidate Leaves No Doubt as to Where He Stands in the Tariff Campaign

Dr. Martin G. Brumbaugh, who was able to leave his father at Huntingdon yesterday and go with his campaign party into Clearfield county, found at every stopping place that the men of that hitherto stalwart Democratic county were for the Republican ticket. They have had a taste of Wilson tariff and the Palmer distribution of post offices and patronage to build up a machine and they know McCormick as coal land owner. They are going to vote Republican this year.

Dr. Brumbaugh, in nearly every one of his addresses, emphatically declared that a vote for the Republican ticket meant a vote for the home and the family of each voter, since it was in support of a party which has always, where they have been, protected the interests of the great mass of people and protected them from ruinous foreign competition. He praised the candidates who are his colleagues in the present campaign, declaring them to be men who have given and will give in the future clean, honest service.

I am in this campaign because we have a deep primary which enabled every man in the State to submit his claims to the people," said the doctor. "I represent one quarter of a million now straggling to you with their verdict and ask your support in November in order that we may give the people of the Commonwealth of Pennsylvania, four years of an administration in the present campaign, an entangling alliance about it or anything but honest, sincere determination to give to the people of this State a clean, honest government of its affairs. Under the present conditions, in the mere sordid aspects of a political campaign. We are not carrying on a campaign of abuse, but we stand for the best things in the life of the people of Pennsylvania and we are able them to determine how the affairs of the Commonwealth shall be conducted.

I should like to see the department here in Harrisburg so organized in the State of Pennsylvania that the abuse of selfish men would be a thing of the past and that the affairs of the administration of the Commonwealth of Pennsylvania and its business affairs are conducted by business men everywhere in Pennsylvania, so that we can look with pride upon our public officials and upon the men as men of high character and capable.

We are interested just now in trying to get the people of this State to see that what Pennsylvania needs is a business administration. Efficiency that will strike out every man incapable or incompetent. We should no more tolerate incompetency than dishonesty. We should no more tolerate incompetency than dishonesty. We should no more tolerate incompetency than dishonesty.

TRY THIS IF YOU HAVE DANDRUFF

Or Are Bothered With Falling Hair or Itching Scalp.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

If you want to keep your hair looking rich, do by all means get rid of dandruff for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless and everybody notices it. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.--Advertisement.
