TROUT BEING SENT TO MANY COUNTIES

Over a Million and a Half Will Be Issued by the State's Fish Hatcheries

BULLER EXPECTS RESULTS

Public Service Commission Holds Numerous Hearings; Capitol Takes a Day Off

Probably a million and a half trout will be distributed from the hatcheries of the State Department of Fisheries this Fall and the coming winter and Spring. These trout, according to State Commissioner Buller, are all a year old and capable of taking care of themselves and the distribution will be on the most extensive scale known in the State.

After Bad Cornmeal.—Dairy and Food Commissioner James Foust has started an investigation into the quality of the cornmeal being sold in the State now that the season of corn cakes and sausage is coming around.

Nomination Changes.—Thomas S. Cole was today substituted as Washington party candidate in the First Delaware Legislative district for H. M. McCoy, withdrawn, and Harry Ogden, substituted as Washington nominee in the Second Delaware for H. M. Lutz, withdrawn, and Carl A. Newburg, Washington candidate for seat in the Twenty-sixth district, filed a withdrawal to-day.

Big Hearings.—The Public Service Commission to-day heard the proceedings in the proposition of the Philadelphia and Reading Railway Company to cross certain Philadelphia streets above grade and it will take a good part of the day to-morrow in the proposition of the Conshohocken Water Company which will come up. In this case the whole matter of complaints about the Springfield Consolidated Water Company will be taken up.

Firemen at Capitol.—The Capitol was visited to-day by one of the largest crowds in months. Whole fire companies were taken through the departments by the guides.

Took Part of Day Off.—Capitol Hill took part of to-day off because of the State firemen's parade. Men in the department were visitors from their home towns and things were slow on the "Hill," even the department chiefs going to see the firemen and to listen to the bands.

Spoke at Atlantic City.—Dairy and Food Commissioner James Foust spoke yesterday at the meeting of the Keystone State Ice Cream Manufacturers' Association at Atlantic City and complimented them upon the efforts they are making in behalf of cleanliness. The great increase in the business done by ice cream manufacturers, he said, was due to the recognition by the public of the fact that they were doing all they could to improve conditions surrounding manufacture.

Approved Crossing.—The Public Service Commission last night approved the details of the proposed crossing of the Elizabethtown and Delaware street highway in Mount of the Cornwall and Lebanon county. Joy township, Lancaster county. Among contracts approved were the Lebanon and Lebanon Gas and Fuel Company, Milton and Turbotville and Northumberland County Gas and Electric Company. Crossings of the Sunbury and Susquehanna railroad were approved, together with a number of charters for electric companies in Erie, Cambria, Chester and Schuylkill counties.

More Arrests.—More arrests for failure to observe a detour of 1913 governing the employment of women have been made by agents of the State Department of Labor and Industry. Most of them were in Philadelphia.

To Investigate.—Dr. C. J. Hunt, associate chief medical inspector, will go to Johnstown to-night to make an investigation into the causes of the typhoid outbreak in that city.

STEEL TOWN (MIDDLETOWN CHESHIRE ROYALTON OBERLIN ENHAUT)

LOWER END TOWNS SEND BIG QUOTA

Highspire Has First Motor Apparatus Ever Used in This County

In to-day's big parade of Pennsylvania firemen were more than 700 valiant fire-fighters from Steelton, Middletown and Highspire.

The lower end fire-fighters were attired in spick-and-span new uniforms and brought along with them to this city, nine bands and several pieces of apparatus, including the first motor-driven apparatus used in Dauphin county. This was the new motor chemical belonging to the Citizen's Fire Company, of Highspire.

Steelton sent nearly 400 firemen, representing five of its six companies. The Citizen company had seventy men, its apparatus and the Municipal Band in line; the Paxtang Hook and Ladder Company, seventy men and the Bainbridge Band; the West Side company, seventy men, its apparatus and the Marvsville Band; the Baldwin company, seventy men and the Steelton Band, and the Hygienic Hose Company, sixty-five men, and the Penbrook Band. From Highspire there were 90 men, the Highspire Band and the new motor chemical apparatus.

Middletown sent its whole three companies, nearly 350 strong. Each of the companies had a band in line and the Rescue Hose Company was also represented by the Darktown Fire Brigade. This is the same aggregation of fire-fighters that burned a small house to demonstrate its ability during the Fourth of July celebration in Middletown. This feature attracted considerable attention along the route of the parade. It was led by the Young Indian Runners' Drum Corps, a boys' organization, from the lower end town.

MIDDLETOWN

Despite the McCormick Money Bags, Republicans Will Win in Lower End

The Middletown Republican Club was reorganized at a rousing meeting of representative Republicans in the Chamber building, in Union street, Tuesday evening. The mission of the voters present ran high and it was freely predicted that notwithstanding the lavish use of money by the opposition, the Republican ticket will poll one of the biggest votes in years in the lower end.

Plans were discussed for holding a public smoker Saturday evening. Several speakers will likely be invited. The officers elected were: President, E. S. Gerberich; vice-presidents, C. B. Erisman, A. B. Cressler, E. O. Hendricks, B. W. Kurtz, E. H. Kling, A. L. Erb, Grant Croll, Martin Metzger, B. K. Booser, Simon Eppier, Christian Longenecker, B. E. Ulmer, William F. Keever, Jeremiah Kreider and S. G. Ginrich; secretary, Martin Crull; treasurer, William F. Houser. The meeting was presided over by John Wagner and J. P. Ackerman acted as secretary.

McCormick Mouthpiece Pictures Fairy-tale Boom Stories in Middletown

The Palmer-McCormick campaign management, stung by the certainty of a Republican victory in the lower end of Middletown and the other Lower End towns to restore prosperity, this morning through its newspaper mouthpiece attacks the Middletown Journal, a daily newspaper published in Middletown, bearing the date to-day, to tell the truth about industrial conditions in that town.

Two weeks the local organ of Democracy has been making fruitless efforts to mislead the public as to the conditions in the Lower End town, where factories and mills are running on reduced time or not at all, and where hundreds of men, who formerly found employment in the Steelton steel mills, are now out of work.

Resorting to its customary methods of resorting to the public to place the blame for the removal, in 1908, of the tube works from Middletown on Penrose, and talks something about a charity dance. Of course, it says nothing about the recent meeting to organize a central charity committee for the statement made at that meeting about conditions being worse in Middletown now than since 1902.

STEEL MILL TIME TO BE FURTHER REDUCED

General Reduction in Wages Expected; Carnegie Company Lowers the Scale

The Iron Age this morning predicts that the running time in steel mills will be reduced still further before conditions improve. It also calls attention to the posting of a notice for a reduction of wages by the Carnegie Steel Company. Says the Iron Age: "Contraction in the volume of new orders for steel products continues. Its effect on the operation of mills has not been pronounced thus far, though in some lines production also are falling off considerably, but it is plain that running schedules must be cut down now before they improve."

"The Steel Corporation's total of unfilled orders which will be published this week is expected to show a large reduction for September. Last week its ingot production was at 60 per cent of capacity, and this has been substantially the figure for several weeks. New orders have fallen off sharply with all steel companies in the first week of October. Some have looked at 25 per cent of capacity this month; in the Chicago district the rate has been but little over 10 per cent. Following the record of the year, another buying movement would be due in December. The preceding nine months were January-February and June-July."

The posting of the required ninety-day notice of wage readjustment by the Carnegie Steel Company has been widely interpreted as pointing to the fact that the company is not so sure as it was formerly that this notice was given each year, whether reductions were made or not. The fact is that it has not now any intention of reducing wages."

Highspire Burgess Not Held on Charge Brought by Woman's Husband

When Aaron Klugh, Burgess and justice of the peace of Highspire, was arraigned before Squire Gardner, last evening, for a charge preferred by William Hand, of Highspire, the husband of Mrs. Emma Hand, the expected sensation was how Mrs. Hand was criminally attacked, developed into nothing more than the usual story of a woman's jealousy.

Klugh's arrest created a sensation throughout the county. He was charged with inducing Mrs. Hand to accompany him to a Harrisburg hotel and, after buying, tricking her into a room, to have sexual intercourse with her. The couple together testified that Mrs. Hand made no effort to get away.

COMBING WON'T RID HAIR OF DANDRUFF

The Easiest and Best Way is to Dissolve It
The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary hair cream; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this to-night, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Letters to the Editor

MCCORMICK AND FIREMEN

To the Editor of the Telegraph:
Last evening I saw large cards carried around the streets with reading on them denouncing the Republican party. The Democrats are taking advantage of the great crowd that is in Harrisburg. Why don't the Republicans get on the job?
Who is the biggest enemy of the volunteer fire department? Vance McCormick.
Ever since he was Mayor of Harrisburg he has been knocking on the volunteer fire department and been advocating a paid fire department for Harrisburg. Read his message to Councils when he became Mayor. For years the editorial page of his paper has been knocking on the fire department, as everyone who reads The Patriot knows.

I believe that there should be cards printed and should be placed into the hands of every visitor that enters our city.
I believe that there should be cards printed and carried around the city showing the people the real enemy of the volunteer fire department—Vance McCormick.
