Dr. Dubs Tells Evangelicals of Life in Chinese Mission Field

The Rev. C. Newton Dubs, D. D., superintendent of missions in China for the United Evangelical Church, last night delivered an address in the Harris Street United Evangelical Church. Dr. Dubs told of China and the possibilities there when the country is fully awakened. He said that the natural resources were great and that the intelligence of the race was remarkable. ### AUTOS HELP TO FIGHT FIRES

Experiences with forest fires on the national forests this year show that automobiles, where they can be used, furnish the quickest and cheapest transportation for crews of fire fighters. Motor rates are higher than those for teams for the actual time employed, but the total cost per distance traveled and in wages paid to men in getting to fires is much less. The time-saving is self-evidence; day, another meeting will be held on Friday. Miss Saxman will be speaker.

### RUSSIAN EMBARGO ON TIMBER

The Russian government has placed an embargo on all kinds of lumber, to prevent its exportation; walnut lumber, including Circassian walnut, much prized by American furniture makers, is specially mentioned.

### Sore Throat or Mouth.

You must keep the throat and mouth clean and healthy. Any disease that attacks the canal through which must pass the food we eat, the beverages we drink and the very air we breathe is a serious matter. **PARIS CHURCHES ARE CROWDED.** Correspondent of The Associated Press, Paris, Nov. 15.—The cathedrals of Paris are crowded each Sunday with persons who have been awakened to new fervor by the war. Every day there is a continuous file of faithful in the churches of every parish in Paris, burning candles to their patron saints. They are mostly women, but the men are in far greater proportion than has been seen in the churches in many years. Among these men are many wounded, who make their way painfully to the altars on crutches in order to perform their devotions.

In the improvised chapel at Pasteur Lyceum Building, where the American Military Hospital is located, an altar was provided at one end for the Catholics and at the other end for members of the Church of England, while a pulpit was made in the center for the Protestant Non-conformist services.

ing session of the three-day meeting. Dr. Jackson, who is head of the department which had called the conference in conjunction with the Engineers' Society, of which he is president, made the opening address in the absence of Governor John K. Tener, who could not be here. He reviewed the work of his department, enlarging upon the co-operation given to his department. He mentioned the fact that over 250 persons had co-operated in drafting safety standards and said that between 700 and 800 persons in industrial establishments in this department is to get 25,000 persons to act as heads of safety organizations in various industrial plants.

The commissioner declared that while labor laws were being broken, he thought satisfactory progress in punishing the infractions and in enforcing them was being made, and voiced the hope that changes in laws would be made after full consideration of all sides and calm study to find the most practicable methods. Dr. Jackson, in charge of most of the work, outlined the full discussion of compensation and other problems, without personalities, during the conference.

Dr. Jackson, in charge of most of the work, outlined the full discussion of compensation and other problems, without personalities, during the conference.

**Prominent People Here**  
Dr. Jackson was heard by a large audience of men and women, including some of the leading workers for safety and welfare in the state, and was especially earnest in his appeals for co-operation. The co-operative thought was carried out by David Van Schanck, of Hartford, one of the leading insurance executives and experts, who spoke of what had been done to reduce the hazards and how intelligent co-operation can be obtained only by taking cognizance of the opinion of the employee, the man who had to work with the machine and the man who faces dangers. Mr. Van Schanck said that if there was one point of contact between the employer and employe, others would follow, and betterments would follow as a result of the co-operation. In closing he highly complimented the state authorities for the conference and urged that co-operation be given the fullest consideration.

The splendid work of the New Jersey Zinc Company at Palmerton, Carbon county, in caring for the welfare of its hundreds of foreign employes and their families, was the extent of spending thousands and thousands of dollars on kindergartens, playgrounds, direction of games, was told by Miss Florence Hughes, who is in charge of most of the work. It was a fascinating story of the development of a "neighborhood house" and the care given to the children had won the parents. On other days 10 cents will be charged.

The town did not have one commercial dance hall, but had many of good, wholesome amusements, including dance places, where every attention was given by the dancers to propriety.

This afternoon sectional meetings were held and late to-day John F. Robin, head of the Boot and Shoe Workers' Union and president of the labor trades department of the American Federation of Labor, spoke on industrial betterment.

To-night will be "Safety First" night.

## Big Welfare Show Now on Full Blast

This evening a concert by the Updgrove orchestra will be given. To-morrow night the delegates in attendance at the Welfare and Efficiency Conference will attend the exhibition. The price of admission for to-morrow will be 25 cents. On other days 10 cents will be charged.

An interesting feature of the exhibition is the large number of Harrisburg manufacturers and firms represented.

## EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If feverish, bilious, constipated, give fruit laxative at once

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste. When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Advertisement.

## WHY IT SUCCEEDS

Because it's For One Thing Only, and Harrisburg People Appreciate This. Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only. For weak or disordered kidneys. Here is Harrisburg evidence to prove their worth.

E. A. Backenstoss, railroad brakeman, 1606 North Fifth street, Harrisburg, says: "I have used Doan's Kidney Pills on different occasions whenever I have had pain across my kidneys and it has required only a few doses to relieve me. I couldn't recommend anything better for backache and I never hesitate to do so whenever I hear anyone complaining of their kidneys. Doan's Kidney Pills have been a household remedy in our family for years."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Backenstoss had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.
