STEEL CARS SAVE MANY PASSENGERS

Only Six People Receive Injuries When the Buffalo Flyer Leaves Rails

Special to The Telegraph Williamsport, Pa., Oct. 19. — All steel cars again proved their value as life savers when train No. 52, Buffalo-Philadelphia flyer, eastbound, on the Pennsylvania Railroad, was wrecked at Glen Union, 38 miles west of here, yesterday afternoon, while running 45 miles an hour.

The entire train, three day coaches, three parlor cars, a diner and a baggage car, left the rails, the engine and baggage car rolling down a six-foot embankment. More than 100 passengers were aboard. All were badly shaken up, but only six sustained injuries, and these of a minor nature, consisting mainly of sprains and bruises.

The injured are: Mrs. G. E. Van Riper, Sunbury, suffering from nervous shock. Dr. W. P. McCorkle, Pittsburgh, right eye injured.

Mrs. Edward Hawkey, Port Allegheny, nervous shock. Dr. W. J. Pyles, Swissvale, wrist bruised, leg sprained, bump on head.

Robert Wagner, Swissvale, right elbow bruised. All were able to continue their journey. None of the crew was hurt.

Some of the cars were badly battered, and it is admitted that had it not been for the steel construction there might have been heavy loss of life.

When the accident occurred the train was just passing a freight that was standing on a siding. The dining car toppled over against a freight car, this alone keeping it from going over the embankment with the engine and baggage car.

Although the baggage master was in his car when it went over, he escaped unhurt. A relief train was made up here and sent to the scene of the accident, arriving here with the passengers at 9.30 o'clock last night. Wreck crew were sent from Williamsport, Renovo and Lock Haven.

The train was in charge of a Buffalo and Susquehanna division crew and was due in Harrisburg last evening at 5.20 o'clock. Trains were made up here and passengers sent East and South. Delayed passengers reached Harrisburg at midnight.

CITIES ASKED TO AID UNEMPLOYED

Dr. Jackson Suggests That They Inaugurate Public Works to Give Work to Idle GIVES PRACTICAL THOUGHTS

Public Service Commission Will Meet Tomorrow With a Big Calendar Ahead of It

Suggestions that Pennsylvania municipalities undertake public works as far as expedient as a means of providing work for unemployed are made by Dr. John Price Jackson, State Commissioner of Labor and Industry.

Recently the bureau of statistics of the department undertook an inquiry into the state of employment in the State supplemental to its study of the immigration problem, which had been in progress for several months.

The recent tour of Europe by Dr. Jackson afforded him good opportunities for observing the industrial conditions and he found that in Germany and England prior to the war public works were being used as an outlet for unemployed labor.

The department then ascertained that a number of places contemplated municipal improvements, such as paving, sewers and grading, and also took steps to find out where building operations were under way on a large scale.

This was followed up with the suggestion that cities contemplating improvements should advance the start as soon as possible, it being pointed out that it is probably as economical to promote the project now when labor is cheap as to defer it.

It is recognized that the unemployed are a direct economic loss and State officials believe that prompt action on improvements would do much toward alleviating suffering.

In addition to suggesting that the improvements be undertaken soon to relieve conditions the commissioner is also urging a circular that municipalities establish employment agencies to bring employers and unemployed together.

WILL FIGHT EFFORT AGAINST FULL CREWS

Railroad Men Not Pleased With Bulletin Posted by Pennsylvania Railroad Today

Railroad men will fight any effort to have the Full Crew Bill repealed, brotherhood members in this city said today, after reading a bulletin posted by the Pennsylvania Railroad Company along the main line, announcing that efforts will be made to have the Full Crew Bill repealed in the several States in which it is in force.

It will be two weeks before the local lodges of trainmen and conductors party at the last presidential election, to pass resolutions recommending action and will forward the resolutions to their respective orders. Railroad men were in their best interest, to ask their representatives in the next Pennsylvania Legislature to repeal the extra crew law.

"This law causes a waste of \$1,100,000 annually in the employment of unnecessary men on the Pennsylvania system alone. "No one is more concerned than the Pennsylvania Railroad in securing maximum safety on its lines. Every train on this railroad has a full crew, and this extra expenditure adds nothing to safety or public convenience. The same money had much better be spent to remove grade crossings, improve tracks, signals and bridges and buy steel cars.

"We appeal to the people in their interest, we appeal to our employees in their best interest, to ask their representatives in the next Pennsylvania Legislature to repeal the extra crew law."

LETTERS-TO-THE-EDITOR

PLEA TO REPUBLICANS

To the Editor of the Telegraph: Through your columns can you not persuade your subscribers and all good Republican voters to not allow a paper so low and misleading as the North American of Philadelphia to enter their homes? Think of a paper which is mean enough and unreliable enough to profess to be so much against certain things, such as they accuse the Republican party as being interested in the booze business, when not more than a month ago they offered in an open letter to support said party.

They are of too changeable a way to ever consider their support worthy of the Republican party. Surely the Republican party is better off to-day by refusing to recognize them and their open letters.

They have always been uncertain and exaggerating. What little Republicanism they ever had they threw aside in supporting the Washington party at the last presidential election. Now they have in this campaign started Washington, turned and offered to support Republicans and finally wound up by going to the extreme of supporting Mr. McCormick and his clan.

Nothing is too bad and corrupt, according to their present writings, to be done by the Democrats, Brumbaugh and Penrose. I wonder that the North American would have been printing to-day of their good qualities if Messrs. Brumbaugh and Penrose had accepted their support of Mr. McCormick.

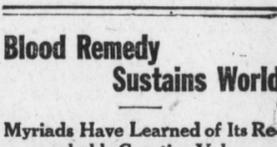

Surely they have shown in this alone to be against associating with even newspapermen in a corrupt and misleading way.

The Republican voters should not support such a paper and should congratulate themselves on having such a poor, weak opposition.

A REPUBLICAN.

Blood Remedy Sustains World

Myriads Have Learned of Its Remarkable Curative Value.

From the very fact that S. S. S. is a natural medicine, it is opposed by those who can not give up mercury and other dangerous drugs. Habit is a strange master. Afflicted people use mercury with a blind force of habit. Not warned by the rheumatism they see all around them, unmindful of the locomotor ataxia, paralysis and other dire results of mineral poisoning, they cling to the fast disappearing treatment so surely and positively being replaced by S. S. S., wherever the light strikes in. S. S. S. is fast becoming the world's panacea for all blood troubles because it is welcome to a weak stomach, is taken naturally into the blood, is a wave of purifying influence known by its remarkable results, and is the standby of a host of people.

It goes into the blood and remains a strong medicinal influence to the end and this without any other effect than that of a purely cleansing property.

It is the most universally recommended blood remedy known, and has sustained its reputation for half a century. Its ingredients are Nature's noblest antidotes for germs that create our worst afflictions. Get a bottle today of any druggist. Refuse all substitutes. Write the medical department, The Swift Specific Co., 62 Swift Bldg., Atlanta, Ga., for free advice on blood troubles, and how to overcome them. This department is one of the finest helps to men to be found anywhere, and it is entirely free.
