Washington Dispatch Shows How the Democrats Are Working Things in Publicity

A Washington dispatch says: "In their endeavor to make a bad case good, the Democratic congressional committee has been guilty of one of the most cowardly deceits known to political tricksters, that of poisoning the news at its source."

"The Democratic textbook for 1914 exhibits this perversion most graphically in the parenthetical political designations of the newspapers from which numerous excerpts are reproduced in the volume. In not a single instance have the editors and compilers of the textbook adhered to the facts."

"Quotations from independent newspapers are credited to 'Republican' dailies. Quotations from Democratic newspapers are alleged to be from 'Independent sources,' and whereas when the committee has seen fit to republish strictly Republican comment it has designated the newspaper from which the clipping was extracted thus: 'From the Baltimore American (Stand Pat).'"

"There's a Reason"

why more and more coffee drinkers quit coffee and use---

POSTUM

Once convinced that coffee-drinking is actually harmful to health, few parents would give coffee to their children, or drink it themselves.

What proof more convincing than the unnatural aches and pains that many coffee-drinkers suffer?

What proof more conclusive than the scores of expert medical and scientific opinions against coffee?

Brain, Stomach, Heart, Liver and Kidneys are the first organs to be affected. Sometimes it shows in headache; often in nervousness, indigestion or heart disturbance; frequently in biliousness or disturbed vision.

If you are in doubt, try this test--- Stop coffee ten days and use POSTUM

This pure food-drink made of prime wheat and a small per cent. of molasses, has a rich, Java-like flavour and is absolutely pure and free from the coffee-drug, caffeine, or any other harmful ingredient.

Postum comes in two forms:

Regular Postum—must be boiled. 15c and 25c packages.

Instant Postum—needs no boiling. A teaspoonful of the soluble powder stirred in a cup of hot water makes a delightful beverage instantly. 30c and 50c tins.

Grocers everywhere sell both kinds, and the cost per cup is about the same.

Thin Blood and Dyspepsia

Thin-blooded people generally have stomach trouble. They seldom recognize the fact that thin blood is the cause of the indigestion, but it is.

Thin blood is one of the most common causes of stomach trouble. It affects the digestion at once. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this condition nothing will more quickly restore appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and the enriched blood strengthens weak nerves, stimulates the tired muscles and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite and soon the effect of those tonic pills is evident throughout the system. You find that what you eat does not distress you and that you are strong and vigorous instead of irritable and listless. You are now on the road to health and care in the diet is all that you need.

The Dr. Williams Medicine Co., Schenectady, N. Y., will send you a free diet book free on request. Your own druggist sells Dr. Williams' Pink Pills.—Advertisement.
