POWELL AND YOUNG TOLD TO GET ON THE JOB BY BRUMBAUGH

Says if There Is Graft on Capitol, Hill It Is Their Business to Ferret It Out

SHOULD GO TO THE COURTS And Not Drag Their Insinuations to the Partisan Newspapers of the State

If there is anything wrong in the State Highway Department or any other department of the State government why don't Auditor General Powell and State Treasurer Young expose it and refuse to pay the bills which they are passing right along, asked Dr. Martini, I. G. Brumbaugh, Republican candidate for Governor last night at Franklin.

Dr. Brumbaugh said he had waited to hear of any graft and called upon the present auditor general and the present State treasurer to go to the criminal courts rather than to partisan newspapers with their complaints. "I condemn no man in advance," solemnly declared Doctor Brumbaugh. "The facts alone must determine the verdict. If, as some insinuate, there have been fraud and graft in any department of our State government, it is now and here the duty of the present auditor general and State treasurer to disclose the truth and institute prosecution.

"They were chosen by the people to do this. It is their solemn obligation to act if action is required. It is also their duty to the people to deny insinuations if they be not true. If they fail to act, I pledge you that if elected and any official is shown guilty I shall tell the people the truth; shall immediately dismiss any one who hurts the people of Pennsylvania, and I shall personally prosecute such offenders as promptly prosecuted.

For a Square Deal "You shall have a square deal and a clean State. "If I elect I solemnly pledge you that I shall appoint to office only men who are known to me to be honest, earnest and efficient, and men whom the people of Pennsylvania shall at once agree are wholly desirable men to serve in public administration. "I guarantee to you a square deal in all the appointments and no favoritism."

50-YEAR-OLD ODD FELLOW RECEIVES JEWEL OF HONOR

Judges Kunkel and McCarrell Among Speakers at Banquet in Honor of Charles A. Wilhelm

At the Commonwealth Hotel last evening Charles A. Wilhelm was the guest of honor at a banquet given by a number of his Odd Fellow friends, in testimony of his fifty years' active service as a member of the Independent Order of Odd Fellows, and received from them a beautiful "Veteran Jewel," the official decoration of the order for such members as have completed fifty years of continuous membership. Mr. Wilhelm's "Jewel" is the seventy-second to be bestowed.

The event was the first of the kind which has ever occurred in this city and vicinity. The recipient of the honor was kept in ignorance of the preparations and was lured into the banquet room under a pretext which prevented him from learning the nature of the event. He was then apprised that the banquet was in his honor, but the presentation of the "Jewel" was withheld until the completion of the menu, when he was

Hundreds of Trees to Be Set Out Throughout City Arbor Day by Park Men and Property Owners

Nathan C. Schaeffer, State Superintendent of Public Instruction, having fixed next Friday, October 23, as the Fall Arbor Day, many property owners will take advantage of that date to plant trees. It is said that the City Park Department will set out hundreds of fine trees in the river parks and elsewhere throughout the park system.

A tree expert said to-day that it is extremely important that the right kind of trees be selected, so that they will grow and be what the planters desire in the long run. The list of trees suited for Harrisburg's climate and soil is as follows:

- Ash-leaved Maple
- Red Maple
- Pin Oak
- Tulip Trees
- Gingco
- Catalpa

Two varieties that should not be planted are Carolina Poplar, because of its short life and persistent and reaching root system, causing trouble with sewers, raising pavements, etc.; the Silver Maple, because of its brittleness in not withstanding wind and snowstorms. The most important thing to consider in the selection of varieties for street planting is to adopt a variety that is now dominant on the street, provided it is a good tree and suitable. The suitability is determined largely by the width of the street. Narrow streets should have the more upright growing trees, such as Gingco, Pin Oak, Ash, Tulip

Halifax Hears How One McCormick Worker Failed to "Get His;" Big Meetings

How \$10 of the McCormick campaign fund went to purposes not exactly in accord with the candidate's expressed views on local option was told by Senator E. E. Beldeman at a Republican mass meeting in Halifax last evening.

The uproar of laughter that followed the recital showed very well that the audience knew the circumstances and appreciated the joke. Senator Beldeman said he had been reliably informed, after reaching town last night, that when Vance C. McCormick was on his way to the Enterprise picnic last summer he had given one of his followers in Halifax,

Farmer Dies After Being Rescued From Old Well on His Farm

Bristol, Pa., Oct. 17.—After being imprisoned for eighteen hours in an old 30-foot well on his farm, near here, William Chapman was rescued by farmers early to-day only to die as he entered his home.

Chapman fell into the well yesterday while he was cleaning it and the sides began to cave in on him. His wife summoned help, but not before the man was almost buried by dirt and stone. By chance the falling mass formed an arch over him, enabling the rescuers to reach him with a tube, through which he was able to receive fresh air and stimulants.

All night long fifty farmers labored to bring the man out alive, while his wife and daughter knelt in prayer that he might be saved. At daybreak Chapman was lifted out unconscious and an hour's work with a pulmotor revived him. "Thank you boys, for what you have done," Chapman said as he was led to his home. As he was about to step into the house he collapsed and died while physicians were working over him.

Victorious German Army Pushing Along Coast to Take Strategic Cities

Great Battle Is Now Being Fought in Western Belgium; Soldiers Who Successfully Besieged Antwerp Are continuing Their Successful Movements; Official Intelligence Is Markedly Meager.

The German army that successfully besieged Antwerp has swept victoriously westward along the Belgian coast until now with its right resting on Ostend it forms the extreme right of the German stretching from the North Sea to the Swiss frontier.

A great battle to determine whether the advancing German host will be stopped in Western Belgium or push on into France, seizing Dunkirk and Calais on the strait of Dover, must come soon and quite possibly is being fought to-day.

Official intelligence is markedly meager to-day and this invariably is the case when the belligerents are particularly active.

The French official statement this afternoon says that the German troops occupying western Belgium have not crossed the line running from Ostend south to Menin. The allied troops have occupied Fleurbaix and the immediate approaches to Armentieres, it is announced, while further gains are claimed in the region of Arras and the vicinity of St. Mihiel.

Berlin announced that a gigantic battle is preparing in the eastern theater where the Austro-German forces have taken positions along the Vistula and San rivers.

Vienna states officially that fighting continued Thursday along the entire battle front from the southeast of Przemysl to the mouth of the San.

A correspondent at Flushing, Netherlands, reports that the greater part of the German army after the occupation of Ostend, left for the east.

BREAK FOR LIBERTY COSTS LIVES OF TWO MEN IN STATE PRISON

Bloodhounds Are Now on Trail of Life Termee Who Escaped Last Night

Folsom, Cal., Oct. 17.—Possessed of the country surrounding Folsom State prison for convict Frank Creeks who escaped last night in a break for liberty which cost his cellmate, Harold Flash and J. B. Drury, a sergeant of the guard, their lives and resulted in serious injury to two prison guards. Warden John Smith, in charge of the pursuit is using bloodhounds. Creeks, a life termee, and Flash, who was serving a twenty year term for robbery, were the only prisoners concerned in the outbreak. They had obtained a knife, a dumb-bell, to be used as a bludgeon and a piece of metal with which to unlock the door of their cell. Gaining the yard they crouched behind a door leading into the main corridor of the prison and awaited the approach of Sergeant Drury and Guard Kerr.

When the two, bearing four guns for the guards inside, entered they left

STOUGH TABERNACLE RISES AS HUNDREDS OF MEN HAMMER

Frame Work of Huge Building Nearly Completed by Volunteers

With just the right weather conditions for a good day's work, between two and three hundred men turned out this morning at the site of the Stough tabernacle.

Work was begun at 7 o'clock on the tabernacle and by noon nearly all of the foundation and heavy parts were erected. Every hour of the day more men reported and started to work and more than five hundred were working all or parts of the time.

Among the workmen are some of the ministers of the co-operating churches. No list of the names of those who volunteered was kept by the committee, but the following were caught with hammer and nails, showing the many onlookers that they can do other things as well as preach a sermon:

- Some of the Men on the Job
- The Revs. W. H. Dallman, J. A. Lester, C. A. Smaucker, W. N. Yates, Harry N. Bassler, P. H. Balmbaugh,

WORKHOUSE VAGRANTS SLIP QUIETLY AWAY FROM THEIR GUARD

Four Prisoners Are Prisoners No More; Almshouse Steward Can't Explain It

Somewhere in the countryside "roundabout, four "day watchmen" vagrants still remaining at large and chucking over the ease with which they gave the almshouse watchmen the slip yesterday morning.

The four, John White, Howard Wilbest, Joseph Falen and James Clark, had been sentenced by the Mayor to put in ninety days cracking stones at the almshouse quarry. During the night they slept in the lockup at the poorhouse and yesterday morning Watchman Jones rescued them preparatory to marshaling them for the march to breakfast. The quartet docilely permitted themselves to be marshalled—and then when the watchman turned to glance at the blue sky or the red and gold woods or something, all four quietly slipped out and hid themselves to the pike.

STOUGH WORKMAN HURT

L. H. Smith, one of the volunteer workmen on the Stough tabernacle, fell from the partly completed roof early this afternoon, a distance of about 20 feet. He was taken to the Harrisburg Hospital where an X-ray examination will be made Monday. He is suffering from a supposed fracture of both arms, a fractured rib and possible internal injuries.

SENATOR PROTESTS AGAINST SEARCH OF AN AMERICAN SHIP

Thomas Says Outrage Calls For Prompt Investigation by State Department

Washington, D. C., Oct. 17.—Protest against a forcible search of the American merchant ship Metapan by the French cruiser Conde in Mexican waters, was made in the Senate to-day by Senator Thomas. A letter was submitted by the Senator from R. W. Patterson, a passenger on the Metapan, who said officers of the Conde forced five Germans on the vessel to sign parole agreements binding them not to fight against the allies in the European war.

Senator Thomas declared that the "outrage" as reported by Mr. Patterson called for prompt investigation by the State Department. The letter set forth that the Conde stopped the Metapan between Cartagena and Puerto Colombia, on Sunday, October 4, at 10.30 o'clock in the morning. Two armed officers and two soldiers from the Conde, Mr. Patterson wrote, boarded the Metapan, which with other vessels of the United Fruit Company fleet had been recently transferred from British to
