WILLIAM WILHELM IS OUT FOR KUNKEL

Prominent Washington Party Man Supports Him For Supreme Court

Pottsville, Pa., Oct. 25.—William Wilhelm, noted lawyer and politician, is out flat-footed in support of George Kunkel, president judge of Dauphin county, for the State Supreme Court. Mr. Wilhelm's statement has particular significance because he himself was one of the candidates for nomination for judge of the Supreme Court at the primary elections in May. Mr. Wilhelm is one of the Washington party leaders of the State, one of the original men in the progressive movement two years ago, being elected president of the Progressive League of Pennsylvania and assigned to high committee places in the councils of his Washington party. Mr. Wilhelm is in favor of Judge Kunkel's elevation to the highest court of the State because of the record of absolute fairness which that jurist has made upon the Dauphin county bench, where he has sat for eleven years.

There are many reasons why I am going to vote for Judge Kunkel," said Mr. Wilhelm. "It is well understood that nine-tenths of all Pennsylvanians were convinced that Judge Kunkel was the man to put in the whole duty in the Capitol graft cases. But what has appealed and does appeal to me even more than his faithful work in those cases is his consistent fairness in passing upon the nomination papers that came before him in 1910 and 1912." In this connection Mr. Wilhelm recalled the noted battles of the Key-stone party in 1910 and the Washington party in 1912, each of which led to numerous contests in the Dauphin county court over the right to use party appellations, etc.

"My activities in both those years," he continued, "and close personal contact with the leaders who were in opposition to the Republican party gave me, in connection with them, a chance to watch carefully Judge Kunkel in his official work. He convinced me and convinced nearly every one I had occasion to speak to about him, that he was doing his duty and had no thought of favoring the then dominant party, of which he was a member."

"When exception was raised to our Pottsville city charter and the matter was brought before Judge Kunkel for final determination he could not fail to know what everyone else knew. There were powerful interests lined up to nullify, through pleading of technicalities, the will of the people who had by their votes shown they wanted Pottsville to be a city. But despite this he proved himself to be jurist in the decision he finally rendered sustaining the Pottsville city charter."

The Great Emancipator said—"You can't fool all of the people all of the time."

For a good many years a lot of people have been fooled in the belief that coffee was good for them—that it was a harmless or even a beneficial drink.

It was only when the scientific research of the medical profession began to lay bare the bones of the coffee skeleton, that people awoke to the fact that much of the Nervousness, Indigestion, Heart Disturbance, Short Breath, Headache, Biliousness, Sleeplessness, etc., were directly due to coffee drinking.

The proof came to these people when they tried the easy test of quitting coffee for a while and used

POSTUM

If you are a coffee drinker and feel aches and ills you can't account for, try the simple experiment for ten days. Then you'll know the way to comfort.

"There's a Reason"

Coffee contains "caffeine" and "tannin," two dangerous drugs that vitally affect nerves, stomach, heart, liver and kidneys. Efforts to eliminate these drugs from the coffee berry, except in part, have proven futile.

Postum made from prime wheat and a small per cent. of wholesome molasses, roasted like coffee, and so processed as to create a mild Java-like flavor, is absolutely pure and free from the coffee drugs, "caffeine" and "tannin" or any other harmful ingredient.
