## TONE UP YOUR DIGESTION!

One-half Teaspoonful of Morrel's Salts Night and Morning Will Make a New Person Out of You. "The Harmless Cathartic."

If your digestive system is out of order and you feel badly without knowing just what the matter is, it will pay you to try taking a half-teaspoonful of Morrel's Salts at night and morning. This natural mineral corrective is a remarkable tonic for the run-down system. It helps every digestive process, makes your bowels normal, stimulates the activity of the liver and kidneys, and tones up the nervous system generally. Unlike other cathartics, Morrel's Salts is both pleasant to take and absolutely free from after-effects. Instead of depending upon poisonous substances to clean out your system, it does this work in a gentle, natural way, which does not cause subsequent constipation or griping. For Morrel's Salts is simply the concentrated mineral contents of the natural healing waters of the famous Manitou Mineral Springs of Saskatchewan, Canada, with effervescence added. Full analysis is on every bottle, and it is absolutely guaranteed to be free from harmful drugs or narcotics. Invaluable for headache or constipation because both effective and harmless. An excellent remedy for Rheumatism, Auto-intoxication, Blood Impurities, Bad Complexion, Liver and Kidney Disorders, and as a Nerve Tonic. Try Morrel's Salts to-day. Ask your doctor's opinion of its contents. At 10 C. your druggist's. Morrel's Manitou Mineral Co., Chicago, Ill.

## ENGLISH CRUISER HAWKE IS SUNK

[Continued From First Page]

seus and Gibraltar and was launched in 1891. Her armament consisted of two 9.2-inch guns, ten 6-inch guns, twelve 6-pounders, five 3-pounders, two machine guns and two torpedo tubes. Her complement is given as 544 men, but she may well have had fewer on board when she went down. The Hawke was commanded, according to the British admiralty list of September, 1914, by Captain Hugh C. P. T. Williams and among her officers were Commander Bernard A. Pratt Barlow and Lieutenant-Commander R. Rosoman.

The disaster to the Hawke follows by about three weeks the sinking in the North Sea of the British cruisers Aboukir, Hogue and Gressy. These vessels succumbed to the attack of a German submarine and with them some 60 British officers and 1,400 men went to their death.

The Hawke was laid down in June of 1892. She was launched at Chatham on March 11, 1891. Among her officers at the time of this disaster were eight naval cadets.

Other British warships lost since the outbreak of hostilities are the cruiser Amphion, which was sunk in the North Sea by a mine August 6, and the cruiser Pathfinder, torpedoed in the North Sea September 10. The loss of the Hawke makes a total of six British cruisers destroyed by Germany in the North Sea since the beginning of the war.

## CUT THIS OUT

Famous Recipe For Catarrhal Deafness and Head Noises  
If you know of someone who is troubled with head noises, or catarrhal deafness, cut out this recipe and send it to them, and you will perhaps have been the means of saving some poor sufferer from going blind. Investigation has proven conclusively that catarrhal deafness, head noises, etc., were usually directly caused by constitutional disease, and that salives, sprays, inhalers, etc., merely temporize with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late in perfecting a pure, gentle, yet effective tonic, which would quickly dissipate all traces of catarrhal poison from the system. The effective prescription which was eventually formulated and which has aroused the belief that catarrhal deafness will soon be extinct, is given below in an understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from W. H. Kennedy or any other good druggist in Harrisburg, 1 oz. Parmit (Double Strength), about 75c worth. Take this home, and add to it 1/4 pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

## STEELTON'S IMPROVED COST OF LIGHTING STREETS

At the Same Time the Foreign Sections Will Be Better Illuminated

Plans for reducing the cost of lighting the streets of Steelton will be discussed at a joint meeting of the town property and finance committee of Council and a representative of the Harrisburg Light and Power Company within the next few days.

At the last meeting of Council a proposition to improve the distribution of lights and at the same time give greater efficiency in street lighting, was discussed. The town property committee was authorized to enter into a new contract with the Harrisburg Light and Power Company just as soon as the plans were completed. It is proposed to replace many of the present arc lights with one hundred candle power incandescents. In this way the number of lights in the borough may be increased and at the same time a considerable sum of money saved.

After a tour of inspection of the entire borough at night a number of new locations for lights were selected. It was found that the cost would be reduced as follows: Second ward, \$175 annually; Third ward, \$211; Fourth ward, \$172; Fifth ward, \$59. In the first ward the cost would be increased about \$126.

The cost in the First ward will be greater on account of the large foreign section. It is planned to place a number of lights in this district, which heretofore have been poorly lighted. By this method it is believed a great deal of disorderliness in this section can be stopped. The number of lights in the West Side foreign section has also been increased in the plans for the same reason.

The exact date for the final meeting of the committees has not been set but will probably be within the next ten days.

## Baby of Future is Considered

Much thought has been given in late years to the subject of maternity. In the cities there are maternity hospitals equipped with modern methods. But most women prefer their own homes and in the towns and villages must prefer them. And since this is true we know from the great many splendid letters written on the subject that our "Mother Friend" is a great help to expectant mothers. They write of the wonderful relief how it seemed to allow the muscles to expand without undue strain and what a splendid influence it was on the nervous system. Such helps as "Mother's Friend" and the broader knowledge of them should have a helpful influence upon babies of the future. Science says that an infant derives its sense and builds its character from cutaneous impressions. And a tranquil mother certainly will transmit a more healthful influence than if she is extremely nervous from undue pain. This is what a host of women believe who used "Mother's Friend."

These points are more thoroughly explained in a little book mailed free. "Mother's Friend" is sold in all drug stores. Write for book, Bendfield Register Co., 411 Lamar Bldg., Atlanta, Ga.
