A SCIENTIFIC WAY TO REMOVE UNSIGHTLY HAIR

Apply a few drops of El Rado, the liquid hair remover, on the growth; after washing off with plain water not a trace of it will remain.

The ingredients in El Rado are used by many physicians for exactly the same purpose, which proves conclusively how perfectly harmless it is.

This wonderful preparation is the result of a long series of scientific experiments, and is proving a veritable godsend to women troubled with hair growths on lip, chin, cheek, neck or arms.

El Rado is coming to be regarded by society women as indispensable as face cream or toilet powder. Test it on your arm, prove for yourself it will do everything claimed. Your money back if you are not entirely satisfied.

MISS BUEHLER TELLS OF WAR-TORN EUROPE

How Little Holland Is Bearing Up Under Increased Responsibilities Miss Martha Wolf Buehler, who arrived last evening at her home, 232 North Second street, after a year's trip abroad, is being kept busy telling of her travels, especially since war was declared in Europe.

Miss Buehler joined Miss Mary Robinson and the Misses Fleming of this city last June for a tour of Norway and on their return they went at once to Berlin, where they remained in safety and comfort until the end of September.

In Holland were 3,000 Americans awaiting transportation home. With the number of Belgian refugees ever increasing, their own army mobilized on the border, the little country is quite overwhelmed with its responsibility and lack of facilities for caring for the increased population.

Miss Buehler says that in Berlin everything was quiet, although there was a heavy war effort everywhere. It was wonderful to see the quick organization of the relief funds for families of the soldiers; committees for the wounded, and for the sick and convalescing.

"In the Voivre district our troops have continued their advance in the forests between Arras and Arras.

Plans for Combining Industrial Home, Aid Society and Nursery Home Three of the more important associations of the city engaged in work among needy children have been consulting over a proposition to merge the three organizations in one for more efficient effort.

At a meeting of the managers of the Children's Industrial Home on Monday, after thoroughly discussing the matter, a resolution was adopted agreeing to co-operate with the Children's Aid Society and the Nursery Home Association, but the sentiment was against any merger which would destroy the identity of the Children's Industrial Home, one of the oldest institutions of the city.

Women of all classes are knitting, knitting, all the time, the heavy woolen stockings for the soldiers. These hose outwear anything that can be bought and are so comfortable on the long marches.

In Berlin the theaters and concerts have been resumed for the musicians and actors must be supported. Miss Buehler says her party was able to see and hear plays and music such as though there was no war.
