FIGHTING AT YPRES AGAIN; KING GEORGE GOES TO FIRING LINE

Kaiser's Soldiers Save Themselves and Are in Turn Preparing to Renew Attempt to Reach Warsaw; Cracow and Przemysl Threatened by Invaders; Little Change in France and Belgium

KING GEORGE PAYS FIRST VISIT TO THE FIRING LINE

LONDON, Dec. 3, 1.18 P. M.—King George of England, who has been visiting the British lines in Flanders, went out to the firing line to-day, according to a telephone message received this afternoon by the Evening News from Calais.

For the first time since the Germans were checked in their advance on Warsaw it was possible to-day to gain a fairly clear idea of the military situation in Russian Poland in its broader aspect. Advices from both Berlin and Petrograd indicated that the Germans had definitely succeeded in throwing back the enveloping Russian forces and were maintaining stolidly their positions west of Lovicz. Furthermore, it is said the Germans are again undertaking an energetic offensive. The completeness of change in the situation, ascribed variously to the failure of the Russian General Rennenkampf to close up the ring about the Germans and to the brilliant strategy of the German leaders, is indicated by a report telegraphed from Petrograd by an English correspondent who previously had announced that the Russians had won an overwhelming victory. He now states that the Germans are holding their positions and that the situation "remains extremely interesting and hazardous."
