DOMESTIC SCIENCE IS PROVING BIG SUCCESS

Central High Girls Are Learning to Cook Even Better Than "Mother"

Cranberry sauce and muffins for part of that Thanksgiving Day dinner are the things that Miss Frances Hamilton, instructor of domestic science at Central high school is teaching the girls at the school in their course this week.

The new department of the school started just three weeks ago, but the things these girls have learned to cook—well here is the list—cocoa, baked apples with whipped cream, scalloped oysters, creamed vegetables, cream soups, biscuits (and good ones, too), fruit rolls, baked sweet and baked white potatoes, cream toast, crisp crackers, and croutons. Makes you hungry, doesn't it?

But, seriously, the new course promises to become the most popular at the school. The work is done under the direction of Miss Hamilton, who makes the girls take care of everything. Some of them keep the kitchen clean, some have charge of the ovens when baking day comes 'round; and each is responsible for her desk and arrangement of the utensils in it.

Home Work Counts
Instead of answering "present" to the roll call each day, the girls tell what they have made at home. Some of them have lists of six or eight things that they learned to cook at school and have made at home.

At first some of the girls came to school and said that their parents did not approve of the course, but when their girls went home and showed mother something new, the course was considered fine.

At present there are eighty-four freshmen, fifty juniors and fifty-six seniors being taught how to cook. The sophomore class members have been barred but they will be allowed to take the course next year. There is not enough room to accommodate students from all four classes.

Skeptics, Read On!
Professor W. S. Steele, principal of the high school, Miss Edna Bowers, Miss Grace Tamm, Miss Anna Saul and some of the other teachers at the school have visited the domestic science kitchen and sampled the cooking of the girls. Being acknowledged authorities on good cooking they were asked how these things were. "Fine" was the unanimous answer.

Miss Hamilton said this morning that she is well pleased with the work the classes are doing, and that lots of interest is shown, many of the girls spending extra time helping out in the kitchen.

"I am proud of the girls and the fine work they are doing," she said, "and I think that this is one of the best departments that could be in the school course because it is practical and gives the girls a chance to DO something."

One look at the kitchen or the appetizing things that the girls make will convince any skeptical person that she is right. As for the girls, everyone of them think it is the best thing at school.

WAR TAX CAUSES WAGE CUT

Special to The Telegraph
Dallastown, Pa., Nov. 25.—Employees of the cigar factory of J. C. Hecker, one of the largest in the borough, were given notice of a reduction in wages of \$2 a case. The reason assigned is the new war tax upon manufactured cigars and means that the burden in this factory is to fall upon the employer. No other factory has announced a cut in wages.

Eating When Others Are Through Is Not Gluttony, But Stuart's Dyspepsia Tablets Will Enable You to Have Such An Appetite

In these days of high pressure most men and women eat very little and a good old fashioned eater sits at table after all have left it.

The best way to get such an appetite is the Stuart way—the natural way.

Landlady: "Ever since Jones took Stuart's Dyspepsia Tablets I've lost money on him."

If your stomach can not digest your food, what will? Where's the relief? The answer is in Stuart's Dyspepsia Tablets, because as all stomach troubles arise from indigestion and because one ingredient of Stuart's Dyspepsia Tablets is able to thoroughly and completely digest 3,000 grains of food, doesn't it stand to reason that these tablets are going to digest all the food and whatever food you put into your stomach?

Stuart's Dyspepsia Tablets are carefully made to supply every element lacking in a system afflicted with dyspepsia, indigestion, gastritis, stomach trouble, etc., and to aid healthy systems to digest difficult food at unseasonably hours.

Just carry one of these little tablets in your purse or pocket. After every meal, no matter when eaten, you have always at hand the assistance that nature will relish and thrive upon.

In this manner one may eat all manner of food, attend late dinners, etc., and feel no serious results afterwards.

Thousands of travelers always have a box of Stuart's Dyspepsia Tablets in their grips and are thus enabled to eat unaccustomed meals at any and all times.

Surely there is nothing so well adapted to sufferers from food follies as Stuart's Dyspepsia Tablets, and the greatest proof of this fact lies in the assurance that one can purchase Stuart's at any drug store anywhere in this country.

Miss Fritz Scheff will appear in "Pretty Mrs. Smith" at the Majestic this evening. Oliver Morosco, who produced this piece, is also part author of the book, having worked in conjunction with Elmer Harris. The music is by Alfred Robyn and Henry James, and Earl, one of the scenic artists, a much-married sojourner stay in New York, Smith has hurried to this famous resort to seek rest. Her jealous husband also arrives there. About the same time two former husbands put in an appearance. The fact that Drucilla believed the others dead, adds to her predicament, and upon the possibilities of these complications, the story is erected.

"THE YELLOW TICKET"

H. Woods and with the beautiful Jane Baker, as "Rose," Joseph R. Garry, Eddie Shayne, Percival T. Moore, H. A. La Motte, Gus Forbes, John Winthrop, Nicholas Judels and little Joyce Fair. "Shark" Manning is chief of the Mud-flat robbers, and has for his aide Dick Brackett. The gang robs some freight cars, and Detective David Dale is sent to get evidence against the robber band. "Shark" Dick and two thieves steal a \$10,000 necklace. Dale happens to see Dick crossing the flats, chases him, and Dick, fearful of capture, drops the diamond necklace into one of the troughs. Dale, disguised as a stevedore, visits the Brackett camp, falls in love with Stella. Dick hears a street preacher denouncing thievery, and resolves to reform. Manning tries to kill Stella, and Dale bests him in a fight. "Shark" has Dick shanghaied on to a ship almost at the turn of the tide. Africa. "Shark" then learns that a gigantic hydraulic dredger has begun work dredging the strait, and Dick dropped the necklace. Dale meets one of "Shark's" pals, makes him confess the whereabouts of the necklace. Dale and Stella climb on a railroad handcar and speed away down the track for the "wharves." Dick, who has learned Dale's plans, follows them on a horse, and after many thrilling scenes Dale and Stella resume their race, rescue Dick and return home.—Advertisement.

ORPHEUM
One of the best mirth-producing acts that has been seen at the Orpheum for many a long day is entitled "The Piano Movers," being presented by McDevitt, Kelly and the young pianist, who is the fun that takes place when two "crazy" comedians, playing the parts of piano movers, make the most splendidly attractive young actress' apartment, must be seen to be appreciated. The piano movers sing a little, dance some, but evoke round after round of hearty laughter with their antics and rich lines. The united efforts of this clever trio is a comedy hit. The first act is a splendid vocal offering is served up by William Burr and Daphne Hope at the Orpheum. The management is not to be classed from the get-away, being a refined blending of love songs that one sings to the other, each with their own artistic stage arrangement together with the talents and culture of the artists, in the most modern style of merit and beauty. The Golden Troupe of wonderful Russian Dancers, of course, occupies the coveted position of headline. The troupe comprises twelve Russian artists, singers, dancers and musicians, who are given a splendid scenic divestment is quite elaborate. Throughout the Orpheum's holiday bill is excellent. DEER SEASON MUST UNDERGO CHANGE

Dr. Kalbfus Says That Experience Has Shown That It Should Be in December Hereafter

"Deer hunters and many men interested in hunting throughout Pennsylvania will ask the next Legislature to change the deer hunting season and I sincerely trust that a change of the season to make it run from December 1 to 15 will be made," declared Dr. Joseph Kalbfus, secretary of the State Game Commission to-day. "The season just closed has been very successful, but there have been people killed and the change in the law should be made on humanitarian grounds, if none other."
"After December 1 the leaves are all off the tree and the bird hunters have finished up their hunting," he continued. "With the leaves off there is less danger of people being killed and a number of accidents will be greatly reduced. Deer can be better tracked and as snow comes early in December in some quarters it will be better for hunting. I think that when we get the figures compiled and show the number of people killed or wounded by mistake the force of these arguments will be recognized."
Dr. Kalbfus says that the deer season has been very successful and that the number of bucks killed will be large, although he says that shooting of does went on. The bodies were found and efforts to arrest the persons responsible will be made.
Every game warden, the paid men and the men who act as wardens through love of sport and game preservation, will be asked to make a report of the number of deer, pheasants and quail killed.
The game official is of the opinion that the shooting of wild turkeys will be legalized next year. There has been a closed season on turkeys for two years.
The season for grouse and Hungarian quail and squirrels will end on November 30.

Acid Stomachs Are Dangerous
Common Sense Advice by a Distinguished Specialist.
"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, (sometimes) even when they are given for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisphurated magnesia, a simple antacid, taken in little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the stomach is followed with a little bisphurated magnesia, which can be obtained from any drug-gist, and should always be kept handy.—Advertisement.
